Delta Delta Delta Reception Held Friday

Delta Delta Delta gave its installation reception Friday evening from 8:30 until 1:00 o'clock in the east campus Union. The three large rooms of the Union in which the guests were received were decorated with autumn flowers, palms and ferns. The guests, numbering around five hundred, were received by Miss Mary Grace Wilson, Mrs. Clarence Penherton, Miss Pearl B. Bonstead, Mrs. Elizabeth Hoese, Mrs. Troy Martin Shover, Mrs. Zebulon Vance, and Miss Margaret Bledsoe. Mrs. James Cannon and Mrs. James Ormond presided at the punch tables, while the refreshments were served by a large number of Delta Delta Delta from nearby chapters were present at this lively affair.

Music was furnished by the freshman class orchestra.

Kappa Sigma Girls Informal Dance

On Wednesday evening the Eta Prime chapter of Kappa Sigma fraternity entertained at an informal dance. The ballroom of the west campus Union was attractively decorated with chrysanthemums and autumn leaves representing the colors of the fraternity—maroon, green and white. The music was ably supplied by Clyde Byrd and his orchestra, and delicious refreshments were served. The chaperons were Mrs. Benjamin Duke, Mrs. Clarence Penherton, and Mr. and Mrs. Alan K. Manchester.

Alpha Kappa Psi Issues Invitations

Delta Eta chapter has issued the following invitations:

Beta Eta of Alpha Kappa Psi requests the pleasure of your company Saturday evening, the fourteenth of November, at the Union Hall West Campus 8:30-11:30.

ARNOLD SPONSORS MOVE FOR RADIO IN INFIRMARY

Dean D. M. Arnold is sponsoring a campaign for the purchase of a radio for the use of students in the infirmary, according to an announcement made recently from his office.

Mr. Arnold is seeking the co-operation of various organizations on the campus, such as all social fraternities, publicans, the Y. M. C. A., Y. W. C. A., and other similar student groups. If all organizations of this type will contribute a small amount, even if it is not more than one dollar, the purchase of the radio will be assured. At the present time a radio set is in use in the infirmary, until such time as the students replace it with one of their own.

Alumnae Visitors on Campus This Week

Among the visitors on the campus during the week were: Mrs. Elizabeth Williams, of Charlotte; Miss Edith Parker, of Gastonia; Mrs. Lois Akers Crumpler, of Hanesboro Rapids; Miss Hal Grimes, of Lexington; and Miss Mary Brown, of Raleigh.

Tri-Delta Entertains With Banquet Saturday

The installation of Alpha Omicron chapter of Delta Delta Delta was celebrated Saturday evening in a beautifully appointed banquet given at the Hope Valley Country Club. There were forty-seven guests present. These included the three installing officers, Mrs. Pearl Bonstead, Mrs. Pay Martin Shover, Mrs. Elizabeth Hoese. The tables were decorated with attractively arranged baskets of fall flowers and candles in the fraternity colors of silver, gold and blue. The tables were arranged in the form of a Delta around which were seated the three installing officers, the visiting Tri-Deltas, the newly installed members and the pledges of the local chapter. After dinner, the president, Mrs. Margaret Bledsoe, welcomed the visiting Tri-Deltas and introduced the installing officers. The main feature of the evening was the talks by Miss Bonstead in which she presented the chapter to Alpha Omicron chapter.

Graduate Students Entertain With Tea

The graduate students of the French department entertained with an important tea from three till five on Sunday afternoon in Basset house. The guests invited were members of the faculty in the French department and also in other departments. The hostesses for the affair were: Miss Laura Martin Jarmon, Miss Mary Kirkland, Miss Lucy Gault, Miss Mildred Dellart, Miss Elizabeth Clark, Miss Hazel Black, Miss Mary Walker, and Miss Anna K. Moses. Tea and sandwiches were served the guests.

Alpha Delta Pi Pledges to Entertain

Invitations reading as follows have been received: Alpha Delta Pi Pledges Forest Hills Country Club Wednesday, November eleven Informal 7:00-10:00.

Second Pan-Hellenic Dance Held Saturday

The Pan-Hellenic council entertained with the second dance of the season on Saturday night from 9 until 12 o'clock in the east campus gymnasium. Chaperons for the affair were: Dr. Alice Baldwin, Miss Elizabeth Anderson, Mrs. Clarence Penherton, and Miss Mary Grace Wilson. There were three break-dances, the second which was for the members of the Pan-Hellenic council and their dates. The third break-dance was for Omicron Delta Kappa members and their dates. Music was furnished by Jolly Lettvin and his University Club orchestra. The council will sponsor their next dance on December 11 and 12.

Mrs. Penherton Entertains Week-End Guest

Miss Frances Claypoole of St. Mary's school in Raleigh was a guest of Mrs. Clarence Penherton over this past week-end.

Sigma Nu Plans Installation Dance

Gammas of Sigma Nu Fraternity request the pleasure of your company at the Installation Dance on Friday evening, the twentieth of November at ten o'clock in the east campus Union, West Campus.

Delta Sigma Phi Dance Saturday

Alpha Omega Chapter of Delta Sigma Phi Fraternity requests the honor of your presence at its annual Pledge Dance Saturday evening, November 14th Women's Union, Duke University Formal 8:00-11:00.

DUKE STUDENTS HURT SLIGHTLY IN ACCIDENT

On last Sunday afternoon six persons, four of them Duke students, were slightly injured as the car of Carlisle Norwood collided with that of E. V. Hoffer, 1209 Eva street, Durham.

All six were taken to hospitals but three of them were discharged immediately. The other three victims were allowed to leave on Monday.

Those Duke students injured were Carlisle Norwood, J. C. Schaeffer, Elaine Foster, Ruth Davis.

The two Duke co-eds and Mr. and Mrs. Hoffer were taken to Watts hospital. Norwood and Schaeffer were taken to Duke hospital.

The car driven by Mr. Hoffer collided with one owned by Norwood and driven by Schaeffer and occupied by the other Duke students. Both autos were badly damaged.

WOMEN'S GLEE CLUB TO PRESENT FIRST RECITAL

The Women's Glee club will present its first monthly recital in the Union east campus from eight until nine o'clock on Tuesday, November 17. The affair was planned for November 6, but was postponed. Following the music hour, the Men's Glee club will be guests of the girls at a reception to be held in the banquet hall of the east campus Union.

