SEVERAL INSTRUCTORS ARE ADDED TO FACULTY

FOUR NEW MEN TO HAVE PLACES AS ASSISTANTS IN VARIOUS COURSES.

PROF. BROOKS TO RESUME WORK

Mr. Miller, Mr. Smith, Mr. Yost, and Mr. Alderman to Assume Duties on Trinity College Faculty. Hedrick for Law.

Scarcely a summer passes that does not bring numerous changes in the make-up of the Trinity College Faculty. This year Professor Townsend, who held a position in the department of French and German, and Professor Donegan, the popular Professor of Civil Engineering and Surveying, are both leaving the faculty. Four new instructors, however, have been obtained and will be on hand at the beginning of school this year. All of them are excellent men, well capable of the work which they are assuming here.

To fill the vacancy left by Mr. Donegan in the Department of Civil Engineering, Mr. E. T. Miller has been elected. Mr. Miller holds the degree of Bachelor of Civil Engineering from the University of Georgia, and also holds the degree of Master of Civil Engineering from the same institution. Mr. Miller also holds a degree from the Institute of Technology, at Boston, Mass. He is a thoroughly trained man, and fully capable of filling the position to which he has been elected. All of the institutions with which he has been connected recommend him highly. He is also highly recommended and endorsed by Dr. L. D. Hendren, a former graduate of Trinity College, who is now a professor in the University of Georgia. Mr. Miller was for three years an instructor in the department under Dr. Hendren.

Mr. M. A. Smith, a graduate of Trinity in the class of 1913, has been assigned a position as instructor in the department of Electrical Engineering. While in College, Mr. Smith made a particularly good record in work connected with this line, and since his graduation he has been with the Westinghouse Company, at Pittsburg, for two years. He is thus fitted for the work he is undertaking not only by a thorough text-book knowledge of the subject but also by two years of practical experience in electrical work.

As an instructor in the department of French and German, Mr. C. A. Yost has been obtained. Mr. Yost has an A. B. degree as a graduate of Bowdoin College. After his graduation at Bowdoin, Mr. Yost was in school for some time at Harvard, where he took the degree of Master of Arts. Besides his work in these two schools, Mr. Yost has had the privilege of studying in Paris and Berlin. For the three past years he has held a position as instructor in the Phillips Academy, at Andover, Massachusetts.

Mr. J. S. Alderman, a bright and well equipped young graduate of Trinity College in the class of 1913, recently connected with the Department of Education of the

(Continued on Page Three)

EXCELLENT WORK DONE BY COLLEGE Y. M. C. A.

YEARLY BOOKLET ISSUED FOR CONVENIENCE OF CLASS OF 1918.

ANNUAL RECEPTION SEPT. 15th

Representatives From Local Y. M. C. A. Meet Incoming Trains—Bureau of Information Conducted at College.

The Trinity Y. M. C. A. this year, as always, is standing in the forefront in the reception and handling of the large bodies of freshmen who have been pouring in on every train. The Y. M. C. A. has before it a year of great success and brilliant prospects. Headed by a most efficient set of officers, it should forge ahead more than ever before this year, and make its influence felt in the entire community.

The first event towards which the members of the Y. M. C. A. are working is the annual reception to the freshman class, given under its auspices. The date of the reception has been set this year for Tuesday, September 15. The reception will be held in the East Duke Building, where every freshman and every member of the college community is expected to be present. This annual reception is one of the few times when the whole community meets face to face in an informal way, and it does much to make the new men feel at home and to get the old men acquainted with the freshmen.

The invitation to this annual affair is given in a formal manner in the front of the Y. M. C. A. Booklet, which is each year published by the Y. M. C. A. for the benefit and convenience of the new men in particular. The Booklet this year is the work of E. L. Secrest, of the class of 1914, who undertook the publication of it on account of the illness of President D. C. Lewis who has been unable to attend to it in person. Mr. Secrest has done good work in the publication of the new Booklet, and the little volume contains everything that might be of use or interest to the class just entering college.

The Booklet opens with a message from President W. P. Few, welcoming the class of 1918 and telling them of the advantages offered by the college in general and by the Y. M. C. A. in particular.

ATHLETICS AT TRINITY TO HAVE BANNER YEAR

COLLEGE TEAMS LOOK FORWARD TO SUCCESSFUL SEASON FOR ALL.

FINANCIAL HELP FROM TRUSTEES

Trinity Board Introduces System of Compulsory Athletic Fees For One Year Trial—New Ball-park to be Used.

Athletics at Trinity this year will be on a much firmer basis in every respect than ever before. The action of the Board of Trustees last spring in passing the five-dollar athletic fee system will place all teams on a firm financial basis, and will enable the managers to make their budget before the season opens. It is thought that all of the teams will be prepared for a successful season, and each will have an excellent line-up.

At its annual meeting last spring the Board of Trustees passed a ruling calling for an addition of five dollars to the regular matriculation fee, to be paid in two installments. The sum raised is to go to the use of the athletic association. This system is the same that has been used successfully in a great many of the larger colleges, and which is at present working at A. & M. College. Its introduction here will mean much to the managers of the various teams, among whom the money will be apportioned, since it will enable them to make out their budget more nearly in advance than heretofore. It will go far to make up the deficit that has been annually accumulating in the treasury of the Athletic Council, also. The system is to be tried here for only one year unless passed again by the Trustees next year. It is introduced merely as an experiment in an effort to remedy, if possible, the annual deficit. The payment of this fee by four hundred and fifty students, in round numbers, will give to the athletic association a sum of \$2,250.00. This will be a great gain over the selling of blanket tickets, which never netted much over a thousand dollars. Rarely ever were as many as two hundred tickets sold.

