## BOLD ENGINEERS OCCUPY FORMER MANLESS REALM

Technicians, Undaunted, Are Fully Acclimated in New Home

### MODERN CONVENIENCES Are Quite Comfortable Though Isolated From Their Fellow Males; Reported All Safe

Considerable interest has been shown during the past week throughout the campus in the conversion of Southgate Hall, the erstwhile manless realm, into one of the busiest and most frequented centers of engineering activity. The lack of fire curtains and other signs of antiquity tend to show the presence of the masculine taste in the "Shack" the in which students are wont to call the former home of the co-eds.

Although the lure of the new dormitory building is very great, and the beauty of the great gray campus most drawing, the engineers have acclimated themselves to their new surroundings very readily. Practically all the engineering conveniences that adorn the newly constructed buildings are present at Southgate Hall. The dining hall is functioning for the use of the students, and the gymnasium on the first floor of the "Shack" will also be at the disposal of the engineers. After hard, strenuous days the boys will have time to relax in the well furnished and homelike living rooms at the hall.

The control of affairs and conduct at the quarters of the engineers has been placed in the capable hands of Mrs. John Hicks.

Routing of the memorial hall makes a much more convenient schedule for the engineers since at the women's office their classes call them to the campus zone being used as the women's college. There is a possibility that in the near future this class along with the engineering association class will be moved to the East campus for the convenience of the engineers.

It is also anticipated that the use of the tennis courts at the rear of the dormitory will be had.

With an increase of engineering freshmen, a group including boys from all parts of the country, and from Cuba, the engineering scholastic year has started very successfully.

## WOMEN HEAR WELCOME FROM PRESIDENT FEW

Dr. Few Urges Students of Women's College to Take Advantage of the Opportunities Offered by Duke

President W. F. Few officially welcomed the women, both of the new women's college and of Duke University, in a brief address Wednesday morning at chapel. This marked the initial opening of the Women's College.

In his talk, Dr. Few stressed the fact that men and women are to enjoy equal advantages at Duke University, and women offered help on campus being open to all, "going to take it and be it." He expressed the hope that the young women entering upon a career in college might realize the opportunities that lie before them, and take advantage of the open doors to a broader and more cultured education.

## DEAN ARNOLD TALKS TO FRESHMAN CLASS

The freshmen held their first class meeting during the chapel period Saturday. Dean Arnold talked to the new students on the nominating system that would be used in electing class officers. All nominations must be written out and filed in the dean's office within the next few days. At the time of the meeting only eight names had been sent in, but it is expected that there will be some twenty or thirty other nominations turned in.

Dean Arnold talked to the freshmen from their home town to minimize the outstanding achievements of that classmate during his high school career and turn the candidate's name and record in. These records will be looked over by a nominating committee selected by the deans of freshmen and the outstanding few will be voted on at the next class meeting. This plan has proved very successful in past years and it is expected that the class of '34 will have a capable set of officers to guide it through 1930-31.

## JOINS LAW FACULTY

Professor Malcolm McBurnett, for twenty years dean of law at the University of Tennessee, will teach sales, corporation, and partnership law in the Duke law school.

## DR. GREEN SPEAKS AT FIRST VESPERS

Trinity Methodist Church Quartet Furnished Musical Program for Occasion

The first Vesper service of the year was held Sunday afternoon at four o'clock in the beautiful little chapel of the school of religion. Doctor W. K. Greene of the English department was the speaker, his subject being "What It Means to Be a Christian." Special musical numbers were furnished by a mixed quartet from Trinity Methodist church. The quartet was composed of Mrs. J. Foster Barnes, soprano; Miss Helen Panoos, contralto; R. K. McFarley, tenor; and J. Foster Barnes, baritone. Jack Tannenbaum of Patterson, New Jersey, also rendered a solo solo. Miss Clarice Bowman furnished all piano accompaniment. Gailor Pratt, chairman of the Vespers, presided, and the public, as well as the faculty and students, is cordially invited to these services. Next Sunday another well known speaker will be present, and there will likewise be another attractive musical program.