This event marks the first of a series of concerts to be given by the Women's Glee club. A quartet will give "In the Time of Roses," "Mighty Lake a Rose" and Beebe's composition, "Over Hill, Over Dale." Among the selections to be given by the chorus are "Cognitive," "Birdland Symphony," Gounod's "Lullaby," "From Jocelyn," "Trees" and Beethoven's "Spring Song." All the girls are invited to attend the musicals.

FRESHMAN CLASS HEARS THOMPSON IN CLASS MEETING

Virginia Speaker Urges Fresh to Overcome All Tendencies Confronting Modern Youth

SPEECH VERY IMPRESSIVE

Thompson Opens Series of Week-End Lectures to Campus Groups With Address to Fresh

Dr. Taliaferro Thompson, of Richmond, Va., was the speaker at the regular meeting of the freshman class, held at Page auditorium on Saturday morning, November 12.

The meeting was opened by Dean Wannamaker, who introduced the speaker. Dr. Thompson discussed a grave danger confronting all college students—that of yielding to temptation. He pointed out that this was one of the most tragic known to mankind, and one of the hardest to combat.

The most subtle approach of temptation, Dr. Thompson, continued, lies in the phrase, "just this once." Every man is tempted to yield just once to a wrong thing, and after it is done, he can then go on as before. Dr. Thompson said that when a deed is done, however it is registered on the brain and on the nervous system, and eventually tends to become a habit.

The speaker stated that there was no way to escape temptation, but he urged every man to fight against it with all his strength. Temptation, Dr. Thompson ended by saying, was to be fought against in the manner that nations fight one another, giving all their strength and effort, as it was the strongest struggle with which man had to combat.

STUDENT LIFE IS TOPIC OF TALK AT CO-ED MEET

Dr. Lanning Presents Contrast Between University Students in South America and United States

An interesting contrast of student life in the United States and in South America was the theme of a talk made by Dr. Lanning of the history department at the regular monthly assembly of the women's college Thursday, November 5. Dr. Lanning, who spent the past year in South America in historical research, presented an able discussion of the university student in South America. He showed how enthusiastically the university men there respond to public questions. Probably as a result of this they have furnished the majority of the leaders in past revolutions. In direct contrast to this, the leader pointed out, is the narrow viewpoint of students in the United States. Their interests, he declared, are chiefly confined to football, fraternities, and, at Duke, the arrival of the bus from the east campus.

CONSTITUTIONAL STUDY STARTED BY LAW DEPT.

The Department of legislative research and drafting of the Duke law school has undertaken a study of the constitutional provisions relating to county and municipal government. The purpose of this survey is to assemble such information as may be useful to the Constitutional commission when framing such changes as it may see fit to propose with respect to these special subjects.

This work has been started at the request of Chief Justice Stacy, chairman of the constitutional revision commission of North Carolina, who sees the need of reestablishment of such a procedure from those actively engaged in special study. The law schools at the University of North Carolina and at Wake Forest are also making special studies on subjects for the use of the Constitutional revision commission.

INTERESTING ARTICLE PUBLISHED BY LONDON

Discusses Coffee Growing in Haiti, Porto Rica, Jamaica, and Cuba

Professor Charles R. Landon, of the department of economics and political science, has recently published an interesting article in the October number of *The Bulletin of the Geographical Society of Philadelphia*. Dr. Landon's subject is "Coffee Growing in the Caribbean Countries." Among the islands producing coffee are Haiti, Porto Rica, Jamaica and Cuba. Coffee is also largely grown in the various Central American countries and in Colombia and Venezuela. Most of the Caribbean coffee are marketed in Europe, although Colombia and Venezuela market most of their coffee in the United States. Dr. Landon describes in detail methods of production in several of the principal coffee growing countries in the Caribbean region.

HOLLAND NAMED HEAD OF EDUCATIONAL GROUP

Dr. Holland Holton of Duke University was elected president of the North Central District Teachers' association as the sixth annual convention came to a close in Durham on Saturday. More than 1,600 teachers attended.

Dr. Paul Monroe, head of the school of international relations at Columbia university teachers' college, delivered the principal address. He spoke on "International Unity Through Education," and urged his listeners to contribute towards bringing about world co-operation in educational matters.

Resolutions of importance were adopted in regard to the control of local school matters. The convention viewed with alarm the centralization of power over school administration in the hands of an extra-constitutional body appointed by the governor, the state board of education, stating that such a move was in violation of local self-government, and expressing the desire for autonomy in local school matters.

FRESH GIRLS VOTE FOR SECOND CLOSED NIGHT

The freshman women, in their regular class meeting last week, voted to have an additional closed night each week. Due to the need for more time to study Thursday night will be closed as well as Monday night of each week. This is merely an experiment, and a second vote will be taken in a few weeks which will definitely settle the matter.

German Professor Has Adventures In Germany

Presents Interesting Account of Visit to Europe This Summer; Discusses Literary Records of Goethe and Schiller As Well As Modern Politics and Conditions

During a large part of the time last summer, Dr. Clement Vollmer, professor of German at Duke, and Mrs. Vollmer were visiting in Germany, France, and Holland. The work pursued there were studies in the literary efforts of Goethe and Schiller. The best records of the two famed writers are to be found in the Goethe and Schiller Archives in Weimar.

In these collections are to be found a large percentage of all the original manuscripts pertaining to these men of letters. It was the purpose of the Duke professor to investigate the relationship existing between the classic writers of Germany and contemporary writers on the American continent in the early part of the nineteenth century. For this information he examined in detail the correspondence of Goethe and Schiller with Americans, and the outcome of his study was that there was a friendly attitude existing between these two schools of writers.

Dr. Vollmer related many interesting sidelights relative to the city of Weimar and the German people as a whole. Weimar, a small city, comparable in size to Durham, is a wide-awake and growing center. Among other achievements of note is a municipal swimming pool. Not far from Weimar, Dr. Vollmer visited the great forest where specialisation in the art of the glenking is practiced. Here lancers are worked out to improve horses for carriages, opera glasses, telescopes, and astronomical instruments. The first of scientific experiments have been concentrating of late on a new type of illumination whereby an entire city is lighted as brilliantly as in mid-day.

