

**FREE COURSE FOR TEACHERS.**

Durham County Teachers May Take Work Without Cost.

TWENTY TWO TEACHERS REGISTERED.

Will Also Be Allowed Free Use of Library—After Given Amount of work Certificates will Be Issued.

In accordance with the utterances of the President and Dean Few, on Benefactor's Day, that Trinity College being the creature of benefactions "is under obligations to bestow benefactions," the college makes the following important announcements:

1. The college library will be open to any or all of the county teachers, and the time for keeping books out will be extended from two weeks to one month. All applications for use of library must be countersigned by the County Superintendent; and a deposit of \$2 must be made with the librarian.

2. Instruction will be furnished the county teachers free in such subjects as will be of most help to them in their work. The number of weekly recitations and the time for same will be arranged to suit their convenience.

3. The course will be so arranged that at the end of a given amount of work the college will issue certificates of credit to the teachers. The scope of work to be even broader than that required for high school certificates.

4. All city school teachers who desire to take any part of this course for county teachers will be permitted to do so free of charge.

This policy of the college was announced after a careful study had been made as to how Trinity College could aid the teachers of Durham county, and after the school conditions had been investigated and the teachers had been consulted.

This proposition of the college has been met by the teachers in a way that is most gratifying. In addition to the regular teachers association which is held once a month, and which is one feature of the educational department of Trinity College, being conducted under the supervision and guidance of this department, twenty-two teachers have registered to take the work mentioned above.

Courses of instruction have been arranged in the following subjects: English, History, Geography, Latin, Mathematics and Method of Instruction. While this opportunity is offered the teachers of Durham county, it is the purpose of the college to extend the work so as to include all teachers who desire to fit themselves for better teaching. Durham county contains one of the best school systems in the State. The term is eight months, and a large percentage of the schools em-

(Continued on second page.)

A GOOD Y. M. C. A. TALK.

Prof. Meritt Addressed the Association Last Week—A Good Number Present—Some Things That Abide.

Last Wednesday evening Prof. A. H. Meritt, of the department of Greek, addressed the Young Men's Christian Association. A large number of students, perhaps larger than usual, was present, and there was strong evidence that the meeting was a very good one. Prof. Meritt's talk was along the line of some things that abide, and showed that a great many of our beliefs are to be reconstructed as we advance along intellectual lines. In substance he said:

Everything in the physical world is undergoing change. Some of the first disappointments of childhood are seeing that the things which we thought stable and abiding are not so. The eternal hills are constantly being washed away, and solid rocks are all the while undergoing changes. Later on we learn that the ice on the Alps flow like a river, and even so firm a thing as steel flows under sufficient pressure.

In our school life we constantly have to unlearn what we thought we had learned. We constantly find that the text books differ from what we have learned at home. It is necessary for the student all the while to vacate his vantage ground of knowledge, to leave the position he had thought tenable, to accept the new positions, the new theories, and new definitions until he wonders if there is anything that is worth while, and if it will not all have to be relearned.

Christ's disciples had been passing through much the same experience, but He comforted them with the words that "In my Father's house are many abiding places," that is, positions are that tenable, vantage grounds, from which we need not retreat, realms of truth which do not change.

The law of love, the law of service is as eternal, and probably much more universal than the law of gravitation. The Fatherhood of God, the Kingdom of God are in the realms of truth which abide.

The essential truths of Christianity do not change, and the student who is a student for Christ's sake, will learn many things that he will not need to unlearn. "In my Father's house are many mansions"—to no one is this more precious truth than to a devout college student. And the comfort given to the disciples of old is ours if we will but accept it.

Mr. C. B. Culbreth, '08, who was compelled to leave college last spring on account of his health, returned to college last week to resume his studies. His health has greatly improved.

Visit the Royal Theatre, next door to Yearby's, 125 East Main street. Pictures changed daily.

PROPOSED ENTRANCE DRIVES.

For a Force of Hands Have Been at Work.

EXTENSION OF THE ANNE RONEY PLOT

Plans Call for Walk Down Center of Plot—Two Wide Driveways.—Work May Be Finished In Three Weeks.

For the past week a force of hands and several teams have been busy in front of the Duke building, changing the driveways, etc. Three or four of the largest trees near the pavilion have been removed which presents a decided change in the appearance of the ground.