The little chapel is most conducive to a spiritualistic service, and it is hoped that many will find inspiration and help here each Sunday.

## TAURIANS HOLD FIRST MEETING OF SEASON

Mr. West, an Authority in Dramatics, Will Have Direction of the Productions of the Club This Year

The first meeting of the Taurian Players took place last Thursday night in the Taurian room in West Duke. The meeting was called primarily to introduce to the members Mr. West, a man of wide experience in the field of dramatics, who will have charge of the productions for the ensuing year.

A rough sketch of the year's work was mapped out, the number of plays and the sale of tickets being decided upon. There will be three productions during the school year and the season's tickets will be ready for distribution on Thursday.

It was decided to have another meeting Thursday evening in the Taurian room in West Duke on the East campus to welcome the freshmen who are interested in dramatics. These freshmen, and any other students who are interested have a cordial invitation to be present at this meeting.

## FORESTRY EXPERT RETAINED BY DUKE

C. F. Korstian, Federal Silviculturist, Will Come Here as Forest Director

C. F. Korstian, silviculturist at the United States Appalachian forest experiment station at Asheville, has resigned to become director of the Duke university forest here. The Duke forest consists of about 5,000 acres of forest land southwest of the city.

Mr. Korstian is a graduate of the University of Nebraska and did advanced work at Yale. He is the author of many pamphlets relating to forestry published by the federal government and is regarded as an authority on forests.

After assuming his new duties at Duke it is understood that Mr. Korstian, and the university officials will consider the advisability of establishing a forestry school at Duke in the near future and will cooperate with others in the state who are interested in preserving the forest resources of North Carolina.

There are only a few forestry schools in the country and not many of them are located in the South. The two best known southern schools of forestry are at State college, in Raleigh, and the University of Georgia, at Athens, Georgia.

## FRIENDSHIP THEME OF BARTHELMESS PICTURE

"Dawn Patrol" Teller of Bonds Born of Common Danger at Battle Front

The friendship of men, bonds born of common danger and mutual understanding—effection built upon more enduring things than sex—is the theme of "The Dawn Patrol," the first National Vitaphone picture starring Richard Barthelmess which comes to the Carolina Theatre beginning next Thursday.

Barthelmess plays the role of Capt. Courtenay, commander of a British air squadron in 1915. Under his command is Scott, played by Douglas Fairbanks, Jr., and a group of "scholastic" flyers recruited into service by the exigencies of war.

Howard Hawks directed this "Bun Geon of the Air" based on a story by John Monk Saunders. It was adapted by Seton Miller and Dan Totheroh. Ernie Haller photographed it and the episode including the thrilling air and battle scenes.

## NEW SUB-STATION IS OPENED ON CAMPUS BY U. S. POST OFFICE

Simultaneously with the opening of Greater Duke university, federal officials placed on the west campus a very convenient sub-station for the use of the post office on the East campus, and three clerks, the new office has surpassed its old quarters.

The new sub-station is located in the basement of the Union building and is a double-story structure. The building which is in keeping with the Duke architecture, contains 1,200 boxes. Because of the complexity of the situation, which is always present at the opening of a new academic year, every student is urged to have his mail addressed to his box.

An interesting feature of the new office is that it is an international money order office. Formerly international money orders were not sold at any of the sub-stations in the city. Federal officials foresee a considerable demand at Duke University for funds available in foreign countries for use in purchasing books and other equipment abroad and consequently they are supplying this service.

The mail from the main postoffice is transferred to the new sub-station by bus. The distance between the city and the station each year will be approximately 1,000 miles. Five deliveries will be made each day, and upon its arrival will be immediately worked.

The two Duke sub-stations are parts of the post office system and will be operated under the regulations of the United States postoffice department. The business of each station will be conducted in the same way that the general station, and thousands of pieces of mail will be handled daily.