The German people are preparing to celebrate the birth of their beloved Wilhelm, next year. It is a celebration which will compare to America's Washington celebration and will be conducted on a large scale.

ENGINEERING EXCERPTS

An extensor of the micrometer type has been added to the equipment of the strength of materials laboratory. This instrument is used by James Rogers in the preparation of stress-strain diagrams of wrought iron, cold rolled steel, structural steel, brass, and other metals.

It has been necessary to duplicate most of the equipment used for the examination of bituminous materials because of increase in enrollment.

Professor W. J. Dana, in charge of experimental engineering at State college, was a visitor of the engineering department recently. Professor Dana is associated with Professor Bird on the committee which administers the code of engineering practice in this state.

The engineering laboratory has been forced to move to larger quarters due to the purchase of many new and rare volumes. Besides containing a large number of up to date periodicals, the library has a complete set of the Proceedings of the American Society of Mechanical Engineers dating from 1874. The library is located in the Ashbury building.

The engineering department, after making detailed measurements of the two bridges of the Southern Railway over the underpass between the two campuses, has been engaged in making drawings of the bridges.

The civil engineering students have recently completed an extensive survey of portions of the two campuses. This survey has served to provide sufficient data for the preparation of a contour map of the surveyed sections. This advanced surveying course has so been advanced by the department that the students will materially benefit by the experience secured in the field. Prof. W. H. Hall is directing this work.

Prof. Hall attended a conference of the North Carolina section of the American Water Works association held in Greensboro Monday and Tuesday of this week.

STUDENT HEALTH GOOD, SAYS INFIRMARY REPORT

The health of the students of Duke, as shown by records of the infirmary, is very good. Most of the recent ailments have been colds and minor cases of influenza. A number of slight injuries have been incurred, but none of a serious nature. Jack Davitt and Nicholas Perreux are at present laid up with injuries received in freshman football, but should both be all right again soon.

Although there were a great many influenza upsets during the first few weeks of school, these have decreased.

Past estimates show that October and November are much quieter months in the infirmary than September. Although a few students out of a large student body such as Duke's are necessarily admitted to the infirmary from time to time, general health conditions about the school may be said to be very satisfactory.

Students are strongly urged to make use of the facilities offered by the infirmary. It is located two wings to the right of the medical school, on the second floor from the ground, and Dr. Speed is there daily at 10 a. m. and 5 p. m. for consultation.

THIRTEEN LETTERS ARE AWARDED TO FEMALES

Letters were awarded and announcements were made concerning fall sports at the women's athletic association meeting held on Thursday, October 29. The fall field day was announced for Friday, December 4.

The officers and heads of fall sports were introduced to the association. They are: president, Mary Langston; vice-president, Marjorie Glasgow; secretary, Florence Moss; treasurer, Margaret Parsons; head of tennis, Frances Davis; head of hockey, Ruth Knowles; and head of swimming, Mary Gould Chappel.

Sweeteners with letters, awarded only to members of the Junior class who have gained the most points by participation in sports, went to: Jean Manget, Margaret Parsons, Mary Langston, Frances Davis, Florence Moss, and Corolla Morris.

Letters were awarded to Virginia Sawyer, Betty Wheeler, Jean Manget, Nedra Jones, Lydia Banks, Marjorie Glasgow, Margaret Parsons, Mary Langston, Emily Vaughn, Mary Wadkins, Mary Purdy, Corolla Morris, and Mary Gould Chappel. Class numerals were awarded to those who had participated in class sports.

Cord Honored

According to a recent announcement made by the Carnegie Hero Fund commission, Miss Ruth Irwin Jenkins, a student in the Duke university graduate school, was named with forty-four others as the recipient of a bronze medal for an act of heroism.

Miss Jenkins, whose home is in Louisville, Ky., was one of four persons in that state to receive awards. On August 8, 1929, she rescued a man who was drowning in Turner's Lake, near Omer, Ky. At the time, she was acting as swimming instructor and life guard at a girls' camp there.

COURTING COUPLES CAN COO 'TIL 11 SATURDAYS

College Board Approves Student Council Action After Many Heart-rending Pleas

At a meeting of the college board held on October 27 a recommendation was passed in support of the action of the student council to allow the girls' dormitories to be open until eleven o'clock on Saturday nights. There has been sentiment in favor of this privilege for some time but no action had been taken until this meeting. The new rule goes into effect immediately with the understanding that if the girls do not cooperate by being in promptly and observing quiet at 11:15 it will be taken away and the old rule reinstated.

It was also decided to have receptacles placed at strategic points on the east campus in the hope that students will put papers and paper cups and other trash in them instead of throwing it out on the campus.

Other recommendations were to have an official bulletin board placed in the postoffice for all student government, Y. W. C. A., faculty and other official notices, and to request that composition flooring be placed in the corridors in order to decrease the noise.

The college board is composed of the presidents of various organizations of the women's college, the dean of women, the social director, the dietitian, and the college nurse. It is not empowered to enact or administer regulations, but rather to hold discussions and to make recommendations to the administration or to any of the student organizations whenever this is deemed advisable.

DUKE REPRESENTATIVE ATTENDS Y. W. C. A. MEET

Mrs. Hazel Smith went to New York Monday, October 25, to attend a conference held at Sarah Lawrence college in Bronxville under the auspices of the national student council of the Young Women's Christian Association.

The meeting was held for the purpose of discussing the reorganization of the student branch of the Y. W. C. A. and its relation to the national branch. The conference was composed of representative faculty members from many colleges.

MISS JACOBS IS ADDED TO GYMNASIUM STAFF

Miss Kathryn Jacobs, of Waltham, Massachusetts, a graduate of the Bowdoin School of Physical Education, has become a member of the physical education department of the women's college. This brings the number of instructors up to four.

During the fall term, Miss Jacobs will be in charge of hockey. She is well qualified to coach this sport, since she has had much experience in the playing of the game, and is herself the holder of an official's badge.

"I liked Chesterfield right from the start"

"No, I don't know a blessed thing about how cigarettes are made. But, of course, I would want the tobacco to be PURE. And then I've heard that the blending is very important. I'd want that to be done just right."

"Then the paper. I don't like paper that you can taste—or smell when it's burning. I'd want that pure too."

