INSTALLATION OF PHI BETA KAPA ARRANGED

NINETIETH CHAPTER OF SCHOLARSHIP ORDER WILL BE PLACED IN TRINITY

CEREMONIES ON FEBRUARY 23

Some Alumni and Faculty Members as Well as Few Undergraduate Students May Be Invited

The date, February 23, 1920, has been settled upon definitely for the installation of the Phi Beta Kappa chapter at Trinity College. The local chapter will be known as Beta of North Carolina, the Alpha chapter being at the University of North Carolina. In the order of establishment, the Trinity chapter will be the ninth in the United States. Other chapters will be instituted later in the year at Whitman College, Washington, the University of Oklahoma, and Hunter College, New York City.

The eight members of the Phi Beta Kappa in Trinity faculty are to be the charter members of Beta of North Carolina. An especial honor will be paid a few of the senior members of the Trinity faculty by electing them as foundation members. The foundation members will be associated with the charter members in the preparations for installing the chapter, and will have an active part in establishing the organization as a Trinity institution.

The present policy of the United Chapters of the Phi Beta Kappa does not permit the local chapter to elect to membership at the time of installation alumni who have been out of college less than ten years. A limited number of alumni members will be elected from the graduates of the college prior to and including the class of 1909. Some representatives will also be chosen from those members of the class of 1920 who have made the best scholarship records. In the selection of persons for election to alumni membership, emphasis will be placed upon distinction achieved in the fields of science, letters, and education.

A short play was given at the regular meeting of the Cercle Francais Tuesday night, December 9th. The chief characters in the play were two American soldiers who were absent without leave in Amiens, in March 1918. Their conversation with a French tavern keeper furnished the diversion. The chief parts were held by Q. T. Dunstan, J. P. Wynne, and R. L. Johnston. The entire play was given in French, and was very much enjoyed by everyone.

Three new members were admitted to the Cercle: J. L. Jackson, Carl Mottisinger, and S. S. Farabow.

John N. Aiken, '12, who has been an officer in the military service for the past two years, has recently been discharged and has gone into the newspaper business in Norfolk, Va.

G. Y. Newton, '16, is principal of the state high school at Dover.

Y. M. C. A.

Professor Spence will lecture on "American Humor and Humors." No one should miss this treat.

SWARTHMORE DEBATE WILL BE HELD HERE MARCH 20

Next Debate Will Be Ninth Contest Between the Colleges and Will Decide the Third Series

The debate Council met Monday afternoon and decided that the debate with Swarthmore College, Pennsylvania, would be held this year on March the twentieth. The preliminaries for this contest will be held February 13.

This year Swarthmore will send representatives to Trinity to uphold the affirmative side of the query, *Resolved*, "That the principle of the closed shop should be instituted in American industries." In a series of three debates each school has won one debate and the winners of the present series will be determined by the outcome of the approaching contest. Eight inter-collegiate debates have been held between these two institutions. Of this number Trinity has been successful in six of the contests.

The question of completing arrangements for other inter-collegiate debates was also considered and the council hopes to be able to announce at an early date the details concerning this matter.

Clarence P. Pugh, '06, has recently been elected manager of the Republican campaign in this state. His offices will be in Greensboro. He has been a lawyer in Elizabeth City for several years and has been a member of the legislature at various times.

Biological Club Holds Regular Weekly Meeting

The program of the regular meeting of the Biological Club Monday night, December 8, consisted of a paper by J. C. Knox, "The Death that Lurks in Dope," and another by C. A. Davenport, "The Hookworm in Action."

Mr. Knox gave the physiological effects produced by the use of any narcotic drug. The use of drugs has increased in the United States probably on account of nationwide prohibition, according to the figures given by Mr. Knox. Four hundred and seventy thousand pounds of opium alone was used in this country during the last twelve months.

Mr. Davenport showed in his paper the cause, spread, and treatment of hookworm, giving statistics showing the efficiency of the treatment as given by the medical men of today.

Both of the papers were discussed in detail by the members of the club present at the meeting.

Isaac S. Harrell, A. B. '16, A. M. '17, has just returned to this country after service abroad during the past two years. He has spent much time in various parts of Germany since the signing of the armistice.

PROF. JAMES CANNON ADDRESSED Y. M. C. A.

LECTURE WAS ONE OF THE SERIES OF FACULTY LECTURES TO THE Y. M. C. A.

"SPIRITUAL ELEMENTS IN MAN"

Speaker Urged Young Men to Place Spiritual Ideals in Their Lives. Large Crowd Attended

Professor James Cannon, III, addressed the Y. M. C. A. last Wednesday evening on the subject of the "Spiritual Elements in Man." An appreciative audience heard the address which was pronounced to be one of the best of the series of faculty addresses which have been delivered this year.