Although many old men will be lost this year, all athletic teams will begin work under propitious circumstances. In spite of losing N. I. White, who received his A.

(Continued on Page Seven.)

EPWORTH BUILDING IS MODERN DORMITORY

RUSH OF STUDENTS MAKES IT NECESSARY TO REMODEL OLD LANDMARK.

ANCIENT INN IS REJUVENATED

Wonderful Alterations Are Made in Remodeling Old Building—46 New Rooms Ready for College Opening

The venerable Inn has at length arrived at its second childhood. The large number of applicants for rooms this year rendered some step necessary to provide accommodations, and for that reason a part of the land-mark has been torn away and the remainder of it thoroughly overhauled and remodeled into a first class dormitory. The new Inn will be one of the most desirable dormitories on the campus.

The remodeling and improving of the Inn will be a constant reminder to Trinity students that "wonders will never cease." Although long since fallen in efficiency far below the fatal point at which Dr. Osler would have condemned it to a chloroform-permeated future of oblivion, the Inn has risen, Phoenix-like, and taken on new life. In necessity it found that which led the Spaniard into the Everglades of Florida—the Fountain of Youth—and today it stands in all the glory of a second youth. That which last year was nothing more than a large fire-trap and a field for the athletic endeavor of numerous rats has become, under the transforming hand of the workman, a neat, commodious, and modern dormitory.

The Inn has been so thoroughly renovated that it loses altogether its former appearance. A large part of the old building has been torn away completely in the rear. The part which remains standing has been divided into three sections similar to the divisions in the other dormitories, and containing in all a total of forty-six rooms or ample accommodations for ninety-two more students. The roof has been covered with slate, and the exterior walls are being covered with stucco. The use of this material on the exterior will not only make the building harmonize in general appearance with the others about it, but will afford a great deal of protection against fire risks.

(Continued on Page Three)

WORK ON PROPOSED COLLEGE FOR WOMEN

BOARD OF TRUSTEES AUTHORIZES EXECUTIVE COMMITTEE TO PROCEED.

MISS GILL TO WORK FOR SCHOOL

Former Dean of Barnard College has been Secured as Executive Secretary—Work Will Begin on Organization.

A co-ordinate college for women at Trinity College is no longer a mere dream, but active work is being done at present with the establishment of such a college in view. An Executive Committee of the Board of Trustees has been appointed to attend to the matter, and an Executive Secretary has been secured to carry forward the propagation of the plan.

At its recent meeting in the spring, the Board of Trustees gave its Executive Committee authority to "proceed in the effort to build and organize a Co-ordinate College for Women at Trinity." In order to carry forward this work effectively, the Executive Committee was authorized to create a "Committee on Organization," to consist of the president of the college, a member of the Board of Trustees, a member of the faculty, a representative of the alumnae, and an Executive Secretary.

The purpose of this committee was to try to secure funds and to arrange other preliminaries looking to the organization of the Woman's College at Trinity. The committee was given one year in which to secure necessary funds for the purpose. If, "at the end of one year there is in hand not right sufficient funds for this undertaking," the committee is authorized to continue during a second year the organization and building of the new institution.

The committee on Organization was fortunate in securing as the Executive Secretary of the committee, Miss Laura Drake Gill, who will begin work actively for the college about September 20. Miss Gill was for several years Dean of Barnard College, the Co-ordinate College for Women at Columbia University, in New York. She is generally regarded in the entire country as the foremost woman in America in this kind of work.

The committee on organization which was appointed to carry forward this work consists of the following: President W. P. Few, J. H. Southgate, from the Trustees, Professor R. L. Flowers, from the Trinity Faculty, Miss Gill, as Executive Secretary, and Mrs. Bivins, from the Alumnae. Mrs. Bivins was active in the work of the alumnae association when the idea of the Co-ordinate College was first agitated.

Miss Fannie Kilgo will re-enter Trinity College this year in order to take an A. M. degree.

W. W. Flowers, 1894, the chairman of the Trinity Athletic Council and President of the local Trinity Alumni Association, who has been with the Liggitt-Myers interests in Durham for some time, has been transferred to New York City. His address is Hotel Seville, New York City.

OFFICIAL ANNOUNCEMENT

WEDNESDAY, SEPTEMBER 9.

College year opens with the raising of the flag by the Senior Class at 9 o'clock.

Chapel exercises will be held in Craven Memorial Hall following flag raising, and at their close announcement will be made by President Few. Every old student and every applicant for admission is expected to attend these exercises.

Immediately after Chapel the Committee on Admission will sit in Room 2D, West Duke Building to pass on applications. Every candidate for admission must appear as soon as possible before this Committee, which is composed of Professors Flowers, Wannamaker, and Brooks. Old students will matriculate in the following order:

Sophomores, 10—11.
Juniors, 11—12.
Seniors, 12—1.

Members of the Faculty will be in their respective rooms for consultation on Wednesday from 10—1.

THURSDAY, SEPTEMBER 10.

Chapel exercises at 8:45, Memorial Hall.

Classes for old students begin at 9 o'clock as scheduled in catalogue and an Official Bulletin Board in East Duke Building.