"Another thing. I want to smoke whenever I feel like it—without worrying about smoking too many. So I want my cigarettes MILD."

"But the main thing, of course, is TASTE. I don't care for over-sweetened cigarettes. I much prefer those that are just sweet enough."

"Chesterfield seems to satisfy in every one of these ways. That is why I'd rather have a Chesterfield."

SMOKERS tire of too much sweetness in a cigarette, and they don't like rascals. For a steady diet, they want a cigarette like CHESTERFIELD—a mild and low smoke, free from any over-sweetness or any harshness or bitterness. That's why more and more smokers every day are changing to CHESTERFIELD. Good... they've got to be good.

INTERCEPTED PASS GIVES DEVILS CLOSE TILT

Duke Defeats Kentucky In Great Defensive Game

PAP HARTON STAR
Duke Tackle Grabs Wildcat
Single and Scores Lone
Touchdown

LANEY'S PUNTS FEATURE
Lane, Crawford, and Hyatt Star For
Devils While Kercheval Gains
For Wildcats

Two Duke linemen conspired to enable the Blue Devils to mark up a victory over Kentucky last Saturday when they recovered a Wildcat fumble in the third quarter and took the ball over for the only score of the game. Ellis Johnson dropped the ball on an attempted pass when tackled by Crawford, left end, and the oval was picked out of the air by Pap Harton, who ambled twenty six yards for a touchdown. Captain Brewer added only one point to his scoring record for the season when he made the place kick for the extra point.

The playing of the two Duke men, Crawford and Hyatt, and the punting of Nick Lane, who averaged thirty seven yards from the line of scrimmage on every boot, were the high lights of the game for the Blue Devils. Time after time Kercheval and the other Kentucky backs took the ball right down the field until it seemed certain that they must score, but every time the Duke defense stiffened, and they could not get the last few yards. Lane's punting was a great help in these goal line stands and he put the ball out of danger every time. Shipkey's kick was wrenched by other Hyatt or Crawford every time he tried to run the ball but their fallback, Kercheval, was able to gain at will as long as the ball was in midfield. Brewer was as usual the main ground-gainer for the Devils and he averaged three yards per try in his ten times at bat. Atkins and Seale, Kentucky's 254 pound center, had a private deal on the field and each had his hands full in taking care of the other.

The Duke team gave an excellent exhibition of a defensive game and if they

(Continued on Page Six)

Devils Willing to Meet Foe in Charity Game—Wade

Duke university is willing to do its share for charity, and the Blue Devil gridiron force will not hesitate to engage in a game for the unemployed, if a try can be arranged that will make money. It would be impractical to attempt to stage a charity tilt here, as home games have not netted a profit this year.

Talking It Over By JOE SKINNER

Looks as if we were going to have a new sport on the campus from now on. A name hasn't been decided on just yet, and we are open for suggestions. The best that has turned up so far is "Check your coat and then try to get it back." That's a long name for a sport, but it's pretty well just the same. One of the redeeming features of the game is that it doesn't require long fatiguing practices. All a candidate for the game has to do is attend a Pro-Fatigue check his coat in the checkroom and then forget about the game until the dance is over. The last note of the orchestra is the signal for the start of this intriguing sport, whereupon all check-holders make a dash for the checkroom doorway which normally holds two people, but which can be counted on to accommodate fifteen or twenty in emergencies. The point of the game, if you haven't already guessed it, is to see who can get his coat back first, and the several hundred boys trying at the same time to do this very simple thing make the game very interesting for both the participants and the spectators. There are no rules in the game and nothing is barred, so it is very easy to remember what to do and it is lots of fun for all. The game is not over even when a man gets his coat, it

FROSH RESERVES TRIM GOLDSBORO FOR ANOTHER WIN

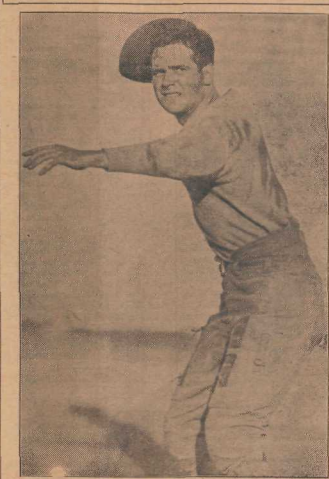

Wagoner Stars For the Famous
"All-Americans" With Two
Long Runs

SHOW POWERFUL LINE
First Defeat For Goldsboro on Their
Home Field in Three
Years

Duke's frosh reserves, better known as the "All-Americans," won their second game within three days last Thursday by downing the strong Goldsboro high school eleven 14-0 at Goldsboro. It was Goldsboro's first defeat of the season, and their first setback on their home field in three years. Coach Walter's "All-Americans" drew blood first by scoring in the opening period, after an exchange of puns gave the Dukemans the ball in a mid-field. It took Wagoner, Duke back, just two side stepping, twisting, and nice ball tating trips to place the platoon on the nine yard strip. From there he skirted end for the first tally of the game, with Seaborn running center for the extra point. The Earthquakes counted their touchdown in the third stanza after a penalty and nicely executed pass gave them the ball on the eleven yard line. Batson then started a side, sweeping end run, reversed his field, and crossed the goal line standing up. The opening of the final period found the Walte eleven eager to score again and in the immediately began a sustained drive down the field to place the oval on the thirty yard line. Wagoner passed to Higgins for twenty yards and then this same Wagoner skirted his right end again for the Devil's second score of the game. Again Seaborn, running the center of the line for the extra point. The only threat the "Quake eleven offered other than their scoring punch, was in the second stanza, after a series of completed passes gave them the ball on the four yard line, but the "All-Americans" line ran true to its name and refused to give, as they held their opponents for down. Peale and Batson performed best.

NICK LANE
Devil backback, who made a spark in the Duke machine and who played brilliant ball against Kentucky.

WARREN COACHES SQUAD INTO FORM

Men Are Being Drilled on Fundamentals of Boxing and Wrestling Game

That the opposition to collegiate boxing and wrestling will gradually disappear entirely, is the opinion of Ad Warren, colorful coach of the ring and mat sports at Duke.

Declaring, "The possibilities of exciting injuries in boxing in college circles have been reduced by the use of three-minute rounds and of ten-second gloves." Coach Warren described the benefits of this type of athletics.