The Anne Roney plot will be extended to the front gate, and will have a ten foot walk running down the center. At the fountain it will run on both sides, and will also go on both sides of the monument, which will be placed about midway between the gate and the Duke building. The plot will be seventy feet wide, but, of course, ten feet of it will be used for the walk way. It will contain grass, flowers and shrubbery, the same as the present plot. There will also be a walk way leading from the monument to the pavilion across the east driveway, and one running westward from the monument toward the west drive way. The end of the plot at the gate will be slightly enlarged to correspond with the plot as it now exists. This will give it somewhat of a dumb bell effect.

Another change will be made with reference to the walk leading to the east end of the Duke building. From the pavilion the walk way will begin just east of the new drive way. It will not extend further than the pavilion point towards the gate, but will lead in the direction of the monument.

The plans call for two drive ways, each twenty-five feet wide. Entering the gate, there will be the same distance as exists at the present drive just in front of the building, which is about forty feet. Two rows of trees will remain standing just inside of the plot extended; and the college will also probably place trees just on the outer edge of the new drive way.

There will be a small plot, triangular in shape, about fifteen feet to the side, where the drive makes a turn towards the front door of the building, and branches towards the west, in the direction of the Woman's building.

The stone frontage to the door steps will be removed and steps placed there. This is done in order to make the walk from the entrance to the gate a straight one.

It is estimated that the work at the rate it has been progressing will be finished in about three or four weeks, but nothing definite is known concerning the time when the monument will be erected.

PARK SCHOOL NEWS.

"Preps" Defeat Freshmen in Game of Base Ball—Prospects for a Good Basket Ball Team—Other Items.

(By J. L. Lockhart.)

Prof. W. S. Lockhart spent Saturday and Sunday at his home in Orange county.

The Park School and the Freshman class teams played a game of base ball last Friday. The score was 8 to 0 in favor of the "preps."

Mr. R. N. Fitts, one of the schools old ball players, returned to enter school last week.

The Grady Literary Society initiated four members last Friday night.

A large number of students from the school expect to go to Raleigh tomorrow to take in the Fair.

Several of the Park School boys went over to Chapel Hill Saturday to see a foot ball game.

A great deal of interest is being taken in basket ball this fall. The men trying for the team have been playing out on the college athletic field every day. The outlook for a good team is most encouraging. The following men are trying for places on the team: Bagley, Lukens, Pierce, Curren, Wells, Harris, Houstin, Fitts and Claywell.

Historical Society Holds First Meeting.

The first meeting of the Historical Society was held Monday evening, October 7th. It was primarily an organization meeting, and no special program had been arranged. The officers elected for the ensuing year are: Dr. W. K. Boyd, president; W. S. Lockhart, vice-president; W. A. Bryan, secretary and treasurer; T. M. Grant, curator of museum.

Quite a number of curios, relics, documents, etc., were presented to the society. Among the collection were exchanges from different Historical societies, historical documents and pamphlets, Indian relics, and a sword which was captured from the British, in eastern North Carolina, during the war of 1812.

After the business of the society had been transacted, Mr. Willis Smith read a very interesting paper, sketching briefly the life and work of the late J. R. B. Hathaway, editor of The North Carolina Historical and Genealogical Register.

The next meeting of the society will be held in November. No program has yet been arranged.

WANTED—Trinity Chronicle, volume 2, Nos. 1 and 11 (last year's issues) to complete my file. If any one has a complete file of the first year for sale (vol. 1) I should be glad to communicate with him. W. K. Boyd.

Boys don't forget to drop in at the Royal Theatre when down town. Program changed daily. Hours, 3 to 6 and 7 to 11 p. m.

BASKET BALL TEAM NEWS.

Team Will Be Picked Just Before the First Game.

THE FIRST GAME TO BE PLAYED HERE

Already Four Games Have Been Arranged—Two With Wake Forest and Two With Littleton—May Play Charlotte.