Those admitted to the Freshman Class on Wednesday will matriculate at College Office from 10 to 1, Thursday, and those admitted later will matriculate as admitted.

Freshman classes will begin according to catalogue and Bulletin Board schedules immediately after matriculation.

Entrance examinations and examination for the Removal of Conditions will begin at 2 o'clock, Wednesday, and run according to schedules posted on the Bulletin Boards.

Communications and items of educational interest are solicited from Alumni. The writer's full name should accompany all communications, which must be of length proportionate to the space of THE CHRONICLE.

Advertising rates made known on application. Checks and money orders should be made payable to the business manager, and all business communications should be addressed to him. All subscriptions and bills for advertisements are payable before the first of February. SUBSCRIBERS WILL PLEASE NOTIFY THE MANAGER OF ANY CHANGE OF ADDRESS.

EDITORIAL

THE CHRONICLE STAFF

Last year Editor Cannon adopted a new scheme in making his appointments for the staff of this paper, and all of his appointments were made on the basis of direct competition. This competitive scheme recommends itself highly to the present incumbent of the editorial chair, and much the same plan will be followed out this year. There will be, however, some changes in the general plan.

The number of associate editors this year will be reduced to only two, which is the number provided for in the original constitution of THE CHRONICLE and the number which has been regularly used except for last year. These men will be appointed on the basis of the work done on the staff of the paper last year, and their names will be announced in the next issue.

The general reporting staff will also be reduced to a less clumsy size this year, and its members will be chosen on the basis of a competition of which announcement will be made later.

Since the maiden appearance of THE CHRONICLE many years ago, each successive editor has taken advantage of the helpless public long enough to give a dissertation concerning the policies and purposes of the paper. In order not to appear entirely too radical and altogether too far removed from ordinary custom, it is necessary for some such statement to appear in the present paper.

THE CHRONICLE was originally established and has since been known as "the college man's newspaper." It is supposed to represent the prevailing spirit of the Trinity College campus and to reflect the best there is in the college community. When it fails in this, the paper has failed to do that for which it was established: to represent Trinity.

This is the task which the present editor has set for himself, and this is the policy according to which the paper will be published during this year—merely to represent, truthfully and without partiality, without cringing from opposite opinions and yet without seeking any conflict of opinion with others, the spirit of Trinity College as the editor sees it.

A WELCOME.

To those sojourners in a strange land, to those forlorn beings who wander erratically in our midst or sit with dreamy eyes upon the threshold of some dormitory and sigh, to those dejected mortals who tread the paths of Trinity for their first time, to those downcast spirits who in fear and trembling cast side-long glances at each upper classman, in short, to the freshmen: in behalf of the whole community we extend a most hearty welcome.

You are freshmen, now, and Trinity is a new and strange place to you; but the time will come when the freshness will wear away, and you will no longer feel on strange ground. You will find here not a prison-house nor a place of torture kept under iron rule by a cruel and inhuman faculty; not a friendless expanse of green grass and a formidable line of forbidding walls behind which seem to lurk unknown terrors in the form of raving and blood-thirsty sophomores; but you will find out the real Trinity. You will get down to the heart of the place, and learn to know and love the real Trinity.

Trinity will become a home to you, and gradually there will come over you a realization of that spirit which makes all Trinity men kin—which makes men point a finger of pride at the walls in which they spent their college days and say: "That is my Alma Mater." Each blade of grass, each path, each nook and corner, will become a spot which you will remember long and love; and when the time draws near for you to leave old Trinity forever, there will rise a lump in your throat and tears will well into your eyes unbidden as you look back upon the days that have gone and the associations that you are leaving behind you.

You will learn to love and honor Trinity, and in later life, you will come to realize how much you owe to Trinity. Begin now to pay back what you are getting. Give to Trinity the best that is in you. Get into the life of the college around you and take an active part in placing Trinity in the front rank among the colleges of the South. You have a part to play; play it. If you are an athlete, give to your college the best strength that lies in you. If you are a speaker, let your college have your best oratory on the debating floor. If you can write, take an interest in the *Archive* and THE CHRONICLE and the *Chanticleer*, and contribute to them. Throw yourself wholeheartedly into the life before you and the life of Trinity college will entwine itself about your heart-strings with a firm, sure grip. The best motto for a freshman in college is: Be interested. That spells success.

A DEAD ISSUE

The reopening of school and the return of the football season reminds us forcibly that when the Board of Trustees, by an almost unanimous vote, refused to grant the petition of the "Trinity College Football Association" for the reinstatement of football, football and football agitations were killed at Trinity forever, at least for the present generation of students.

The Board of Trustees is the final authority, the supreme court, and its decision must stand and must be respected. The object and purpose of the "Football Association," as stated by its officers, was to bring the matter before the Board of Trustees, agreeing to abide by their decision. While some of us may believe that their

decision was wrong, yet it is a moral obligation upon us now to live up to our promise, to support their decree, and to let the matter of football drop. Just as conscientiously as we believe that football is best for Trinity the Trustees cling to the opposite opinion. Let us abide peaceably by the decision they have rendered, and realizing that further demonstrations for the great game would be both useless and unwise, let us "grin and bear it," and let us learn to say with the poet:

"Tis better to have loved and lost
Than never to have loved at all."