"I have never seen a boy hurt seriously," he added, "College boxing favors a scientific campaign rather than the 'rock 'em and sock 'em' attack of street brawls."

Daily progress is being made by candidates for Warren's squads. The punch slingers are majoring in the development of a left jab, and the wrestlers are

Duke Harriers Oppose State Runners Saturday

North Carolina State will send her freshman and varsity cross country teams here to engage the Blue Devils in a dual meet on Saturday. The races will probably be run between the halves of the football game. The Blue Harriers are heavy favorites to win, but the varsity will encounter strong opposition.

CAROLINA RACERS TRIUMPH AGAINST DEVIL HARRIERS

Duke Runners Well Against Fine
Tar Heel Team in Losing
22-35

BRAY FINISHES THIRD
Freshmen Remains Undefeated in Win-
ning From Tar Baby Cross-
Country Team Saturday

Carolina defeated Duke in cross country last Saturday, but, judging, the Blue Devils gained a lot of credit for it took one of the greatest teams in the south to gain a 22-35 victory. The time for the difficult course of five miles was 27 minutes and 29 seconds, and the first three men all bettered the conference winner's time over the same hills last year. Jensen and Hubbard, both of Carolina, finished in first and second places, respectively, with Jerry Bray of Duke crossing the line 24 seconds behind the winner. Bray was well as expected, but Nisbald deserves special credit for his splendid race in coming in sixth. "Red" has been plugging away for the last six seasons placing well down the list in trials, but Saturday he was the second Duke man to cross the tape.

Carolina's victory would have been much more convincing had their team been a better looking bunch. For the first five men were the Tar Heel colors, but Corde, their fifth runner, came in ninth, and this helped to augment their score.

The freshmen were expected to win, and who didn't, as Ed Reichman, the frosh star, lost a heartbreaking finishing sprint to Williamson of Carolina who just managed to win by a couple of yards. Reichman, who has continued to improve steadily, came in for an easy third and Heritage, also of Duke, was not far behind for fifth position.

The meet as a whole established two

BIG FIVE CONFEST WITH STATE PACK ON TAP FOR WEEK

Improved State Team Comes To
Durham For Game With
Devils

HELD CAROLINA CLOSE
Tar Heels Play Davidson in Other
State Conference Tilt at
Chapel Hill

Duke university's Blue Devils, fresh from victory over the Kentucky Wildcats, will match brains and brawn in a contest with the Wolfpack of N. C. State this Saturday in Duke stadium. The struggle will offer local football fans an excellent opportunity to also up prospects for the annual battle with Carolina on the following Saturday. The 1936 season officially defeated State 13-12/19/36

Coach Clipper Smith's outfit captured their first contest since game last Saturday, downing the Mississippi Aggies 6-0. Both teams used straight football during the majority of the fray with the Pack having a slight advantage. However, the Maroons underwent a dazzling aerial attack toward the closing minutes of the game and threatened to score on a six-man Wolfpack forward wall. To day, State has shown only occasional glances of real power and has undergone, a rather lean season, losing four games and winning three. In the line, Clayton Charlie Cobb and Red Jarry will undoubtedly cause trouble for the Blue Devils, while Jeffrey and Conkley may exhibit some flashy ball-carrying. Gleason, State right end and star punter, will bear considerable watching. Although the State team is customarily weak in the line, unexpected strength as in the recent game with the Tar Heels.

Local fans will have their third of two state conference tilts when the weekend, as Davidson takes on Carolina while Duke resumes its struggle toward the crest of the Big Five championship. Tar Heels are favored to average six or seven 7-0 defeats by the Wildcats, but a close score is predicted.

At present Duke is being given odds to whip the Wolfpack, but the battle should prove very interesting. With these two games off the slate, the field of action will be cleared for the Carolina-Duke go on the following Saturday.

NET MEN DEFEAT RALEIGH QUINTET

Welch, Peake, and Martin Win Singles Matches to Win Tournament 3-2

The Duke varsity journeyed to Raleigh last Saturday to defeat the Raleigh Country Club, 3-2, in their first match of this season. Several of the matches were fought on account of darkness, but the Devil athletes gathered around the lights in the singles to get the victory. Although very early in the season, the team showed up fairly well and should develop considerably before they play any inter-collegiate matches.

Welch of Duke defeated Harris of Raleigh 8-4, 6-4, to get the first singles match. Peake and Martin followed suit and won their matches over Lynch and Green of the Raleigh team. The score of the first match was 8-6, 6-4, while Martin won 7-5, 6-4. Hardy of Duke led 1-0 in the second match, but was defeated 1-2. Stragham in a 6-4, 7-5 match. Bridges, who came out on the short end of a 4-7, 8-4 match against Fletcher of the capital city.

Peake and Welch were playing against Lynch and Martin and the score was 6-5, 7-7, when the match was called because of darkness. Hardy and Martin failed to stop their match with Stragham and Fletcher when the score was 3-4, 2-4.

CAROLINA RACERS TRIUMPH AGAINST DEVIL HARBERS

(Continued From Page Five)

For a deficiency. Coach Taylor said the grade really fine varsity from many a car which appeared relatively poor early in the season and the freshmen team will be the best squad in the state and will be in line for titular honors later. Barnes and Erbeson were the mainstays of the fresh two far and have been running one two in all their meets.

DR. W. T. THOMPSON SPEAKS IN VESPER SERVICES SUNDAY

Presents Impressive Talk Regarding Quest of Entire World Toward Christ

ELLWOOD TO SPEAK NEXT

Dr. Thompson showed that the entire world is restless and in quest of something.

Dr. W. T. Thompson, of the Union Theological Seminary, Richmond, spoke at the weekly vesper service, in York chapel, Sunday afternoon, November 8. He spoke of the quest, on which the whole world is, and of Jesus Christ, whom he showed to be the end of the quest.

Dr. Thompson showed that the entire world is restless and in quest of something. For his text the speaker took the words of the man in the New Testament, "for we were dead in sin."

Dr. Thompson affirmed that the Christ characterized this was real, and not an imaginary. He spoke of the many men, giving as one example Phillips Brooks, who has had intimate acquaintance and friendships with Him, as proof of His reality.