## DUKE PROFESSORS GO TO CONFERENCE

Prof. Harold C. Bird, of the civil engineering department of Duke university, and Prof. William H. Hall, of the engineering department, were members of a conference at Atlanta, Georgia, for engineering teachers which closed recently at Yale university after a three-week session.

## Expanding Law Library is Installed on New Campus

15,000 VOLUMES  
Program Calls for Several Thousand Additional Volumes in Next Few Years

HAS 40,000 VOLUME CAPACITY  
W. R. Royle of Southern California Takes Charge as Law School Librarian

The Duke university law library is now established in its new quarters in the law school building on the new campus and is ready to serve the faculty and students of the law school and others on the campus who are interested in legal study in connection with studies in the social sciences.

Already numbering in excess of 15,000 volumes, the plans call for the expansion of this library to nearly 40,000 volumes during the next two years. The stock rooms of the law library has a total capacity of 60,000 volumes.

A basic legal collection was built up while the law library was a part of the general library under the direction of W. R. Royle, librarian. During the last year many valuable additions were made under the supervision of Professor Bryan Bolch.

Taking this collection as a nucleus, a program of expansion is now well under way, with orders placed for several hundred volumes of legal texts and treatises, sets of periodicals, and state reports. W. R. Royle is the new librarian for the law school.

At the present time the opinions of the United States Supreme Court and of other federal courts, and most of those of the higher courts of the 48 states are available, either in official or unofficial sets. The present program calls for additional volumes to be added to the collection.

## The Pen that passes exams

will help you pass all your

Easily—3,000,000 Parkers will go to school this fall

GUARANTEED FOR LIFE

"I'm paid a bonus if my point gets 11 okay—I pay a forfeit if it fails to earn them all!"  
The Parker Point-System

We pay a bonus for every Duofold point to give you a Pen that writes with Penultimate Touch. To produce this, we had to develop special post-graduate point-smiths. We allow them to make but a limited number per point. Thus they have time to make each point a masterpiece.

It must pass 11 merciless tests. Then we pay its maker an extra reward. If it fails any test, we reject it, and the point-smith pays a forfeit.

Yet 7 out of 8 like make are Bonus Points. And these, and these only, go into Duofold Pens.

**Like 2 Pens for the Price of One**

Try this famous Pen at any pen counter. See how it changes from a pocket Pen to a Pen for your study Desk Set by simply interchanging the pocket cap and the tapered tip. This saves the price of a second pen. Parker Duofold Pens are Guaranteed for Life. Their Permaette barrels are non-breakable, yet they have all the beauty of costly jewels.

Duofold Pens hold 17.5 more ink than average, save for size. New streamlined balanced shapes now ready at all dealers. See them—and see the streamlined Pen to match. Don't buy any pen without first trying the Parker Duofold Bonus Point.

THE PARKER PEN CO., Jennevill, Wisconsin

PEN GUARANTEED FOR LIFE, \$5, \$7, \$10

## Football Team Bows to Gamecocks in First Fry

SCORE, 22 TO 0  
Intercepted Passes Prove Downfall of Blue DevilsEDENS STAIRS FOR S. CAROLINA  
Enormy Quarterback Performs in Great Style While Murray, Eshler and Rocky Play Best for Duke

The 1980 edition of the Duke university football machine failed to function on its first outing last Saturday, and as a result the initial result of the season went to South Carolina by a score of 22 to 0. Although the bulk of first downs was twelve to ten in our favor, the all-important breaks of the game favored the opposites, who twice scored on the first outcome of a blocked punt and intercepted pass. In fact, their remaining scores as well were the indirect result of passes tossed by Duke backs and intercepted by Edens, who was as good a pain in the neck as one man can make himself during the course of a afternoon.