OUR ADVERTISERS

Every newspaper, from the largest of the huge metropolitan dailies down to the smallest of the college weeklies, carries in its columns the advertisements of a number of merchants and business men. It is from these advertisements that the publication derives its very existence. Advertising is the "sine qua non" of the publication of any paper.

Like the rest, THE CHRONICLE carries a number of these advertisements. It is necessary to carry them, and necessary to have many regulars on the list, but unless results come from it, there will be no regular advertisers. The merchant does not wish to give his money to the publication of a paper merely for the pleasure of giving. He wishes returns for the money spent in advertising and it is up to us at Trinity to see that every merchant represented in the columns of THE CHRONICLE gets returns.

What are we to do about it? Trade with the men who trade with you! THE CHRONICLE is your paper, it belongs to the whole college, and the merchants who support its existence have a right to expect a little gratitude from the students whom they are helping.

PARK SCHOOL NOTES

The Trinity Park School will open Wednesday, September 9 at nine o'clock. The correspondence during the summer has been very heavy. The number of requests for catalogs and information about the school have been more than ever before. The prospects for a great opening are very good.

A committee from the Young Men's Christian Association has been meeting all trains Tuesday and today, September 8th and 9th, to welcome the new students and to show them any favors in getting located on the campus and in their rooms.

The buildings have been put in a good sanitary condition and considerable work has been done in the dormitories to make them more comfortable and attractive.

About forty of last year's class will go to College this fall. The most of them will enter Trinity.

Prof. McKay is on the campus now after spending about a month with his family beyond the Blue Ridge Mountains. He reports a very pleasant vacation. Since coming home, Mrs. McKay has been rather ill, but is very much improved.

Prof. Hornaday and West are expected to arrive Saturday. Prof. and Mrs. Hornaday have been spending sometime at Beaufort with relatives and friends. Prof. West was married this summer and has been spending the entire vacation in Asheville. Professor and Mrs. West will live with Mrs. McCrees.

COLLEGE LUNCH ROOM OPENS FOR BUSINESS "DOC" STRAYHORN WILL CATER TO TRINITY STUDENTS IN NEW CAFE.

One of the things first noticed by old men returning to college this year is an addition to the College Pharmacy in the shape of a quick lunch room. In view of the opening of the "College Lunch Room," as it will be called, the closing of the "Crystal" down town holds no cause for sorrow to the Trinity student. It is safe to assert that the popularity of the little white-and-blue store of Mr. Strayhorn will increase two-fold through the new addition.

"The College Lunch Room" is neatly fitted out with all the conveniences of the down-town restaurants, and makes a most attractive place in which to dine. Here, from early morning until eleven at night one can obtain any delicacy he may desire, from the time-honored Adam-and-Eve-on-a-raft to that richer and more pleasing dainty known as "sinkers." The eternal omelette pie will not be lacking for those who wish to indulge.

"Chef" Pope, a man who has had much experience in the culinary art and who was until recently connected with the "Star Cafe" in Durham, has been secured by Mr. Strayhorn to take the cafe in charge, and for the present year at least he will handle the skillet and cater to the demands of his Trinity customers.

This commendable piece of enterprise on the part of Mr. Strayhorn fills a want that has long been felt among the students. The idea of a cafe close to the college has long been the vain hope of the college man, who, weary with struggling with the inevitable (and indomitable) steak of the boarding-schools, longs for something more succulent and something which might lend itself more easily to the important process of mastication. To provide for yet another want, Mr. Strayhorn says that the cafe will remain open until twelve or after during times of great crises, such as final examinations. He will no doubt be amply repaid for the trouble and expenses he has gone to to fill this need.

ALUMNI NOTES

Paul Webb, a student at Trinity and at one time in the Law School at Trinity is located now at Morehead City.

Reverend Plato Tracy Durham, '95, formerly a member of the Trinity College faculty, has been honored by the election to the position of Dean of the new Theological School established by the Methodist Church in Atlanta, Ga. He received only last spring the degree of D. D. from Trinity College. At the time of his election to this office, he was Presiding Elder of the Charlotte District.

T. A. Holton, 1906, at one time Principal of the East Durham Graded School, has been elected Superintendent of the Graded School at Albemarle.

Quinton Holton, '13, last year a teacher in Black Mountain, will be the Superintendent of the West Durham Graded School.

Henry L. Wilson, '13, last year the Superintendent of the Littleton High School, expects to enter the study of medicine this fall.

Ernest J. Greene, '05, who has been holding a position as Superintendent of the Durham Graded Schools, has accepted a place with the Austin-Heaton Company of Durham.

FOUNDED IN 1838

CHARTERED IN 1859

TRINITY COLLEGE

An institution of education intensely devoted to developing men. Its gradu-
ates are everywhere successful and fill important positions in all lines of
work. They occupy places of honor and dignity in church and state, and
ably and prominently represent their state in the national government. A
college supplied with ample resources to provide the best education. More
than a million dollars recently added to its endowment. A wide range of
courses.

Necessary expenses of the student moderate. No increase in tuition
charges within twenty-five years.
For catalogue and illustrated booklet address:

R. L. FLOWERS,
Secretary to the Corporation, Durham, N. C.

TRINITY PARK SCHOOL

ESTABLISHED 1898

Location excellent. Equipment first-class. Well-trained Faculty of successful
experience. Special care of the health of the students. An instructor at each
dormitory to supervise living conditions of boys under his care. Excellent
library and gymnasium facilities. Large athletic fields. Fall term opens
September 11. For illustrated Catalogue address:

W. W. PEELE, HEADMASTER, - DURHAM, NORTH CAROLINA

SEVERAL INSTRUCTORS ARE ADDED TO FACULTY

(Continued from Page One)

State, will become this year an in-
structor in French and German.
While in college Mr. Alderman
was Editor-in-Chief of *The Chroni-
cle* in his senior year.