Robert M. Hardie was the leader for the service, and the scripture was read by Miss Margaret Harell.

The speaker at the next vesper service will be Dr. Charles Ellwood.

Exhibition of Paintings Is Opened On Co-Ed Campus

Portrayals of Negro Life by North Carolina Woman Are Placed on Exhibition in Woman's Library

Last night an exhibition of paintings was opened in the library of the woman's college, featuring Mrs. Marshall Williams' paintings of Negro life.

Mrs. Williams is the former Mary Lytle Hicks, of Faison, Duplin County, North Carolina. Her birth in 1865 and the following years, gave the future artist a fine opportunity to understand the Negro plantation scenes and types.

Today the exhibit was open to the general public.

Members of De Molay at Duke to Meet Tomorrow

A meeting of all students who are members of the Order of De Molay and who are interested in the formation of a chapter in Duke is called for Thursday evening, November 12, at 7:30, in room 62, Page auditorium. It will be a short meeting, but all De Molay members should find it beneficial to be present.

TWO NEW BOOKS ARE RELEASED BY UNIVERSITY PRESS

Ormand of Duke and Wertenbaker of Virginia Present Important Volumes

OTHERS BEING PRINTED

Book on Trade by International Traveler Will Be Published

Two new books directly concerned with North Carolina and Virginia have just been released from the press of Duke University. They are "The Country Church in North Carolina," by Prof. J. M. Ormand, of Duke university, and "Norfolk: Norfolk Southern Port," by Thomas Wertenbaker. These works will bring the number of books published by the Duke press to fifty-two.

"The Country Church in North Carolina," explains the lack of sufficient financial support and the inadequacy of the proper facilities essential to a progressive program in the rural church for the white people of North Carolina. The solution of these problems lies in organized consolidation and reorganization.

"Norfolk: Norfolk Southern Port" deals largely with the early history of that interesting city. The first mention of the tobacco trade, Norfolk's significance in the Revolutionary war, and the West Indian trade are all discussed. The city's participation in the formation of the constitution, as well as the tragic days of the Civil war and its aftermath, are vividly described.

These publications are the predecessors of other important works soon to follow. Chiefly among them is "Travelling Trade in Millon Miles," by James A. Thomas of New York, whose previous book, "A Flower Country Merchant in the Orient," attracted wide attention.

Mr. Thomas is well equipped to write on his subject as he has travelled extensively through the Orient in the interest of the tobacco industry, and for many years was head of the British-American Tobacco company in China. The book will contain many of his interesting and unique experiences in the Orient. It is also interesting to know that Mr. Thomas was a close business associate of the late James B. Duke.

WILL APPEAR IN CONCERT PROGRAM

Miss Doris Kenyon, of former movie fame, will appear here on November 29 in a joint concert with Alfredo San-Malo, violinist.

Kenyon And San-Malo To Appear At Next Concert

Famous Movie Star and Rising Violinist Will Feature Second of Concert Series to Be Presented Here on November Twenty-Nine

The second of the series of concerts sponsored by Duke university presenting outstanding musical talent will be given Friday evening, Nov. 26, in Page auditorium. The soprano is coming to the concert will be Doris Kenyon, soprano, and San-Malo, violinist. Their appearance in Durham will be in the form of a joint recital.

The talents of the two performers differ widely. Miss Kenyon is well known for her many successes in motion picture productions. Mr. San-Malo, a violinist who has gained his reputation both in his native country, Russia, and in the United States, has been called an aristocrat of the platform.

Both artists have recently been abroad. San-Malo can boast of an old French Huguenot ancestry, and since his mother was of Spanish descent, his interpretation of music is an interesting blend of two different cultures.

His education was received in France and Germany. After being awarded the coveted Premier Prix from the Paris Conservatory of music at the early age of sixteen, he spent the next ten years appearing in many continental concerts.

An interesting sidelight on his recent career has been his visits with Mussolini, the Italian premier. San-Malo was presented to the famous Italian both as a virtuoso and as a diplomat. He is the nephew of the present president of his native republic, and head of the Labor party there.

Miss Kenyon's successes in the musical world have been a complete surprise to musical critics. The movie star has retained in her concert appearance her engaging personality which has made her popular on the screen; and has also offered a soprano voice, showing both natural voice and painstaking preparation.

Her appearance at Duke will be noteworthy both on account of her voice and of the various costumes which she will appear in her "Lyric Silhouettes." The soprano is coming to Durham after an extensive European tour, where both conservative and enthusiastic audiences were lavish in their applause. Miss Kenyon is probably being looked forward to as much as any of the artists appearing at Duke on the fall musical concert.

Miss Kenyon, the main performer on the program, is the former wife of the late movie star, Milton Sills, and, it is said, still prefers the name of Mrs. Milton Sills.

VERY INTERESTING LECTURE GIVEN BY BOOTH LAST NIGHT

Eminent Authority on Central European and Balkan Questions Speaks

GOOD AUDIENCE ATTENDS

Talk Delivered in Informal and Engaging Manner; Displays Thorough Knowledge of Subject

Speaking before a large group of students and teachers, C. Douglas Booth, accepted authority on international affairs, last night presented a graphic and interesting record of present-day political and economic conditions throughout central Europe.

Mr. Booth, a resident of London, England, has been in this country for two weeks, and is making a tour of American universities, lecturing under the auspices of the various international relations clubs. Two years ago he was in the United States and spoke at more than fifty colleges under the auspices of the Carnegie endowment. A member of the Royal Institute of International Affairs in England, he often delivers lectures before that distinguished group, principally on topics related to the Balkans.

The talk presented last evening reflected Mr. Booth's thorough knowledge of the subject; although comparatively young, he has spent some time in the region under discussion, lately gathering material for a new book. The speaker's engaging personality and avoidance of all technical phraseology combined to produce an attentive and appreciative audience.

Among a vast array of interesting facts and figures, the following data stands out: the most serious obstacle to a satisfactory adjustment of present conditions in the Balkans is the opposition between France and Italy; Austria is so poor that she can never support herself in her present condition; aggressive political policy started by Italy with the advent of Fascism has borne results, especially in regard to Albania and the Adriatic region; Chamberlain was one of England's most stupid foreign ministers; it is unfortunate that the Austro-German customs union could not be consummated; the minority question in the Balkans cannot be settled by treaty revision, and possibly by re-configuration of governments; and finally, Carl is an excellent king.