The game started out with bright hope for the home team, as the Carolina threatening the Carolina goal before the game was five minutes old. Abbott made a brilliant runback of the opening kickoff to the middle of the field, and shortly after Hayes got of a nice punt to the 10-yard line, where Rocky drove over an interfering back to place the receiver in his tracks. However, after an exchange of punts, an end run for 27 yards followed by a blocked punt led to 40, put the ball deep in Blue Devil territory. Here the line rose to the 10-yard marker, and Hayes promptly punted out of bounds on the 25-yard line.

Duke had an all-purpose player in pass, and Rocky, who made several nice catches during the game, snared a pass for a 25-yard gain. The South Carolina receiver, a fumble and began to open up with passes. Substitutions for both sides were numerous at this stage, and Duke had an all-purpose player in action when the big break of the game came. Short's attempt to punt from the middle of the field was nullified by the Vaughn, who pursued the ball almost to the goal line and then carried it over the line. The game was tied at the 10-yard line, and the game was tied at the 10-yard line, and the game was tied at the 10-yard line.

With Edens intercepting no fewer than three passes during the second half and showing an unusual ability to gain yardage in every conceivable manner, South Carolina had little trouble in increasing their score. A delayed start goal by the enemy quarterback brought the new field in that department, and although Duke never gave up and tried everything, they were unable to gain consistently against the stream of subs which flowed onto the field from the opposing bench.

The ballcarrying of Murray and Scott left little to be desired from a Blue Devil viewpoint, but Abbott, after a fine start, was unable to keep up the good work and gained practically no yardage after the first quarter. The end play of Buskay, especially on offense, stood out in the line, which missed the inspiring play of Captain Davis. *Continued on page 10*

## SWIMMERS EXPECT EXCELLENT SEASON

Tank Team to Start Practice in Three Weeks; Much Material on Hand

In about three weeks, Jimmy Snathers, captain of the Devil swimmers, will see the call for full tank practice. Up until the present time swimming has been very little place in the schools of this state. In fact, Duke is the only school which had a tank team last year.

Last season's Duke swimmers took part in several meets and made a good showing despite a big handicap. They were without a coach much of last year season, but naturally suffered from lack of a team coach will be provided, and with a larger number of boys to draw from the team ought to make a good record. A number of excellent swimmers will report for practice and competition will be kept for all events. As most of last season's men will still be with Duke this year, the team will not be without seasoned men. A wonderful new pool has been provided, which will enable the coaches the best conditions possible for development. Swimming has lately been a popular sport. The schedule of meets for the team is not on hand at present, but it is expected that a heavy campaign is before the swimmers.

## HALF REMAINING GAMES WITH TEAMS FROM CONFERENCE

Carolina, Navy, Villanova, Big Away Games; Stadium Opening to Mark Wolford Engagement

Coach Coombs, one of the greatest of all World Series heroes, as well as one of the best pitchers of all time, calls the 1980 season an "iron man" year. He gives the Cardinals an edge in the field despite the offensive power of Jimmy Pate, who, the 40-year-old pitcher, has a more powerful left field and superior catch.

Pitching prowess, all-important in a short series, goes to the St. Louis team. The Cardinals have a more powerful left field and superior catch. The Cardinals have a more powerful left field and superior catch. The Cardinals have a more powerful left field and superior catch.

The Cardinals have a more powerful left field and superior catch. The Cardinals have a more powerful left field and superior catch. The Cardinals have a more powerful left field and superior catch.

## FRESHMEN SHOW STRONG MATERIAL

Hagler and Caldwell Train Men for Open With State; Very Large Squad Out

Freshman football has not received very much notice from the public as yet, but the men have been working just as hard as if they were drawing front page stories. The freshmen have been working just as hard as if they were drawing front page stories.

The freshmen squad has been unusually large this year, having more than a hundred men out for practice. They have been using the west side parking lot as a practice field, and the field of the stadium. This field does not have much sand at all and makes the practice of the players very hard in many ways than one. The men themselves lack very good and as the weather gets cooler they will have to wear more clothes.