Professor Cannon divided his address into three parts, taking up first the great element in man that makes him long for friendship. The speaker urged all men to cultivate friendship while in college, because these friendships are the ones which are of lasting benefit. "Place spiritual ideals in your every day lives because what one makes of these opportunities, which will present themselves in future days, depends on how much spiritual power one has in life," said the speaker in stating his second point. The last portion of the address dealt with the relation which a person should bear to the exterior world and was stated thus by the speaker, "The years before you have either meaning or no meaning for you according to the appreciation which one brings to bear on changes in the external world."

LITERARY SOCIETIES HELD REGULAR WEEKLY PROGRAMS

Hesperia Departed from Usual Routine to Hold a Drill in Parliamentary Usages

The Hesperian Literary Society held its regular meeting Saturday evening. A very successful program was carried out, and it was decided to hold a series of parliamentary drill meetings. The purpose of these meetings is to drill members in constitutional and parliamentary actions. This is a new institution of the society, and it is believed that it will meet a long felt need in preparing men for society work and for holding public office.

At the regular meeting of the Columbian Literary Society Saturday evening the following program was rendered:

Orators: P. W. Townsend and J. D. Gooch.

Debate: *Resolved*, That compulsory military training should be established in the United States.

Affirmative: J. D. Scott, G. B. Wynne, C. H. Benson.

Negative: Henry Belk, W. J. Miller, D. W. Kanoy. The negative won the decision.

A very interesting extemporaneous talk was made by Sam Maxwell on "How to Get Married and How to Stay That Way."

R. H. Cunningham, ex-'21, is now enrolled at the United States Naval Academy.

BASKETBALL

Trinity College vs. Durham Y. M. C. A., 8:00 p. m., Friday night, December 12, in Angier Duke Gymnasium.

FRATERNITY PLEDGE DAY WAS ON DECEMBER NINTH

Men Were Invited to Join Fraternities According to Pan-Hellenic Agreements

According to the rules of the Pan-Hellenic Council of Trinity College, Tuesday, Tuesday, December 9, was set for the day when invitations to join fraternities might be extended to new men. The fraternities announce the following pledges:

Alpha Tau Omega: J. A. Bell, Charlotte, N. C.; B. B. Harrison, Littleton, N. C.; Enoch Stancy, Greensboro; and F. E. Tucker, Durham.

Kappa Alpha: Carroll Summers, Orangeburg, S. C.; Marvin Carver, Rongemont; Glenn Pennington, Spencer; David Suiter, Garyburg; J. W. Holton, Winston-Salem.

Kappa Sigma: T. G. Neal, Laurinburg, N. C.; Fred Folger, Mount Airy; T. B. Ashby, Mt. Airy; J. C. Speoh, Winston-Salem.

Pi Kappa Phi: J. T. Jackson, New York; J. A. Johnson, Asheville.

Sigma Phi Epsilon: G. C. Tudor, Winston-Salem; Byron Hicks, Rockwood, Tenn.; J. P. Rascoe, Windsor.

Sigma Chi: J. T. Armstrong, New Bern; J. E. Blades, Elizabeth City; E. B. Brown, Ayden; J. E. Lyon, High Point.

Alpha Zeta Phi: Paul Gibbs, Hendersonville; J. L. Jackson, South Bend, Ind.

College Orchestra and Band Showing up Well

Every chapel exercise furnishes an example of the work of the college orchestra, which has completed its organization and is now in fine condition. All the members are working hard, and since the arrival of the new music recently, some very fine music has been rendered at the daily chapel exercises. The orchestra will also serve as a nucleus for the Glee Club, which is being organized, and will make the trip with it. The personnel of the orchestra is as follows: Leyburn, piano; Humphrey, Rosenstein, and Murphy, violin; G. M. Ivey, E. M. Ivey, and Moore, cornet; Rackley, trombone; and Turrentine, drums.

Development of the college band is progressing rapidly, too. G. M. Ivey, leader of the band, has not yet announced the personnel of the organization, but stated that new music had been received by the band, and that within a very short while the students would hear band music that would be a credit to the college.

W. W. Stedman, '07, who has been at the Appalachian Training School, Boone, N. C., for several years, recently moved to Monroe, N. C.