For a number of days the captain of the basket ball team has had his men out on the Hanes Athletic Field hard at work. He now says that the chances for a good team are most encouraging. There are nearly twice as many men at work as there are places on the team and every man is a good one. There are eleven contestants, with only five places to be filled. Those competing are: P. J. Kiker, E. Armfield, Oscar Baxter, H. W. Tuttle and C. Aude. Those trying for the position of "guard" are: W. B. Lilly, W. W. Watson, A. M. Proctor, W. B. Kiker and Willis Smith. Mr. R. M. Gantt is the only one trying for the position of "center."

The team is being coached by Dr. L. L. Hendren and Prof. W. W. Card. The team will not be selected until about November 10th, just a few days before the first game comes off. Out of door practice will continue as long as the weather permits; and the games with the other institutions will be played on the athletic field if the weather is not inclement.

Already the captain has arranged for four games, two of which will be played at Trinity. Two of the games will be played with Wake Forest and two with Littleton High School. The first game to be played will come off here with Littleton on November 14th, and the next one will be with Wake Forest, November 18th, at this place. On November 22nd the team will play Wake Forest at Wake Forest, and on the 23rd will play Littleton High School, at Littleton.

Captain W. B. Lilly has also been corresponding with a number of other institutions, but nothing definite in the way of dates, etc., has yet been arrived at. It is possible that the team will play the Y. M. C. A., of Charlotte, in that town sometime just before Christmas; and it may also play Wofford College at Spartanburg, S. C., sometime after the holidays.

The men this year seem to be going to work with a greater vim than heretofore has characterized the organization, and it looks as if the college community will have an opportunity of seeing some interesting games during the basket ball season. Owing to the large number of men trying, and the other men in college who have not been practicing that are capable, the college can very easily have two good teams this year.

DURHAM, N. C., Oct. 16, 1907

SOUTH ATLANTIC QUARTERLY.

We wish to call the attention
of our readers to the table of con-
tents of the South Atlantic Quar-
terly for October. All who are
interested in the intellectual up-
building of the Southern states
cannot fail to have pride in the
success of this publication. The
best periodicals in all sections of
the country have commended the
Quarterly in the very highest
terms

The North Carolina Christian
Advocate in speaking of the Quar-
terly says: "It reflects more credit
on North Carolina than any other
literary production of our time."

The Dial (Chicago) says that it
is "precisely the sort of periodical
of which our country stands in
the greatest need."

It is a source of peculiar gratifica-
tion to The Chronicle that a
publication of such a high stand-
ard is the product of this section
of the country. Any one, who
fails to keep up with articles pub-
lished in this magazine, fails to
keep in touch with some of the
most significant movements in
Southern life.

The publication is not officially
connected with the college, being
owned by an independent incor-
porated company. However, all
the stockholders are connected
with Trinity College and Trinity
Park School, and the editors are
members of the Trinity faculty.

Every once in a while a stu-
dent gets him up an advertising
scheme of some sort and presents
it to the various merchants of the
city. We wish to enter our pro-
test against such. The merchants
have long ago realized that the
advertising done on blotters,
schedule cards, etc. is not judi-
cious. In many instances, how-
ever, to preserve friendly relations
with the students soliciting the
advertisements, they have allowed
themselves to be faked. The
business men in the city have
been very good to the publications
at the college, and we are under

obligations to support our adver-
tisers by trading with them.
They are anxious to advertise in
our regular publications but they
are kicking, and have a right to
complain, when they are being
"overworked" by students every
year for advertisements that are
calculated to benefit only one
person.

Hazing.

The young men, who don't
want to stay in college unless they
can indulge in the brutal and
cowardly practice of hazing should
not only be allowed to go but they
should be made to go instantly.
An agreement not to engage in
hazing, circulated at the Univer-
sity, failed because some of the
classes would not agree to it.
College faculties and the public
have temporized with the conduct
of hoodlums in colleges long
enough. If the college authori-
ties can't restrain the vicious
law should take them in hand and
the public should promptly and
unanimously withdraw support
from any college whose authori-
ties cannot control the student
body.—Statesville Landmark.

We can truthfully say that no
hazing exists at Trinity College.
The entire college community
condemns it, and from the steps
that have been taken by the
students it can never exist
here again. We are frank to con-
fess that the brutal custom was
in vogue here, but for the past few
years, before it was entirely abo-
lished, it was slight.

In view of what we have stated
above, this criticism cannot be at-
tached to the students or the au-
thorities at Trinity.