## FORMER STARS OF DIAMOND MACHINE SUCCEED AS PROS

Werber, Farley, Jenkins, and Kistler Will Probably be in Major Leagues Next Year

Warren Coakley at Rutherford, Hawkeye Plastering at Charlotte. While Ben Reaford Offer from Senators

With the closing of the baseball season, the 1980 records of the men who left spring and professional baseball from Coach Coombs' great team of last spring are complete. They were successful in a number of ways, and their record in organized baseball indicate that Duke university last year boasted a galaxy of diamond stars, which could come favorably with single college team in the history of the sport.

Bill Werber, all-southern shortstop for the Kentucky Colonels, was the most brilliant player of all. Bought by the New York Yankees, he was traded to the Boston Red Sox, where he played regularly with this Class B organization, and at the season's close had one of the best batting records in the circuit—an average of over .280.

Farley, who played for the Kentucky Colonels, was the most brilliant player of all. Bought by the New York Yankees, he was traded to the Boston Red Sox, where he played regularly with this Class B organization, and at the season's close had one of the best batting records in the circuit—an average of over .280.

Farley, who played for the Kentucky Colonels, was the most brilliant player of all. ## NEW COACHES FOR FRESHMAN TEAM HAD FINE RECORDS

Hagler and Caldwell Both Varsity Men at Alabama for Three Years

Two of the new members of next year's coaching staff have already arrived from Alabama and are busy turning out the first part of Duke's varsity football material for the coming years. They came here a year before the lead coach to try out the present freshman squad and to pick up the details of the Devil system, in addition to partially installing their own ideas.

The fresh backed senior, Coach Caldwell, played three years on Alabama's varsity team. He has been out of the Rose Bowl in Pasadena, California, on two successive years with two great teams. It was on his last year, however, that he was chosen as the first four minutes of play he saved the team by kicking a very extra point which led to a strong Stanford eleven by a score of seven to three. His own experience, as a player and as a coach, should make him one of the most valuable additions to the Duke athletic faculty.

As a running mate to Coach Caldwell, we have Coach Hagler, or "Dumpy" as he was known in college, acting as line coach for the freshmen this season. He, too, played three years on Alabama's team, but saw action in the Rose Bowl game only during his sophomore year. In his senior year he was chosen as all-southern guard.

Coaches Caldwell and Hagler graduated in '78 and '79, respectively, and since then have been coaching football in the South, Caldwell at Lenoir high school in Montgomery, Alabama, and Hagler as freshman line coach at the University of Alabama under Wallace Wade.

These two men will have their hands full trying to install the fundamentals of the new system into the present freshman squad. With the team developing as it seems to be and with the spirit shown in practice, the Duke Imps should be very successful this season ahead of them.

Last year these two men college students in the United States but in all the rest of the world combined. There were 1,257,000 students enrolled in colleges and universities in this country.

## Virginia Will Bring Heavy Scoring Team to Stadium

FAST BACKFIELD Has Rolled Up 85 Points in First Two Games RENEWAL OF OLD RIVALRY

Trinity Battled Cavaliers Three Consecutive Years for Southern Championship Last in 1950 (By Joe Skinner)

Next Saturday the Blue Devils will assemble in the stadium to receive the ball rivalry of forty years standing with the University of Virginia. The two schools have not met on the field since 1929, when Virginia defeated Duke.

Virginia has already played two games this season was opened with Roanoke College, a game in which the Cavaliers took a 37 to 0 win. Last week Virginia took Randolph-Macon over 40-0. Of course both of these schools are comparatively small, but the indications are that the Virginia boys have a pretty strong aggregation.

