MEETING OF SCIENCE CLUB

Held Last Night in the Physics Room
Before a Large Crowd.

INTERESTING AND VARIED PROGRAM

The second meeting of the Science Club for this term, and the last for this year, was held last night in the Physics Lecture room in the new hall. The room was entirely filled, a large number of young ladies being present also. Prof. Pegram took occasion to congratulate them on their presence.

The first thing on the program was a talk by Prof. Pegram on the "Metallurgy of Iron." He explained what is meant by metallurgy—the process of obtaining the metals from the earth and the probable causes which have operated to make the iron obtrude itself here and there. Prof. Pegram spoke in a most interesting way, and the audience was highly pleased with the exposition.

In addition, the paper was written by Miss Minor, of the Junior Class, and the probable causes which have operated to make the iron obtrude itself here and there. Miss Minor's paper showed a very good knowledge of the subject, and the audience was highly pleased with the exposition.

Another interesting paper was given by Miss Minor, who spoke on the "Earthquakes." She described very clearly what an earthquake is, how it is caused, and the effect it has on the earth. The audience was highly interested in the exposition.

The final part of the exercises was a recitation of a collection of views, which were read aloud by Miss Minor. The recitation was very interesting, and the audience was highly pleased with the performance.

The next week's issue of THE CHRONICLE will be a double issue, in the nature of an athletic edition. During final examinations the paper will not be published on account of the large amount of work which falls to the lot of all the students. Tuesday of the preceding week, however, the last issue will appear again as a double number.

The Concert.

Entertainment by the Glee Club and Orchestra pronounced First-Class—Last of Season—Program Rendered.

On last Friday evening the Glee Club and Orchestra gave their last concert for the year 1906-7 to an appreciative audience, which almost completely filled the auditorium of the Southern Conservatory of Music. The program rendered was so enjoyable and many of the numbers were beautifully and carefully rendered to respond to encores.

Although greatly handicapped by the absence of its leader, the conductor, and the clarinetist, the orchestra did some splendid work and carried off the honors of the night. The various selections played being of a high order and well interpreted.

The Glee Club likewise received much attention although observed generally made a good showing for itself. The quartette, too, had its selections well in hand and received its just medallion of praise, doing very well under its new leader.

Miss Pearl Brinson, who kindly sang a vocal solo in place of the violin solo by Mr. Kimbrough, who was absent because of illness, gallantly rendered "Winds of the Trenz," and her number was amply more heartfelt than any other on the program.

Mr. Williams, with his recitative, caught the imagination of the audience and was forced to render again, as he appeared, as did also, Mr. McPhail with his banjo solo.

Taken as a whole, the entire entertainment was pronounced good and deserving of credit.

The program given follows:

1. The New Medley—Overton—Glee Club.

Part II.

8. March—"Feather Queen"—Overton—Glee Club.
12. The Dog and the Lady—Reading—J. Leon Williams.
13. Dr. Peters, P. P. Jones—Choir.
TRINITY PARK VICTORS.

Won Last Contest of Season From the Warrenton High School by Score of 9 to 1—April 12.

Trinity Park School closed her baseball season for 1906 Saturday afternoon in a pretty game with Colonel John High School on Hanna Athletic Field, defeating the visitors by the score of 9 to 1, the first time in their history that Trinity could not succeed in making a clean sweep of their opponents.

In the game the visiting team, after an early rally, was easily made runs at different stages of the contest. For the visiters, Johnston was fairly good, but in the fifth inning, Sarrett had a fine hit and was safe. Clement reached first on error of first. Johnston made a clean single and was safe. Johnston hit safe to first and was safe. Clement went to third. Johnston made a clean single and was safe. Johnston hit safe to first and was safe. Clement went to third. The last game of the base ball season of 1906 was played at Concord on Saturday with the last team of the season. The Trinity boys took interest in this contest, knowing that it would not be taken into consideration when the individual records were made out. Their playing was not given a chance. Johnston being caught while trying to steal second. Three South Carolina scouts were present, and no one in the south was on hand to watch the game and the over was won.