Seniors Hold First Meeting and Elect Officers.

The Senior class held its first
meeting last Wednesday after-
noon. The first business to be
transacted was the election of of-
ficers for the year. Mr. J. M. Dan-
iel was elected president; L. J.
Carter, vice-president; J. B. Sid-
bury, treasurer and Miss Mary
McCallen, secretary.

In addition to the election of
officers several committees were
appointed to investigate certain
matters. The subject of a class
donation to the college, to be
presented next commencement
was also discussed, but nothing
definite was decided.

A committee was appointed to
arrange for a class banquet to
come off this fall. It will be re-
membered that the class last year
had a very successful Halloween
party, and it may be that the af-
fair this year will take place about
the same time that it did last
year.

Rev. T. A. Smoot made a very
practical talk before the Y. W.
C. A. at the Woman's Building
last Saturday evening. His sub-
ject was: "Mary hath chosen that
better part which shall not be
taken away from her." The de-
votional meetings are attended by
all the young ladies in the build-
ing, and have been sources of
spiritual help. It is customary
for one of the ladies to address
the meetings, but occasionally a
speaker is invited to make talks.
In addition to the prayer meetings,
the young ladies meet in the af-
ternoons on Sunday in Bible study
classes.

FREE COURSE FOR TEACHERS.

(Continued from first page.)

play two or more teachers. A fine
esprit de corps exists among the
teachers, and it is the purpose of
the college to effect a strong or-
ganization with the forces around
the college in order to extend the
usefulness of the college to all
who wish to take advantage of
the opportunities offered.

Great Interest in Tennis.

The tennis talent of the college
has been taking advantage of the
excellent weather during the past
week or ten days and a consider-
able amount of hard practice has
been done by a large number of
students. At the last meeting of
the Tennis Association the sub-
ject of selecting a college team
was discussed, and a managing
committee was appointed to make
arrangements for inter-collegiate
games. This fact alone, aug-
mented of course by the rivalry
that always exists between the
different classes in college, stimu-
lated the already live interest in
the game, and accounts, in a large
measure, for the increased interest
recently manifested by those who
play tennis. Tournaments, for
the purpose of selecting the class
representatives, from whom will
be picked the regular college
team, began during the early part
of last week, and a number of
men were eliminated before the
close of the week, making it pos-
sible for class players and also the
college team to be selected now
in a few days. From the class
champions will be selected the
men who will represent Trinity in
games with other colleges.

There is a magazine published
in our State, at Durham, which
deserves more than passing men-
tion. I refer to the South Atlantic
Quarterly, Dr. Edwin Mims,
editor. This magazine contains
articles of undoubted merit only;
the thought and research of men
eminently thoughtful and scien-
tific. Such a magazine, publish-
ed within our borders, should be
given hearty support.—Mrs. Walter
Grimes before Farmer's Con-
vention in Raleigh.

L. A. RONE INTERVIEWED

He Has Been Spending Some-time in Mexico—Great Opportunities for Young Men in That Republic.

Mr. Lloyd A. Rone, class '01, has been on a visit to the college for a few days. This is his first visit to the college in several years, and his friends have been glad to congratulate him on the success he has achieved in his profession. He is now a civil and mining engineer in Torreon, Coah, Mexico, being a member of the firm of Lineberger & Rone.

Mr. Rone was a popular student in college, and his career has been most creditable to himself and to his alma mater. He talked most interesting of life in Mexico.

While here he was asked by a reporter of The Chronicle if he would not say something about his home in this foreign country and the advantages offered to young men there. He said that he might say something that would be interesting to the engineering students. He said:

"The possibilities down there in hydraulic engineering and irrigation work seem great to me. There will be a great amount of work done down there within the next few years. In mining, the salaries are low to begin with, but there are good opportunities to get into business for self.

"The country, so far, has developed slowly. It is a mountainous, rough and rugged sort of country, with stretches of farming land in between. The possibilities in the way of irrigation are great and there will be lots of work to do in this field within the next few years.

He was then asked, How about the salaries paid?

"Salaries down there are not much higher than in the West, but considerably higher than in the East. For example, I suppose a stenographer here gets a salary of about \$60 per month; in that country he is paid \$125. However, the living expenses are greater.