An addition is also being made
to the faculty of the law school this
fall. Mr. H. G. Hedrick, who re-
ceived the degree of Bachelor of
Arts from Trinity in the graduat-
ing class of 1914 will become an
assistant professor under Dean
Mordecai. After graduation, Mr.
Hedrick spent two years in the law
school of Trinity, and last year he
attended the law school at Harvard
University.

Professor E. C. Brooks, head of
the Department of Education, will
again resume his duties at Trinity
this fall, after a year's leave of ab-
sence in the North. Professor
Brooks obtained special leave of
absence last year in order to do im-
portant literary and research work
in New York City and Columbia
University. During the summer
just past, Professor Brooks has
been spending his time at the Pea-
body College for Teachers, in
Nashville, Tennessee.

Mr. Holland Holton, who has
for two years been the instructor
of the Debating Course, will this
year take on extra work in the De-
partment of Economics. Mr. Hol-
ton has given up his work in the
West Durham Schools in order to
devote his time more largely to his
work with the college. He will
probably give Dr. Glasson consid-
erable help in the Department of
Economics.

COMMENTS

Students are warned to exercise
great care in the selection of their
courses this year, since any con-
flict between French and German
may lead to undesirable results.

The Trinity faculty evidently
had a "hunch" this year. For the
first time in many years, not a
single member of the faculty was
to be found in Europe, for the sum-
mer.

Many a man will be heard dur-
ing the next few weeks sighing;
will be seen looking wistfully at
the big moon, will be caught mut-
tering to himself, with a far-away
expression and an air of chronic
melancholia, words concerning
"the girl I left behind me." *Aber*
—as a rule, Trinity co-eds can be
depended upon to relieve the situ-
ation!

The old Inn evidently had more
stamina than did the once-famous
Jim Jefferies, for the Inn had no
trouble in "coming back." Old
students who look at the Inn as it is
today stand in awe for a moment
and then exclaim, as they rub their
eyes: "I don't believe it!"

Once more we hear the time-
worn phrase on the campus: Now
Athletic field to be in use soon.
It is to be hoped that the new field
will really be put in use before the
European war closes; for after
that, we are told, comes the mil-
lennium. Haste is needed, or the
trump of Gabriel will put an end
to operations.

H. R. Hunter, 1911, who has
been connected with the Monroe
High School, has been elected to
the faculty of the Technological
High School of Atlanta, Ga. He
is the fourth Trinity man to land
a job in this school, the others be-
ing C. E. Phillips, Gilmer Siler,
and L. P. Wilson.

EXCELLENT WORK DONE BY COLLEGE Y. M. C. A.

(Continued from Page One)

and urging them to unite them-
selves immediately with that which
stands for the best things of life.
Besides the message of *Life*.
Few, the little booklet contains
many suggestions of interest and
value to the freshmen. The work
of the Y. M. C. A. is placed be-
fore the reader, and its objects and
purposes outlined.

The Booklet contains such bits
of information as facts concerning
the three college publications, the
Chanticleer, the *Archive*, and *The*
Chronicle; brief write-ups of the
Glee Club, the literary societies,
and the various clubs about the
campus. Since is diffie tain shrd
campus. Space is given to the li-
brary and its equipment, to the
gymnasium, and to the various
churches of the city. There is also
a page of facts about the various
athletic teams of the college, and
another page which gives many of
the college yells and songs.

The Y. M. C. A. has been do-
ing a great work during the past
few days in meeting and caring for
the new men. A bureau of infor-
mation has been kept in operation
in the East Duke building, where
some of the old men are continu-
ally stationed to help the new ar-
rivals in any way possible. A com-
mittee from the organization has
co-operated with the committee of
the Greater Trinity Club in meet-
ing incoming freshmen at the
trains and directing and aiding
them. The Y. M. C. A. in charge
this year consists of the following:
President, D. C. Lewis; vice-pres-
ident, B. F. Few; secretary, C. F.
Matton; and treasurer, V. V. Se-
crest. It is possible that the ill-
ness of Mr. Lewis may keep him
out of school for some time at the
beginning of the term, but in this
case Mr. Few will assume the du-
ties of the presidency and the Y.
M. C. A. work will continue with-
out interruption.

NEW BOOKLET PUBLISHED BY ENGINEERING CLUB

H. R. BULLOCK, '14, EDITS AN-
NUAL ON ITS FIRST
APPEARANCE.

The Annual Booklet of the En-
gineering Club, the newest of Trin-
ity's publications, made its maid-
en appearance this summer. The
Booklet is a credit to the Engineer-
ing Club, and is a commendable
piece of enterprise. The present
issue covers the year 1913-1914,
and is edited by Harvey R. Bullock,
a member of the class of 1914.

The object of the publication,
according to an editorial announce-
ment, is not only to preserve a per-
manent record of the year's work
and associations for the members
of the club, but to furnish infor-
mation concerning the work of the
Engineering Club. The Booklet is
amply illustrated with engravings
buildings and scientific laboratories
cerning and Science, and of the
of the club, of the faculty of Engin-
eering of Trinity College.