Virginia has a few excellent men on their squad who show some ability in the back, is not speedy but is reported very shifty. In the Randolph-Macon game he carried the ball five times to score five touchdowns. Herb Bryant, full back, is the leading point scorer of the state just at present. He has scored three touchdowns and has placed kicked six extra points out of seven tries, and is an able passer as well. In Frank Shipley Virginia's speedy quarterback, but as this is his first year as regular number caller, he is a little lacking in experience. In the line, Hazzard, 210-pound center, resembles the well-known state ball. The probable line-up for Virginia will be as follows: O'Brien, K. Motley (C), H. Cannon, L. Gentry, D. Dobbins, Jr., P. Payne, R. Shipley, G. Thomas, R. Myers, R. Bryant, Jr.

The Cavaliers will display a flashy, well-balanced offensive which has rolled up 85 points in the first two games. They have two strong sets of backfields, but aside from their captain the line is rather inexperienced, especially on the wings, where the loss of all but one letterman presents a perplexing problem for the coaches.

The staff of the latter has been organized this year by none other than Gus Tebel, who is well known in this vicinity through his connection for the past six years with N. C. State. He is first

## ECOLOGY JOURNAL TO BE PUBLISHED BY SCHOOL PRESS

Magazine is to be Called *Ecological Monographs* and is Under Direction of Ecological Society of America

DR. PEARSE IS EDITOR

Will Be Similar to the *Journal Ecology* Excepting its Treatises Will Be Longer in Length

The Ecological Society of America, in cooperation with the Duke University Press has announced the establishment of a new quarterly journal to be known as *Ecological Monographs*. Publication will begin with the December number under the editorship of Dr. A. S. Pease, professor of zoology in Duke university.

In addition to Dr. Pease's editorial direction, a board has been appointed by the society to have charge of the periodical. These associate editors are: Baringsham, Weymouth, D. C. J. E. Weaver, University of Nebraska; H. N. Chapman, University of Hawaii; H. A. Gleason, Brooklyn Botanical garden; H. N. Henshaw, Ohio State University; H. E. Coker, University of North Carolina; and Chancy Judy, University of Wisconsin.

According to the society, the journal will work in close cooperation with the *Journal Ecology*, publishing longer studies while *Ecology* specializes in articles of less length.

*Ecological Monographs* will be the fourth quarterly of the society, intended to be published at Duke. Others are the *South Atlantic Quarterly*, *Hesperian-American Historical Review* and *American Literature*.

The new ones are appearing on the market so fast that a woman scarcely has time to dry her eyes before she's got to begin weeping again.

## Y. W. HOLDS PARTY FOR NEW WOMEN Begins Year's Work With Wel- come for Freshmen—Many Turn Out

The Y. W. C. A. initiated its year's work with a welcome program for the new girls last Friday night on the steps of the auditorium of East campus. The program was held at the Y. W. C. A. building, which is located on the corner of the main campus and the main campus.

The following young women took part in the program: Betty Wheeler, representing Florida; Jean Hall, from Virginia; Margaret Reid, from Connecticut; Eliza Peck, from Pennsylvania; Dorothy Sharpe, from Georgia; Emilia Lannetta, from New York; and Made Tercell, representing Brazil.

### HANDBOOK PROVES OF VALUE AS GUIDE FOR '34

Continued from Page One  
of the different form of university activities. Every freshman should make it his aim to be a member of one of the honorary fraternities on the campus. Another feature of the handbook is the list of the various organizations on campus. Information here is very concise but effective. The college rules and songs are printed for the convenience of the freshmen, for it is a tradition of the university for the first year class to memorize them.

Student publications are of particular interest to all members of the university. Duke University has five publications, three of which are of particular interest to the students. The *Cronicle* is a weekly newspaper of the university, entirely managed and edited by the students. Incidentally for the past two years it has been awarded the given by the North Carolina College Press Association for the best college newspaper in North Carolina. The *Archives* is a monthly literary magazine which includes in its numbers the cream of student writing mixed with some contributions from outside sources. The *Chancellor* is a year-book of the campus. It attempts to record the most important events of the school year. Pictures of the students appear in class groups, fraternity groups, and the plates of other organizations.