How about the health in Mexico?

"As long as you are in the plateau country, you are safe. Along the coast and on the Isthmus there is some danger of fever. However, the government is keeping the hygienic conditions in good shape. The climate is about the same as it is here. It is hardly as hot in the summer and not as cold in the winter. On the score of health no one need stay away from the plateau section of the country.

Are there many Americans in the country? he was asked.

"There is perhaps a colony of about eight or ten thousand Americans in the City of Mexico. Americans practically control the mining business of the country.

"It is a good country for a young man that has the right kind of stuff in him. I have worked harder in Mexico (and got better pay for it) than I ever did in America. I would not advise a young man to go to Mexico without having something definite in view. He should also have some knowledge of the Spanish language.

"I have seen one Trinity man since taking up my abode in Mexico. I refer to Rev. J. H. Fitzgerald. He is a presiding

elder on some missionary district."

Mr. Rone further stated: "If any of the students here want any further information with a view to going to Mexico, I shall be glad to correspond with them."

Mr. Rone has been a subscriber to The Chronicle ever since its establishment and he spoke in a most appreciative way of the pleasure he had derived in keeping in touch with the life of the college, and with the Alumni of the institution.

WITH THE COLLEGES.

The legislature of Wisconsin has recently voted \$1,000,000 to the University of the State.

The captain of the foot ball team at Harvard only received 18 men in response to a call for practice work.

There are more women from the South attending the University of Chicago than any other northern college.

Three hundred and sixty students attended the University of Pennsylvania Summer School this year. Two-fifths of the number were women.

The Freshman class at Cornell this year numbers 1066. This is the first time in the history of the University that the Freshman class has ever exceeded 1000 members.

The council decided Monday night to hold the Trinity debate here if possible. The time was not definitely determined, although it is safe to assume that it will be near Dec. 15.—Vanderbilt Hustler.

The inducements offered to college graduates by the government to go to the Philippines since the islands were occupied by the United States, have resulted in sending there about 3,000 men and women.

Harvard has been called "The Mother of Historians." Prescott, Bancroft, Motley, Parkman, Palgrave, Hildreth, Fiske and Adams, are graduates of that institution. All of these men became famous historians.

Prof. David P. Todd, of Amherst, has been in Peru since last spring on the Lowell astronomical expedition. The expedition was very successful and the observer succeeded in getting some photographs of the Martian canals.

President Hadley, of Yale University, sails on October 8th for Berlin, where he will deliver a course of lectures on "The Industrial Organization in the United States." He will also conduct a special class in American Industrial History at the University of Berlin while there.

The mechanical engineering course at Columbia University will be greatly changed this year. A number of lectures will be delivered by prominent engineers, and the students will be required to spend some time during vacations doing practical work. This will serve to strengthen the regular staff of instructors.

Mr. A. S. Hobgood, class '06, who received his license to practice law at the recent examination before the Supreme Court of this State, has located in Durham for the practice of law. Mr. Hobgood possesses all the qualifications necessary to a successful practitioner. He is a native of Durham and has a wide range of acquaintance in the city and country.

ALUMNI NOTES.

[Items for this Department are Solicited by the Editor from All Students and Graduates of Trinity.]

Mr. Guy Baldwin, class '06, has a position with the Norfolk & Southern Railroad, at Norfolk, Va. After graduation Mr. Baldwin spent a year at Columbia University, New York.

Mr. Hoy Taylor, class '06, is now superintendent of the graded schools at Biscoe. Last year Mr. Taylor taught in the Cary High School. He was a very good student while here, and has been very successful since leaving.

Mr. D. D. Peele, who received his A. B. degree in '01, his A. M. in '02, and was for two years a graduate student at the University of Chicago, is this year professor of English in Columbia College, one of the foremost colleges for women in South Carolina.

Mr. W. W. Stedman, class '07, who is now principal of the Attapulgus Graded School, at Attapulgus, Ga., has entire charge of the school business of his district, both white and colored. He is already meeting great success in his work, the attendance of his school being nearly double that of last year.

Mr. Stonewall J. Durham, class '92, is engaged in the practice of law in Bessemer City. Mr. Durham was located in Charlotte when he gave up his practice to engage in cotton manufacturing at Bessemer City. He has now returned to his former profession. He represented his district in the State Senate in 1902-3.