Practically all of the articles in
the Booklet are written by the
editor, H. R. Bullock, and by W. D.
Hyland, also of the class of 1914,
who was secretary of the club. Be-
sides these articles, there are short
articles concerning the work and
equipment of the various scientific
departments of Trinity. There is
also an article by Professor C. W.
Edwards entitled: "Engineering
Ideals and Opportunities at Trin-
ity." In this article Professor
Edwards shows that Trinity is try-
ing to make of men, not mere shop-
workers and mechanics, but to
make them leaders.

EPWORTH BUILDING MODERN DORMITORY

(Continued from Page One)

The interior work of the remodel-
ed Inn will be of the same gener-
al character as that in the Aycock
and Jarvis. Each of the rooms has
outside exposure, is spacious and
well-ventilated, and each will be
provided with running water. Sev-
eral rooms in the rear section of
the building, which are rather iso-
lated and out of the way, may be
rented to various secret organiza-
tions for use as meeting halls in
case they are not necessary to ac-
commodate the new students.

The Inn will be ready for occu-
pation at the opening of school, say
the contractors, although the con-
tracts for the erection of it weren't
awarded until late in the summer.
It was not until August that it was
seen that the rush of students for
rooms during the coming year
would necessitate some immediate
step to arrange for their housing,
and there was then no time to con-
sider the erection of a new dormi-
tory. The result was that a rapid
survey of the situation was made.
The Inn was picked as the only
possible solution to the problem
which confronted the authorities.
Architects were called in and con-
sulted, plans made, and contracts
awarded almost immediately after-
wards. The work has gone for-
ward with remarkable rapidity,
and the time-worn Inn has come
back into its own as one of the most
desirable places to room on the
campus.

INCREASED NUMBERS WILL ENTER SCHOOL THIS YEAR

REGISTRATION WOULD HAVE
BEEN RECORD-BREAKER BUT
FOR WAITS EFFECTS.

"We would have had a record-
breaking year but for this war,"
said President Few recently in
speaking of the prospects of Trin-
ity for the present year. Even
now, in spite of the effect of the
war in keeping men out of school,
the indications are that Trinity
will have a considerable increase in
numbers over last year. All avail-
able space in the dormitories has
been signed for, and the authori-
ties were forced to remodel the
old Inn to receive the overflow.

Although the effect of the Euro-
pean war has been making itself
felt and many letters have been
received stating that men will not
be able to enter college this fall as
had been expected, the general sit-
uation will compare favorably with
any other year of the history of
Trinity College. Comparatively
few men will drop out of the ranks
of the upper classmen, and the
number of freshmen is expected to
range in the neighborhood of two
hundred or above. The senior class
will suffer only slight loss of old
men, and, on the other hand, will
receive a great many additions
from outside sources. Men in po-
sition to pass judgment on the mat-
ter say that the class of 1915
should graduate as many as eighty-
five, a number far in excess of any
graduating class in the history of
the college.

In addition to the large number
of men who will enter this year, in
spite of the restals of the war, an
unusually large number of girls
have signified their intention of
coming here this fall. The Woman's
Building which was in use last
year was found to be too small to
accommodate the crowds desir-
ing rooms, and the old Tuttle
House has been fitted up for use
in addition to the other building.

CLASS OF 1914 FILLS MANY GOOD POSITIONS

MEN SCATTERED OVER SEVERAL
STATES EMBARK IN MANY
ENTERPRISES.

SEVERAL RETURNED TO TRINITY

Professional Teaching Attracts More
Men Than Any Other Calling—
Some Enter Ministry—
One Politician.

The graduating class of 1914 has begun to take its place in the outside world. Many of the men of the class have secured excellent positions; several are returning to Trinity for post-graduate work in various lines, and others are to take work in other colleges and universities. Practically no line of business is free from the invasion of the class of 1914, one member of the class even having gone so far as to enter the field of politics and become a candidate for the State legislature.

M. F. Adams will return to Trinity, where he will take work leading towards an A. M. degree. R. B. Anderson is with the Liggett-Myers Company at Farmville, N. C. M. B. Andrews has accepted a position with the Cary High School, where he will teach during the present term. C. R. Bagley will again be on the campus, this time in quest of an A. M. degree. L. H. Barbour is in business in Durham, and Betha is in his father's business at Spartanburg, S. C.

W. H. Boyd will go to the University of Columbia for advanced work. B. C. Bridgers is at Conway. R. E. Brooks will teach this year, although at last report he had not decided between two positions. H. R. Bullock will go to Columbia for advanced work. C. H. Burrus assumes this fall the dignity of Principal of the Weddington Academy. A. S. Calvert is assistant cashier of the Bank of Spartanburg, S. C. A. M. Cameron is connected with the cotton mill business at Vass, N. C. James Cappon, editor of *The Chronicle* last year, is holding down a position on the staff of the *Richmond Virginian*, and is also news editor of the *Baltimore-Richmond Christian Advocate*. R. K. Carson is in his father's law office at Spartanburg.

Byron Conley leads his class in aspiring for political honors and is at present a candidate for the State legislature. G. C. Cordle will return to Trinity for an A. M. degree. W. B. Covington expects to begin a career as a teacher this fall, but has been travelling during the summer. B. F. Dalton becomes Superintendent of a school at Dunn. C. W. Davis will teach in the High Point High School; and J. R. Davis takes up his work this fall as Superintendent of the Lakewood Graded School in Durham. E. C. Durham is now pastor of the Lakewood Methodist church and is a leader of his class in being the first of its number to yield to the call of Hymen. He was married this summer, shortly after commencement.