The journal is conducted with the cooperation of the Y. M. C. A. and the Y. W. C. A. and of the men's and women's associations.

### SPASH! SPLASH!

Continued from page five  
a little swimming for a change, after which the party broke up. A few more drafts of the wet should prove interest in this already popular department of women's sports.

### HALF REMAINING GAMES WITH CONFERENCE TEAMS

Continued from page five  
The Blue Devils conclude this strenuous season with the University of North Carolina and its famous array of ball bats in their own back yard on December 6. Needless to say, the defeat of Carolina would completely erase memories left by any early season losses.

### FOOTBALL TEAM BOWS TO GAMECROCKS IN FIRST FAY

Continued from page five  
Devils delivered their offensive efforts between the new system, which featured a balanced line with the two wing backs facing each other, and the old style, with the unbalanced line had concentrated running attack. Honors seemed about even, although the new style showed great possibilities for deception in the attack.

### PRESIDENT FEW SPEAKS AT OPENING EXERCISES

Continued from page one  
each—both pre-educational and distinct and separate college life. Each unit may now build for itself a life on its own campus which will include every phase of college life and activity. The first academic use of the campus was begun in July, at which time the huge hospital was opened to the public. Doctors and specialists in hospital work, visiting our new structures, have pronounced it without a doubt the finest and best equipped, to say nothing of the convenience, that they have had the pleasure to inspect. Through careful selection Dr. W. C. Davison, dean of the medical school, has selected one of the finest medical facilities in the country. The medical school proper opened today.

It is remarkable that such a tremendous building project should be completed and turned over to the students and faculty in such a short span of time. There has never been a time in the history of any institution when the plant was finished and opened for use as an entire unit. We opened our new twenty-million-dollar home which consists of three buildings. There are, however, two buildings not yet completed—the new chapel and the chemistry building. The chemistry building will be finished in about six or seven months, the capitol chapel will require

another year's work before it will be complete. Two million dollars is being spent on the structure. It will be, of course, of the same English Gothic architecture as the other buildings and it will be built of native stone from the university's own quarry near Hillsboro.

Experts have commented very highly upon the physical arrangement of Duke's new unit of buildings. Every detail was taken into consideration before plans were drawn up or work began. The campus is, therefore, very ideal to ideal. The huge hospital and school of medicine, the law school, the graduate school, the school of education, the school of religion, the administrative offices, all have separate edifices. The union, which is the center of all student activity, contains the dining hall and in addition drug and book store, post office, barber shop, haberdashery, and a separate office for all campus files, pamphlets and manuscripts.

On the women's campus the six handsome brick buildings, made more strikingly beautiful by tall Grecian columns, contain a complete plant within itself, but transportation brings the girls within access of all the academic advantages of the men's unit.

The athletic facilities on the new campus are exceptionally well arranged. Last year our new stadium with a capacity of present thirty-five thousand was dedicated. A score of new track courts have been erected on the new campus, and there are various athletic fields which are being completed.

With the formal opening exercises in the background now, there is every indication of a most successful year for Duke university.

### PROMINENT INDICATORS AMONG FACULTY ADDITIONS

Continued from page one  
ville, Tenn., since that time. The new professor is a member of the American Bar Association, the Tennessee association, and the Knox County Association. In 1928-29 he was president of the Tennessee Bar.

Dr. H. C. Horack comes to Duke from the University of Iowa law school. Dr. Horack is a graduate of the Harvard law school, and has taught at Wisconsin and the University of Iowa. He has been president of the Association of American Law Schools, and president of the State Bar Association of Iowa. For two years he was advisor of the section of legal education of the American Bar Association.

Another appointment of great interest is that of Dr. John S. Broadway, a school official in administering the orientation program. They rendered services by meeting trains and buses, conducting information bureaus, assisting the professors in giving examinations, and furnishing a club room in the Union for the freshmen's entertainment.