Rev. W. G. Parker, a former student of Trinity, pastor of the Park View church, Portsmouth, has declined to accept the appointment as chaplain in the United States Navy which was tendered him by President Roosevelt a few weeks ago, and will remain in the Virginia Conference engaged in itinerant work. Mr. Parker has been a most successful minister, and occupies a position of influence in his church.

Dr. Paul V. Anderson, class '97, is now assistant physician at the Western Hospital, at Morganton. Dr. Anderson has been connected with this institution for about two years. At a meeting of the Board of Directors a few days ago. Dr. Anderson received a promotion. After his graduation Dr. Anderson was for some time connected with the Trinity Park School. He gave up this work to read medicine. As soon as he completed his medical course he was elected to a position on the medical staff at the Morganton Hospital.

Dr. Anderson comes from a family of physicians. His father is a physician in Wilson, and his brother, Dr. Wade H. Anderson, class '98, is also practicing in the same town. Dr. Albert Anderson, class '83, of Raleigh, is now Medical Director of the Standard Jefferson Insurance Company. For a number of years he was connected with a sanitarium in Wilson, where he was considered one of the best equipped and most successful physicians in that section of the country. Dr. Charles A. Woodard, a classmate of Dr. Wade H. Anderson at Trinity, and a cousin is now located in Durham where he is meeting with success.

Here's a Clean-cut Looking Fellow

THIS remark is often made concerning the young man wearing our Handsome Suits.

The young man of today demands the very newest fashions—the very latest innovations. No stubby coats, no narrow lapels, no bag-hanging garments for him this season. We select certain lines of suits from tailoring houses that are specialists in young men's clothes—whose styles are patterned after what one sees on the college campus—dashingly daring, but not to the extreme.

\$15 or \$18.60 or \$20 or \$25

But reserve your opinion until you have seen the suits.

SNEED-MARKHAM-TAYLOR CO.
GOOD CLOTHES

J. G. Gillispie, College Representative

The Cut of the Coat

Tells the taste of the tailor. The garment that strikes your fancy may not be the one that you should wear. In the mirror of the retail clothier you cannot see yourself as others see you. Is it safe to trust your appearance to the judgment of the ready-made salesman; biased by the necessity of fitting you to the clothing rather than the clothing to you? Individuality and character are subtly expressed in every garment I make. Years of experience in serving the best dressers guarantee that clothing made by me is perfect in style and finish, and is of the color and cut best suited to the wearers' complexion.

Minor Happenings About The Campus,
With a Record of People Coming
and Going.

Miss Mabel Isley spent Sunday at her home in Burlington.

Several of the University boys visited friends on the campus Sunday.

Miss Marie Manning, of Henderson, is the guest of Miss Christine McIntosh.

The Hesperian Literary Society is now making some improvements in its hall.

Mr. C. P. Franklin, class '06, who is now working in Raleigh, was on the park Sunday.

President Kilgo left Saturday for Seaboard where he went to dedicate a church on Sunday.

Mr. W. W. Carson made a business trip to Rocky Mount Friday. He returned to Durham Sunday.

Headmaster H. M. North, of Trinity Park School, will address the Y. M. C. A. tonight at the usual hour.

Mr. L. B. Pendergraph, '07, who has been seriously ill at his home in Durham for the past two weeks, is reported greatly improved.

At the first practice meeting of the Glee Club last Wednesday afternoon about ten new men were present to try for the vacancies.

A number of students drove over to Chapel Hill Saturday afternoon to witness a football game between Oak Ridge and the University.

Owing to the advancing prices of provisions, all the boarding houses on the park are this year charging from \$11 to \$15 per month for board.

Professors Few, Mims, Brooks and Flowers attended the meeting of the North Carolina Literary and Historical Association held in Raleigh last night.

A number of students will attend the Fair at Raleigh tomorrow. This is the only day the students will be permitted to go to the Fair. Recitations will not be suspended.

Mr. M. E. Nathan, '07, last year's local editor of the Chronicle, spent a few days on the park recently. He left Sunday night for Charlotte, his home, where he has a position with a bank.