VARSITY BASKETBALL TEAM DEFEATS PREPS

PARK SCHOOL MEN MADE FINE SHOWING AGAINST SECOND STRING MEN

TEAM IS IN EXCELLENT FORM

Championship Men of 1917 Team With Strongest of Last Year's Quint Show Promise of Easy Way to Championship

The varsity basketball squad played its first practice game of the season last Friday evening, when it defeated the Trinity Park School quint to the tune of 38 to 16. The game was interesting and was witnessed by a great crowd of supporters for both teams. No unusual playing was exhibited by the college team, although the "preps" put up a very creditable game for a preparatory school team.

The game opened with the second string men of the college in the game opposed to the best men of the Park School team. The high school lads did good work, and the college boys were unable to hold them down, so that at the end of ten minutes the Park boys were slightly in the lead. At this point the coach of the college team sent in another squad of men to stop the high school bunch. They were unable to do any better than the quint they had just relieved, and the half ended with the score 14 to 10 in favor of the Park School.

The second half opened with a few changes in the Park School positions and with the first string college men in the game. From this point on it was a runaway for the varsity. The Park School scored only once in the entire half, this being a clean shot by Chappel, playing guard. How he got away with it was hard to discover. Startling did most of the scoring for the varsity, with Hathaway, Ferrell, and Cole tied for second honors. The preps played good ball, but they were simply outclassed. They covered their men well and had things their own way until the first-string fellows went up against them. Appearances indicate that two winning teams are going to be put out this year, one from each institution.

The next practice game will be held Friday night, when the Durham Y. M. C. A. meets the college team in the college gymnasium. A close game is expected, as the "Y" is reported to have a strong team this year.

The line-up in the game last Friday was as follows:

Trinity College		Park School	
Center		Crute (4)	
(1) Richardson	Pennington	Roane	
(3) Martin		Right Forward	
(4) Jeffries	Simpson (8)	(2) Gonzales	
(2) Starling		Spencer	
Left Forward		(7) Starling	
Barrett	Ormond	Burch	
(6) Ferrell		Jackson	
Right Guard		(4) Giles	
(4) Neal		Bissett (2)	
(6) Hathaway, Captain		Bolich

EDITORIAL

A crucial time, December 9, is past. Let us hope now that "politics is adjourned."

Is this the last issue of the CHRONICLE? We certainly hope not. But according to the learned astronomer next Wednesday, December 17, will be fraught with great destruction, and we shall all go to meet our Maker.

Inferences are quickly and easily made. The newspapers announced on Monday that the supply of coal is very short, and the students of Trinity College started a rumor Tuesday that the holidays will begin a week earlier. The rumor is incorrect, according to statements made by authorities of the college, and men who are acquainted with the situation, and should know. Students who have made plans on the above assumption may rest assured that their little parties are all broken up.

But far be it from the CHRONICLE to be a gloom-dispenser or joy-killer. It has also been rumored that the faculty, through kindness, and not because of the coal situation, is considering a proposition of moving the day for our return after Christmas from Friday, January 2, to the following Tuesday, January 6, and thus allow one more Sunday at home. Anyone who has any objections to such an arrangement will please make them known before it is too late.

Yesterday marked the end of a period in Trinity College known as the fraternity "rushing" season. Every year, from the opening of school to the final culmination, when written invitations, or "bids" are extended by fraternities to the men they have selected to take close and intimate asso-

ciates of, there is a keen rivalry between the different fraternities, each one endeavoring to show its points of superiority over the others. We do not care to enter into a discussion just at this time of the merits or demerits of this system of rushing, or of the rules made by the Pan-Hellenic Council. But perhaps some comment of the manner in which the affair was carried out this year is expedient at this time.

In the opinion of the CHRONICLE, this rushing season has seen some of the keenest, yet some of the cleanest political fights that have been staged in recent years. Fraternity men have met each other as men and as gentlemen, and have discussed situations as they arose with cool heads and fair minds. This condition is entirely commendable, and the fraternity men as a whole are to be congratulated for their conduct.

DR. GROSS LECTURED TO PHYSICS CLUB TUESDAY

"Physical Chemistry" Subject of a Very Interesting and Instructive Talk

The physics club held its regular weekly meeting in the science hall on Tuesday evening. Dr. Paul Gross, of the chemistry department was the speaker of the evening. He gave an informal and very interesting lecture, taking as his title "Physical Chemistry." Dr. Gross discussed the relation between the subjects of physics and chemistry. He stated that in the olden days, before the birth of modern chemistry, the two subjects were thought to be entirely separate and distinct. At that time the inside work of chemistry was not known, but only the physical results of chemical action was considered. He traced the growth of chemistry from its start up to the present. As chemical knowledge increased, its close relation to physics became more apparent, until today, the one science is impossible without the other, the two are so closely interwoven.