Among a vast array of interesting facts and figures, the following data stands out: the most serious obstacle to a satisfactory adjustment of present conditions in the Balkans is the opposition between France and Italy; Austria is so poor that she can never support herself in her present condition; aggressive political policy started by Italy with the advent of Fascism has borne results, especially in regard to Albania and the Adriatic region; Chamberlain was one of England's most stupid foreign ministers; it is unfortunate that the Austro-German customs union could not be consummated; the minority question in the Balkans cannot be settled by treaty revision, and possibly by re-configuration of governments; and finally, Carl is an excellent king.

Among a vast array of interesting facts and figures, the following data stands out: the most serious obstacle to a satisfactory adjustment of present conditions in the Balkans is the opposition between France and Italy; Austria is so poor that she can never support herself in her present condition; aggressive political policy started by Italy with the advent of Fascism has borne results, especially in regard to Albania and the Adriatic region; Chamberlain was one of England's most stupid foreign ministers; it is unfortunate that the Austro-German customs union could not be consummated; the minority question in the Balkans cannot be settled by treaty revision, and possibly by re-configuration of governments; and finally, Carl is an excellent king.

Seventy Men Compose School Band This Session

The present Duke university band is composed of seventy men who will hold their positions throughout the school year, it has just been announced by Dr. J. E. Leftridge. This number was selected from a larger group numbering over a hundred men. The year's band is probably the best in the history of the school, and is ranked with the best bands in the South.

These winning places in the band, their instruments, and home towns, are as follows: Ben Weems, Souders, Korea, baritone horn; Harry Lingo, Charlotte, snare drum; Dark Smith, Durham, piccolo; Jimmy Booher, Bristol, Tennessee, cymbals; Henry Miller, Canadaigua, N. Y., pleo; Shelby Dale, Portsmouth, O., bass; W. P. Herndon, Greensboro, N. Y., piano; J. A. Farrington, Salisbury, concert; Troy Tharratt, Greenville, N. C., bass; R. T. Leslie, Durham, alto horn; W. G. Morse, Atkinson, Mass., clarinet; S. C. Sandell, Brockton, Mass., piano; E. C. Pratt, Wilmington-Salem, bass; H. M. Hampton, Ocala, Fla., cornet; Maxwell Johnson, Birmingham, Tenn., tuba; Charles Hicks, Charlotte, clarinet; R. H. Briggs, Taunton, Mass., trombone; R. P. Chalk, Clark, Ala., clarinet; J. B. Allard, Mountain Lakes, N. J., cornet; H. W. Payne, Wilmington, Ohio.

R. C. Crawford, Adams, O., alto; E. B. Crenshaw, Hills, Cornell, J. E. Gibson, Columbia, baritone horn; E. A. Palgren, Charlotte, clarinet; M. Greenek, Salem, N. J., trombone; C. C. Britton, Winston-Salem, N. C., piano; M. Hanger, Philadelphia, clarinet; A. E. Stanley, Greensboro, pleo; S. A. Chalk, Merced, Calif., cornet.

AT THE THEATRES

CAROLINA

Thursday-Saturday: "The Spirit of Notre Dame," starring Lew Ayers with the Four Horsemen and other Notre Dame players.

PARIS

Monday-Tuesday: "The Beloved Bachelor," with Paul Lucas, Dorothy Jordan, Vernon, N. Y., ally; J. R. McIntyre, Erie, Pa., ally; C. D. Beatty, Pittsburg, Pa., snare drum; Richard Barthelmess in "The Last Flight."

MILITARY

Monday-Tuesday: Marie Dressler and Polly Moran in "Polities." Wednesday-Tuesday: Jackie Cooper in "Slippy."

APTITUDE TESTS WILL BE GIVEN IN DECEMBER

Aptitude tests of a nation-wide scope are to be given for students seeking admission to any school of medicine, Dr. W. C. Davidson, dean of the Duke school of medicine, announced that these tests will be given here on December 11. No school will admit any student who has not taken the test.

The tests will be given under Professor F. C. Hall, of Duke, this year, and a number of premedical students are expected to be helpful in the selection of students.

DEER IS KILLED WHEN BOYS RETURN HOME

It was a cold windy night and the little car sped swiftly on its destination.

The four occupants were nearly asleep, with the exception of the driver, and the speed was terrific. Suddenly the little car shivered and shook as it came into contact with some soft or semi-solid object. Hearts flew to mouth as all thought of the poor soul out there in the cold when they had probably killed in their haste. The tiny but slow-moving, stopped, the pale, scared college boys piled out and ran back to see the gruesome remains. A long brown form lay there on the road, perfectly motionless, but just as they arrived the poor thing was torn and laid out for the green men to wiggle for several seconds, but the situation was remedied almost immediately as one by one they discovered that their victim was not a species of "homo sapiens" but, in all seriousness, a fine big buck, with eight points on its antlers.

The total weight of the deer was well over 200 pounds, and the weight of the edible flesh totaled 180 pounds. This meat is now being rapidly consumed at the boarding house where these boys eat their daily meals.

Incidentally, the novel husbandman was Bob Virella, T. R. Burns, Coach Person and Rev. Carter, Duke students.

VISITOR SPEAKS WITH BIBLE CLASS ON SUNDAY

Professor at Union Theological Seminary Delivers Address on Moral Standards

Dr. W. T. Taliferro, Professor of religious education in Union theological seminary, Richmond, was the speaker at the meeting of the Open Court Bible class in York chapel, Sunday morning, November 8. The message dealt with Moral Standards.

Dr. Thompson used several experiences with American soldiers during the last war as illustrations during his talk. It was shown that soldiers, students, travelers in foreign lands are often inclined to break loose from the moral bonds that they knew at home, and feel that morality is a changing order.

The speaker discussed four groups on the college campus. The first group, those that go with the crowd, it was stated, are worthless. The second group, that group which doesn't cheat, steal, or lie, because it fears punishment, is a menace. It was brought out that the third group, those that have convictions and live by them, is large, but should be much larger.

The fourth group, the real men, those who look to Christ as the guide, the example after which they model their lives, was said to be in need of great encouragement.