Last Saturday Misses Annie and Bertha Stanbury, of the State Normal College, visited their brother, Mr. W. A. Stanbury. They were accompanied by their friend, Miss Bina Garvey, of the Normal.

Mr. Fred Connelly, who was in college last year, is now located in Waycross, Ga. He will return to college next year. He has been in Florida recently and from there he shipped Prof. R. L. Flowers two small alligators.

Rev. C. P. Jerome, ex-'83, of Pittsboro, visited relatives on the park last week. He came here from old Trinity, where he went to see his son, Mr. W. G. Jerome. He says that "Jerry" is well pleased with his work this year.

Mr. Jarvis Terry, who graduated at the Trinity Park School in 1904, was on the campus Monday, calling on his old class mates who are now in college. Mr. Terry has a very good position with the Southern Express Company, at Greensboro.

The Senior class this year numbers forty-nine. This is the largest Senior class in the history of the college. Up until the present the class of 1906 had the honor of being the largest, it numbering forty-three. The class last year numbered forty-one.

Rev. T. A. Smoot, pastor of Main Street Methodist Church, has announced that special religious services will be held in that church beginning Sunday, October 20th, and that Prof. H. M. North, Headmaster of Trinity Park School, will assist in these services.

Mr. and Mrs. B. N. Duke, Angier B. Duke, class '05, and Miss Mary Duke, class '07, arrived in New York Thursday on the Lusitania, which made the record breaking trip across the ocean. They have been in Europe for some months traveling in automobiles.

On October 30th Miss Eliza Richards Brown, of Raleigh, will be married to Mr. Edward Roe Stamps. Miss Brown is a member of the class of '06, and was exceedingly popular while here. She also graduated with a very high mark. Since her graduation she has been teaching in St. Mary's College, Raleigh.

Mr. R. M. Richardson, of the Freshman class, who was taken suddenly ill last Friday with appendicitis, is in the Watts Hospital. He was operated on Sunday by Dr. Long, of Greensboro, and it is reported that he is getting along well. His father and mother, Rev. and Mrs. N. R. Richardson, of Asheboro, are spending some time with him.

Dr. W. K. Boyd is now residing in West Durham. Mrs. N. B. McDowell, an aunt of Dr. Boyd, is living with him. Mrs. McDowell spent several months on the campus some years ago when Dr. Boyd was a student at the college, and her friends are glad to welcome her to the college community. Dr. Boyd has occupied a suite of rooms in Epworth Hall since he has been connected with the college.

One thing that impresses a person who looks over the names of the students in college is the number of students who are the sons of Alumni of Trinity. The loyalty of the Trinity Alumni is one of the most valuable assets the institution possesses. The oldest living graduate, Rev. J. A. Edwards, of Hookerton, has a grandson in Trinity Park School, the son of Dr. G. A. Edwards, class '78, of Hookerton.

At a recent meeting of the committee on public lectures, it was arranged to have all meetings of the Science Club on the first Monday night, and those of the Historical Society on the third Monday night of each month. This was done in order to avoid conflicts. It was also further understood that all matters pertaining to lectures of a public nature must be submitted to this committee in order to fix dates, etc.

Fink-Shelton, at Gastonia.
Gastonia, Oct. 10.—At the home of the bride's parents here, Miss Jessie Shelton was this afternoon at 4 o'clock married to Mr. Fletcher W. Fink of Concord. It was a quiet affair because of recent death in both families. The ceremony was performed by Rev. E. L. Bain, pastor of the Methodist church of Gastonia. The happy couple left immediately after the ceremony on train No. 12 for Concord, where the parents of the groom reside.

Miss Shelton is a daughter of Mr. and Mrs. H. D. Shelton, of this town, and is accomplished and attractive young lady. She spent two years at Trinity College, where she first met Mr. Fink while he was a student there also. He graduated from that institution with the class of 1903 and spent several years in Panama in the employ of the United States government. He is a young business man of much promise.—Charlotte Observer.

Professional and College Men

Always aim to dress well. Not conspicuous, but well. It's been our good fortune in the past to be able to fit any College Man, Doctor, Lawyer, or Business Man in the city—whether for a business or dressing suit. A single suit made by us will prove to you that we know our business, and the cloth you can see at a glance. My shop is over Haywood & Boone's Drug Store.