Physics is a study of the conditions and quantities of things, while chemistry deals with the constituency of matter. The two cannot be separated. In every chemical action, physics must take a part, as in the temperature, mass, and volume. Chemistry enters the physical field in the construction of objects used in the physical world. Dr. Gross illustrated his points by the use of a few simple experiments in which he pointed out the separate chemical and physical actions, and showed how necessary one was to the other. Time and certain physical qualities of matter were proved to be essential to all chemical reaction.

The attendance was small but attentive, and, as students of both physics and chemistry, derived much valuable information from the lecture, which was delivered in a manner easily understood and was appreciated.

The question of the unification of the Northern and Southern Methodist churches was the subject of a round table discussion at the regular meeting of the Ministerial Band Friday night.

The chief point of variance between the two churches is the negro question, for the Southern people are unwilling to permit the negro to take part in their worship as he is encouraged to do in the North.

DIRECTOR CARD HAS SOME INTERESTING STATISTICS

Gymnasium Director Prepares Data of Men Holding Various Records in Physical Examinations

Announcements have ceased to be made in chapel that "Director Card and Dr. Speed will be in the gymnasium again this afternoon to continue the physical examinations. Watch the bulletin board and go when you are supposed to go," and Cap Card has compiled some very interesting data concerning records held by men in college and in the Park School.

Henry Belk is the tallest man in college or the tallest student ever measured at Trinity. He is 77 inches or six feet and five inches.

J. A. Johnson is the heaviest man, tipping the scales at 208 pounds.

P. E. Mallison has the broadest shoulders 18 1-10 inches.

J. A. Johnson has the greatest depth of chest, 9 1-10 inches.

Mr. Johnson also has the largest chest, 40 inches.

D. M. Sharp has the best chest expansion, five inches. This expansion is taken from the normal measurement.

Mr. Sharp also has the largest neck, 15 1-2 inches.

C. S. Hammond and Cecil Holt had the best ninth rib expansion, 4 3-10 inches.

M. B. Jeffries has the strongest grip, 70 kilograms or 154 pounds.

R. C. Leach and R. A. Moore are tied for the highest lung capacity, 350 cubic inches.

BELOW IS THE PARK SCHOOL RECORD
S. B. Turner is the tallest man, 78 3-10 inches or 6 feet 1 3-10 inches.

C. E. Wethington is the heaviest man in the school or the college, 217 pounds.

V. J. Spivey has the broadest shoulders, 17 7-10 inches.

C. E. Wethington has the greatest depth of chest, 9 5-10 inches.

Mr. Wethington also has the largest chest, 43 5-10 inches.

H. M. Wester has the best chest expansion, 3 6-10 inches.

Mr. Webster and A. L. Wall have the largest necks, 15 inches.

E. S. Bolich, R. D. Ward, and J. H. Johnson are tied for the best ninth rib expansion, 4 5-10 inches.

S. R. Roans has the strongest grip, 77 kilograms or 169 4-10 pounds. This is also the best among the new men in college.

H. A. Crute has the best lung capacity, 360 cubic inches.

There are quite a number in the college and high school who will need special work but the class as a whole measured up very well physically.

Average age of the freshman class or all new men is 19 years.

Average height of the freshman class or all new men is 5 feet 7-9 inches.

Average weight of the freshman class or all new men is 136 pounds.

PARK SCHOOL

Average age, 17 years and 7 months.

Average height, 5 feet and 7 inches.

Average weight, 132 pounds.

(Signed) W. W. Card.

Miss Rosalie Stepp, '19, who is teaching at Martinsville, Virginia, and Miss Vera Wiggins, '19, who is teaching at Dover, N. C., were visitors on the campus last week.

William Avery Loftin, '19, is in the tobacco business at Warsaw,

FOOTBALL PRACTICE WILL BE CONTINUED ALL WINTER

Coach Rothensies and Manager Loftin
Will Instill the Rudiments of
Football in Trinity

Tuesday afternoon saw the re-
sumption of varsity football prac-
tice by the men who expect to try
for positions on the team next
year. At a meeting of men in-
terested in football after chapel
Tuesday, Coach Rothensies put the
matter of football squarely up to
the men interested, and stated his
position in regard to putting out
a varsity team next year. It was
the unanimous opinion of those
attending the meeting that Trinity
should put out a team next year,
and the coach stated that the
faculty would back up the men if
they showed their interest in a
substantial way by coming out for
practice regularly. The equip-
ment is here, and the material for
a winning team is here, as was
shown by the quality of football
played in the inter-class games. It
is true that the men need a great
deal of practice and experience
before they can be able to put out
a team that will stand the grind
of inter-collegiate ball. With this
in mind Manager Loftin and As-
sistant Manager Wagoner have
put up a tackling dummy on the
football field, to give the men
practice in tackling. Braxton
Jones and "Red" Huntley of the
Law School are assisting Coach
Rothensies in putting the men
through the grind.