F. A. Ellis will enter the Medical School of the University of Pennsylvania. Miss Estelle Flowers is at home in Durham. C. G. Garrett is in business in Rockingham. H. B. Gaston takes up his duties as Principal of the High School at Godwin, N. C. T. J. Gill, Jr., is teaching in the Greensboro High School. E. B. Gray goes to the Harvard Medical School. L. A. Grier is in business in Spartanburg. H. B. Hill has been made pastor of the Oriental

Circuit. D. W. Holt will enter the Jefferson Medical School, but has been working with the Greensboro News during the summer. Miss Ila Howerton is intending to teach this year. W. D. Hyland will go into business in Charlotte. Miss Daisy Jones will teach in Norfolk, Virginia. S. H. Jordan is doing chemical work with a tobacco company in New York City. I. C. Long will enter Johns Hopkins to study medicine.

W. G. Lowe is now a member of the North Carolina Conference. R. T. Lucas has been studying under Professor Wilson this summer in preparation for entering the Harvard Medical School. Robert Matthews was here last week on his way to assume his work at Weaver College. W. H. McMahan is principal of the Mt. Gilead High School. J. T. Moon is in business in Chatham, Virginia. J. L. Nelson, Jr., is holding down a position in Lenoir. E. R. Paris is in the manufacturing business in Atlanta. A. S. Parker is pastor of the Millbrook Circuit, near Raleigh. M. R. Pleasants is Principal of the Spring Hill High School. R. E. L. Plummer will either teach or return to Trinity for an A. M. degree.

Miss Annie Reade is teaching in the Burlington Graded School. J. O. Renfro has a position with the American Tobacco Company in Durham. B. W. Ruark is Superintendent of the Garysburg High School. E. L. Seerest is Inter-Collegiate Y. M. C. A. Secretary in Charleston. P. M. Sherrill is with the British-American Tobacco Company in Petersburg, Virginia. H. L. Sherrod is selling real-estate for a company in Washington, D. C. Miss Mildred Sinclair is at home in Carthage, N. C. H. C. Smith is pastor of Pelham Circuit. Miss Lizzie May Smith this fall begins her career as a teacher. T. T. Spence will probably teach this fall, after playing ball with the Winston-Salem team during the summer. J. F. Stanback will study agricultural chemistry at A. & M. College this year. W. F. Starnes has a position at Weaver College. F. F. Thompson will teach at Fairmont. Miss Minnie Thompson is teaching in the Rocky Mount Graded Schools. Miss Laura Tillet will teach in Salemburg. J. C. Unberger will probably return to college for an A. M. degree. Miss Mary Wescott has secured a position as teacher in the Albemarle Graded Schools. J. P. Wharton is in business with his father in Greenwood, S. C. F. A. Whiteside is in business in Gastonia. W. A. Wilson, Jr., will go to the Rush Medical School or to the Harvard Medical School.

Holland Holton.

TRINITY LAWYERS PASS

The recent Law examination by the state board of North Carolina resulted in the passing of five Trinity men, preserving intact Trinity's remarkable record of never having had a man fail to pass the board. Those who stood the examination two weeks ago were: R. G. Cherry, F. R. Ray, H. A. McKinnon, W. G. Shepard, and Eugene Allison.

Before the examination was held, R. G. Cherry and two other men from different institutions in the state, were awarded prizes by Chief Justice Clark for being the best students in law in their respective schools. In presenting the books to these men, Justice Clark said he felt sure that they would prove the truth of the old adage that "One honor acquired is a guarantee of more."

The recent examination fully sustained Trinity's previous enviable reputation as a law school, for since the establishment of the Law Department at Trinity under Dean Mordecai, not a man has been sent before the State Board who failed to make good.

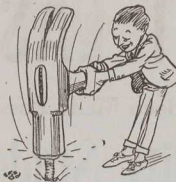

All of the new barristers have not fully determined where they are to practice yet. Eugene Allison will set up in Brevard, and W. G. Shepard will remain in Durham. H. A. McKinnon clung firmly to his home town and will practice in Maxton. F. R. Ray and R. G. Cherry have not yet definitely determined where they will start out.

J. W. Harbison, '12, who has been Principal of the Atlantic High School will return to Trinity for an A. M. degree this year.

A. W. Byrd, '13, who last year held a position as Principal of Mt. Pleasant High School will take graduate work here this year.

D. L. Edwards, a graduate of Wofford and for some time a member of the faculty in the Bailey Military Institute, will become a graduate fellow in Latin here.

J. P. Wynne, '13, last year Superintendent of the Murphy Graded School, is now teaching in a Virginia High School.

May we hammer home this news?

Our representative is coming to Trinity about the middle of next month.

He will have with him everything that's new and smart in everything that college men will wear this winter.

New overcoats, new suits, new furnishings, new shoes.

All at our regular New York prices. All backed with "your money back" if by any chance something should go wrong.

Mail orders filled in measure. Write for sample and simple self-measurement blank.