Throughout the entire week, the cadet members of the Y. W. C. A. assisted the school officials in administering the orientation program. They rendered services by meeting trains and buses, conducting information bureaus, assisting the professors in giving examinations, and furnishing a club room in the Union for the freshmen's entertainment.

National Association of Legal Aid. Dr. Paul H. Vieth of Chicago has been appointed visiting professor in religious education in the Duke university school of religion. At present superintendent of educational administration and director of research of the International council of religious education, Dr. Vieth is also a member of the editorial staff of the International Journal of Religious Education, a graduate of Central Wesleyan College at Warren, Missouri. Dr. Vieth subsequently studied at Columbia university and in the graduate and divinity schools of Yale, receiving his B.D. and his Ph.D. degrees.

### FIVE LIBRARIES IN USE BY STUDENTS AT PRESENT

Continued from Page One  
graduate work will be taken care of in specially arranged quarters. There are facilities in the building for storing and displaying newspaper files, pamphlets and manuscripts.

Last year, it has been learned, an excellent collection of books was made for the purchasing of books and periodicals, thus Duke university really has the importance of academic progress as well as physical.

The beauty of the building with its massive gray towers, built from stone taken from the university's own quarry is unexcelled throughout the campuses of any other southern university. The architecture of the library is of a pure gothic type. It is so situated that one can easily reach it at any time from the campus.

### FRESHMAN CLASS UNDER- GOES PRODUCTION WEEK

Continued from Page One  
content with the second year; you must excel. This may seem to you to be a hard gospel I am pronouncing to you. It is, and if you accept it in time, it will be uplifting." President Few said further, "Let education produce men of ideas and power, and let democracy realize that it must come to exist alongside of civilization or perish from the earth." He urged them to find something during their academic experience in which they can become deeply interested and in the process become its master. Dean W. H. Wagnaman addressed the newcomers Thursday and on Saturday night, Dr. H. L. Flowers spoke-up the past and future of the University. Saturday morning Dr. A. S. Pease gave a short health talk, following which Dr. Holland Hall lectured on "Hints on Study Habits."

Saturday afternoon an exhibition football game by the varsity squad was given the freshmen in the stadium.

Throughout the entire week, the cadet members of the Y. W. C. A. assisted the school officials in administering the orientation program. They rendered services by meeting trains and buses, conducting information bureaus, assisting the professors in giving examinations, and furnishing a club room in the Union for the freshmen's entertainment.

## VIRGINIA WILL BRING HEAVY SCORING TEAM

Continued on page five  
assistant to Coach Abel, former All-American tackle at Colgate, who went to Virginia last season after coaching at Colgate, Sewanee, V. M. I., and Mississippi A. and M.

Next Saturday will be the first time that these two schools have met since Trinity College became Duke university. However, three great games were played back in 1890-92, when the teams met each year to determine the championship of the south. Duke won only one of these engagements, but has high hopes of balancing any old scores in the coming game.

### FORMER STARS OF DIAMOND MANAGE SUCCESSFUL AS PROS

Continued from page five  
Nick Warren, captain last year, declined an attractive offer from a Piedmont league team to assume the duties of coach at Rutherford college. At present he is busily occupied with the grid team, but it is expected that he will also take over the baseball squad when the time comes. The experience and knowledge which he will gain in this capacity won't do him a bit of harm.

Hawkins is planning to hook up with Charlotte, a Sally league team, next year, while Dean turned down an offer from Washington to go into business.

Of course, credit for this unparalleled showing should go entirely to Coach Combs, one of the immortals of the diamond, who taught these men everything they know about the national game, and who is even now planning to have full practice for next year's team, providing that the field can be played in playing condition before the advent of cold weather. Despite the lack of practice, the entire varsity line-up, no other successful team is confidently expected from the veteran who has worked such wonders in the past.