When the Board of Trustees
decided to permit the resumption
of football as a major sport, they
specified that the playing was to
be intra-mural for the first year;
after that its scope was to be left
in the hands of the faculty. The
faculty only wants the assurance
of the student body, both in spirit
and in a substantial way, to per-
mit inter-collegiate ball next year.

The coach expects to continue
practice throughout the winter so
that the principles of football may
be thoroughly mastered by the
student body as a whole by the
time real practice for positions on
the team begins next fall. A
larger number of men must be out
for practice from now on than
were out Tuesday to accomplish
the desired results. A good start
was made with those who were out,
and some hard work has gone
through with. Consistent practice
this year is the only way in which
a team can be developed for next
year. Football is a new thing to
most of the men in school, and this
places the brunt of the business
on the individual students. They
must learn in order to help the
team in an intelligent manner.
Prospects for next year are not
at all bad, in fact they are fine if
the men who have the ability to
play will come out and show what
they have, in the opinion of the
coach.

The Faculty Club held its regu-
lar monthly meeting Thursday
night, December 2. Nine new
members were received in the or-
ganization at this meeting.

W. G. McFarland, '18, now pas-
tor of Epworth Church at Raleigh
visited friends on the campus
Thursday.

CALENDAR FOR THE WEEK

There will be a meeting of the
Fortnightly Club of Sigma Upsilon
in the English office at 7:30,
Friday, December 12.

The Ministerial Band will have
a round table discussion on "The
Social Problems of the Church"
at their regular meeting Friday
evening.

Everyone is urged to be present
at the Vesper service Sunday
evening at 6:40 in the Y. M. C.
A. Hall.

The Historical Society will hold
its regular meeting Monday even-
ing at 7:00 o'clock.

The Classical Club will meet
Thursday night at the regular
hour.

Professor Spence will deliver
Y. M. C. A. this evening at 7:00
the third faculty lecture for the
o'clock.

PARK SCHOOL NOTES

The second quarterly examinations of the Park School begin Saturday, December 13. Although the time since the last examinations has been only six weeks, the shortness of the term will be made up by the length of the next two terms after Christmas. The work in general is further advanced than at this time last year, partly due to the fact that the influenza was prevalent for a time then. The examinations will end on Thursday, and the students will be given the privilege of going home that day instead of Friday the 19 as stated in the catalogue.

The results of the basketball game with the college last Friday was looked upon by the Park School boys as a brilliant success. Although the score shows a considerable margin, the fact that they were playing against a part of the old championship team of 1917 made the boys feel fortunate at even scoring.

WHO'S WHO IN TRINITY

A Directory of Important Positions in
College Activities and Men Who
Hold Them

Y. M. C. A.

J. E. Gilbreath President

Sometimes

We love to touch the human side of folks. After all money making is not all there is in business, leastwise not with

THE FIRST NATIONAL BANK

THE MAN behind the dollar interests us.

THE FIRST NATIONAL BANK

wants the public to consider it as a MAN MAKER, as well as a MONEY MAKER. Every bank owes the other fellow something. There is but 100 cents in a Dollar, but there is the word of encouragement, the human touch that will help lift the burden. Many a poor fellow is hungry for a word of sympathy, "the hello, hooray Bill, we are betting on you" spirit that makes

THE FIRST NATIONAL BAN

a MAN MAKER as well as a MONEY MAKER.

Dan Henderson interpreted the thoughts and plans of

THE FIRST NATIONAL BANK

When he sang:

Weave for the world the flag of man!
Finish the fabric our sires began!
Out of our lives shall the thread be spun!
Out of our veins shall the color run!
Out of our deed shall rise its lustre!
Out of our dreams its stars shall cluster!
Wide as the heavens spin the span
Of freedom's fabric—the flag of man!

HATS OFF!

"We Know Your Wants and Want Your Business"

Why do Young Men Stick to This Store?

It simmers down to dollars and cents. You know that you get better values, better style, better all-round satisfaction for the money that you spend with us for clothing.

That's why we are selling so many Collegian suits and overcoats. They give you everything you demand—style, fit and wear—at fair prices.

\$30-\$35-\$40 and up