ATHLETICS AT TRINITY TO HAVE BANNER YEAR (Continued from Page One)

M. here last spring, the tennis team
will be in shape to battle with all
comers. Captain Anderson is prac-
tically certain to whip all comers
in singles, having already won the
Southern Championship in tennis
singles; and he will have little trou-
ble in picking another man from
among the various class teams as
a running mate in the doubles.

Captain Thorne, of the basket-
ball team, will probably call his
team out for practice at an early
date, and will have the class teams
working as soon as possible. It is
not officially announced, but it is
possible that H. G. Hedrick, who
is taking a position with the Law
School here, may coach the basket-
ball team this year. Hedrick
was at one time one of Trinity's
star guards on the basketball floor.
Manager Lambeth has not announ-
ced the fact that Hedrick will coach
the team, but it is hardly possible
that such a chance to secure good
coaching for his team will be let
slip. Manager Lambeth is trying
to arrange a northern trip for the
team this year.

In baseball, Captain Maddox is
confident of putting out a winning
team. It is rumored that several
good players are entering the fresh-
man class this year, and the loss
by graduation last year was not
large. The absence of Captain
Spence will be felt, of course, in
the outfield, but out of the many
recruits there will be chance en-
ough to pick a winning team.
Manager Downey has already been
hard at work on his schedule.

The base ball team will be coach-
ed this year by "Crip" West, of
the Park School faculty.

C. F. Matton, Captain of the
track team, is determined to make
the track team a success this year
against all obstacles. This year
may mean life or death to track
work at Trinity, and Captain Mat-
ton is working hard to make the
team what it should be. There is
little doubt but that he will infuse
his own spirit into his men, and
put out a winning team. He has
in mind the idea of doing a great
deal of fall training and will keep
his men in thorough training all
the year round. He is putting his

entire energy into the work, and
the track team will have a year of
unusual success under his captain-
cy. No details have been arrang-
ed yet for them, but the class re-
lay races and the hare-and-hound
races will be run this year as they
were last.

The baseball and field work will
be done this year on the new ath-
letic field, which is practically
ready for occupation now. A hand-
some grandstand to harmonize with
the large brick wall will be put in
place before the season opens. The
old Hanes Athletic fence is no longer
in condition for use. The fence
has been torn away, and the dia-
mond has been allowed to grow up
with weeds and grass.

ALSPAUGH HALL

The old dining room in the Al-
spaugh Hall will be run this year
on a much larger scale than here-
tofore, and will be in charge of
Mrs. Lee Battle. Mrs. Battle has
had extensive experience at other
colleges in this kind of work; she
is well equipped and will doubtless
keep a house that will be attrac-
tive to students desiring to take
their meals on the campus.

SUMMER PURSUITS OF THE COLLEGE FACULTY

TRINITY PROFESSORS, SPEND THE SUMMER MONTHS IN MANY OCCUPATIONS.

Many and varied have been the pursuits of the members of the Trinity faculty since the close of school last spring. Many of them have been doing literary and educational work in other institutions, while a minority of them have remained on the campus, and have occupied themselves with work in the college offices. For the first time in many years, not a single member of the faculty found his way to Europe, so that none will be detained by the European war.

Dean Cranford and Professor Brooks have been teaching during the summer in the summer school of George Peabody College, of Nashville, Tenn., of which Dr. Bruce R. Payne, of the class of '96, is president.

Professor Edwards spent the summer at Junalaska, and while there prepared for publication a laboratory manual for the use of his classes in physics. Professor Gill has spent most of the summer at his father's home in Henderson, N. C. Dr. Glasson and Mr. Holland Holton have been in Washington, D. C., engaged in work in the preparation of matter for the American Peace Society on the Economic Effects of War.

Professor Webb was married during the early part of the sum-

mer, and has been in Western North Carolina and Tennessee for the rest of the time. Professor Webb married Miss Claire Jones, of Massachusetts. Dr. Wolfe has been engaged in work at the United States Marine Laboratory at Beaufort, N. C.

Dr. Boyd spent the summer in Durham, Raleigh, and other parts of the state. Dr. Brown has been at his mother's home in Harrison, Va. Dr. Gates has been working in a library in Baltimore; and Dr. Laprade has been doing literary work in Washington, D. C., in the Congressional Library. Dr. Laprade is particularly fortunate in that he parted from his ordinary custom and kept out of Europe this summer.

Professor Wilson spent the sum-

mer in Durham, where he has been conducting a class in chemistry at the Trinity Laboratory. Dr. Parker has been with his family along the Gulf of Mexico and in the state of Louisiana. Dr. Peppler spent the summer in Baltimore. Dr. More was working in the Harvard Library, but later, on account of ill health, was forced to stop. He has been spending some time since in the Adirondacks. He will probably not be able to be at college for the opening of the school.

Dr. Graves has been at work in the Harvard Library and in the Library of the University of Chicago. Dr. Knight has been in Durham and in Richmond, where he has been preparing matter for his History of Education during the Restoration in North Carolina,

South Carolina, and Virginia. He has also been preparing for the press a volume for the use of Sunday School Teachers.

Mr. Hall has been at Harvard, where he is to remain this year. Gymnasium Instructor Card has been interested in the playground work in Baltimore, and he has obtained many ideas there which he plans to introduce at Trinity. Dean Mordecai and Professor Lockhart have been preparing books for the use of the law students of the college.

Dr. Few, Professor Flowers, Professor Wannamaker, Professor Markham, and Mr. Newsom have spent most of the summer in Durham in the college offices. Mr. Breedlove has been working in the college library.