GERMAN FRATERNITY HOLDS REGULAR MEET

Delta Phi Alpha, National Honorary Organization, Hears Dr. Kiefer of Chemistry Department

Last Friday evening in Columbia hall, East Duke, a regular meeting of Delta Phi Alpha, national honorary German fraternity was held.

The chief speaker of the evening, Dr. Felix Kiefer, of the Duke chemistry department, gave the society an illustrative talk on German school life. As well as giving an excellent picture of German institutions of learning from grammar school up through Gynasium, he also compared the German system with the American.

Other speakers of the evening were: Mr. Newmyer, of the Duke medical school, and Mr. David Jaffe, Mr. Newmyer spoke on conditions in German when he was there and compared them with those of the present. Mr. Jaffe presented two readings on Baron Munchausen's Travels. At the termination of the regular program, round table discussion on present conditions in Germany was held.

Chi Delta Phi Will Hold Meet Thursday

Chi Delta Phi literary society will have a short but very important business meeting Thursday night, November 12, at seven o'clock in 201 Burnett house. It is very necessary that all members be present.

HICKMAN AND WADE TO ADDRESS BOYS' GROUP

Dr. Frank S. Hickman, of the school of religion and Coach Wallace Wade will be the principal speakers at the Y. M. C. A. older boys' conference to be held in Durham in December, according to an announcement by A. E. Henry, boys' work secretary to the Durham "Y" association. A large number of boys from all sections of the state will be in attendance at this meeting.

Dr. Hickman and Coach Wade will address the general sessions of the conference. Speakers for the group sessions will be: Dean F. F. Bradshaw, Dr. Ernest R. Groves, Rev. T. D. Collins, Dr. Mason Cross, Dr. Charles A. Elwood, Dean H. J. Herring, Dean Justin Miller, Quinton Holton, and Rev. Tom Wright and Rev. Harry F. Comer of Chapel Hill.

BAPTIST STUDENT UNION TO HOLD REGULAR MEET

The Duke Baptist Student union will hold its regular meeting Thursday evening at 7:30 in the East Duke building. Several important discussions will feature the program. The main feature of the program will be an address by Dr. Kenneth W. Clark of the School of Religion.

The Baptist Union is planning to bring the students of Duke into closer fellowship with the city churches. The results of the church in the college student's life will be the subject of Dr. Clark's address.

HOSPITAL CLAIMS HUGE ENDOWMENT

Largest Share of Duke Endowment Fund is Given to Hospital Unit

The largest share of the 1930 Duke endowment fund for construction projects went to the university hospital, according to statistics compiled for the year. The hospital received \$112,000 out of the \$376,000 provided for the year by the fund. Ten other building projects in the Carolinas were aided.

The magnitude of the Duke endowment for hospitals is shown by the fact that in 1930 \$1,064,472 was spent in North and South Carolina of which \$718,447 represented the assistance given hospitals in treating free patients; 103 hospitals, totalling a plant value of \$16,884,129 and serving 91,069 patients are now receiving assistance from the endowment. Of the \$1,064 patients, \$718,447 were full paying patients and 17,901 part paying patients and 27,138 free patients, for whose hospitals were paid \$1 per day by the Duke fund.

The ten other hospitals receiving aid beside the one on the university campus are: Albemarle hospital, Elizabeth City, \$75,000; Anson sanatorium, Wadesboro, \$50,000; Baker sanatorium, Lumberton, \$60,000; City Memorial hospital, Thomasville, \$10,000; Good Samaritan hospital, Charlotte, \$30,000; Jubilee hospital, Henderson, \$5,000; Laurens hospital, Mooreville, \$12,000; Randolph hospital, Ashboro, \$80,000; Conway hospital, Conway, S. C., \$200,000; Mullins hospital, Mullins, S. C., \$24,000.

DUKE MAN GIVEN EXTRA YEAR FOR RESEARCH WORK

Robert S. Smith, Formerly of Amherst, is Granted Amherst Memorial Fellowship

IS WORKING ON GULLS

Student Will Return to Duke in June to Receive His Doctorate Degree

The fellowship of Robert S. Smith, former graduate student at Duke University, has been extended for another school year, it has recently been announced. Mr. Smith, after completing his year for the A.B. and M.A. degrees at Amherst college, came to Duke as a fellow in the economics department.

At the close of his second year, Mr. Smith was granted the valuable Amherst Memorial fellowship to study in Spain. He is now doing research work, gathering such materials as he needs before writing his doctor's thesis on the Gull Merchant, a subject on which very little scientific work has been done in Spain, although in France, England, and Germany, the subject has been studied extensively. Mr. Smith has been conducting his research in public and private archives in Bilbao, where there is a special archive devoted to his particular subject; at Burgos, which was used as a model when the Gull was spreading; at Seville; at Barcelona, where the Merchant Gull is one of the oldest in all Europe; and at Perpignan, in France. He is utilizing records running back to the thirteenth century, much of which is written in Latin, and the remainder in Catalan.

Mr. Smith expects to finish his research and write his thesis in time to be a candidate for the doctor's degree at Duke in June.

Tab Collar Shirts

By

Erwin Coffee Shoppe

As usual, we are first with the new authentic styles.

The leaders of fashion are wearing tab collar shirts in British (multiple) stripes. A year from now men of the non-collegiate type will be wearing these smart shirts; we offer them now at

\$1.95

durham men's shop

111 West Main Street

The ideal place for a nice quiet luncheon with some friend; where one is not bothered by dining hall crowds or noise. We are located just off the Women's campus and make it our business to cater to Duke students.

Corner Buchanan Boulevard and Trinity Avenue

FRESH

nature's way

Camels are never parched or toasted!

FRESHNESS and flavor in a cigarette trace right back to natural moisture.

If you overheat or process tobacco so harshly as to dry out all natural moisture you drive out freshness and flavor too.

Camel never parches or toasts the fine Turkish and mild Domestic tobaccos it uses—they are naturally smooth, cool, mellow, with natural moisture retained.

That's why the Camel Humidor Pack proves such a blessing to Camel smokers—it brings them a fine cigarette fresh to start with, and fresh to smoke.

If you don't realize what natural moisture means in genuine freshness and flavor, switch to Camels and see.

Try this mild, slow-burning, throat-friendly favorite for just one day—then leave it, if you can!
