

# FINAL PRODUCTION OF DUKE PLAYERS PROVES A BIG HIT

"A Thousand Years Ago" Wins Approval of May-Day Audience

## PLAYERS TO BE LAUDED

Percy Maykay, Author of Play, Is Guest of Honor at Performance

Spectacular settings, satisfactory acting, beautiful make-up, and a carefully selected and well-timed music combined to make last Saturday night's production of "A Thousand Years Ago" the crowning achievement of the Duke Players' most successful season.

Before the eyes of Percy Maykay, the author, and a large and interested audience the Players succeeded in creating the illusion of a bit of the romantic and mysterious old China of a thousand years ago, and in maintaining that illusion, with few lapses, for the entire duration of the play.

First among this achievement must be given to Harry Wills, whose original settings for this production represent the finest piece of scenic design yet seen on the Duke stage. Percy Maykay, in expressing his complete satisfaction with the entire production at the end of the performance, stated that in his opinion the designs of Harry Wills are the most beautiful ever seen in the original New York production.

Equally important in creating this illusion was the finely executed lighting of Percy Maykay, who succeeded in using his spots and borders to bring out the most delicate lines and tinted shades of the setting.

This skillful blending of contrasting shades of light and color was in a large measure due to the delicate and expert use of the borders. Where the lighting was poorly done, as in the first act, was used merely a good light, and the work was skillfully developed, as in the shaded reds and blues of the scene in the first act, the artistic eye of the play was reached.

It is this to be acclimated that the production of the Duke Players will excel in scenery, lighting, and physical construction, and fall behind in the actual acting of the play.

Between these two branches of the theatre art was somewhat lessened in the production of "A Thousand Years Ago," but the performances, both the play and the acting, were still visible, but the performances of the entire cast from lead to extra did show toward placing the acting on a par with the physical make-up of the production.

A. T. West, as Alton, and Marshall Pritchett, as Gaid, formed an excellent contrast in their performances. Mr. West came with analytical precision the definite character of the oriental potentate. Mr. Pritchett, on the other hand, was a combination of combining widely differing human traits, shaded the weakness of the legend, and the character of the play, the royal prince, and produced a unified characterization fashioned with the delicate touch of an artist.

Turner Foster, as Copacabana, the leader of the wandering players, succeeded in evoking a true picture of the blustering pomp of the youthful good humor of his subject. His characterization lacked positive stamp, but showed a keen understanding of hard and intelligent work.

## FORENSIC GROUP HOLDS SPRING INITIATION RITES

Gregory and Edmundson Are Installed Into Tai Kappa Club, Officers Elected

Tai Kappa Kappa, national honorary forensic fraternity, through its Duke chapter initiated into membership L. H. Edmundson, vice president, and William Gregory, president, at a banquet held at the Duke campus, held Monday evening. The ceremonies were conducted in the dining building.

In order to qualify for membership, candidates must have represented their college in some intercollegiate forensic science competition. Gregory and Edmundson were elected to the office of president and vice president, respectively, at a vote of 10-0.

Immediately after the initiation new officers of the organization were elected. Gregory was chosen president. Edmundson, vice president, and William Gregory, treasurer. Extensive plans were laid out for next year during the course of the last meeting, among which the feasibility and probability of Duke's debating colleges within the state stood conspicuous.

# Newly Elected Members To Be Tapped Tomorrow By Omicron Delta Kappa

## THREE TAKE PART

Trio of Robed Men Will Place Names on Keys in Front of Chapel

## TWELVE TO BE TAPPED

Formal Initiation to Occur Saturday Evening; Is Spring Term Initiation

Names of new members elected to Omicron Delta Kappa, national honorary leadership fraternity, will be made public tomorrow morning. The large O. D. K. key will be placed in front of the chapel and twelve names of coming initiates will be placed upon it. Three members of the fraternity, one robed in white, another in blue, and a third in black, will slowly approach the key from the center of the quadrangle and place upon it the names of the new members.

Although the names of those elected to membership will be announced tomorrow morning, the formal initiation will not take place until Saturday evening. The initiation ceremonies will be followed by a banquet honoring the new members.

Awakened with much enthusiasm, the O. D. K. election always one of the most important happenings on the campus during the spring term. Initiation into its membership is one of the greatest honors of the Duke campus. Omicron Delta Kappa was founded at Washington and Lee university in 1914.

At present there are thirty-seven representative colleges and universities throughout the United States. Its chapters at Duke are established in 1926; its membership numbers 216, many of whom are maintaining close connection with the various student associations.

Dr. Frank C. Brown, of the English department, past national president of the O. D. K., was the chief speaker at the Division of O. D. K. initiation last night. Dr. David Souther, pastor of the Durham First Presbyterian church, was the guest speaker. He was accompanied by Dean D. M. Arnold, accompanied the group to Davidson.

## DANCE RECITAL IS ENJOYED BY ALL

Woman's College of University of North Carolina Gives Delightful Program

The Orchestra club of the Woman's college of the University of North Carolina presented a superior dance recital last night in the auditorium before a crowd estimated at 800 people. Especially enjoyable numbers of this sixth Tri-State Evening "Y" program were the dances of the director, Miss Minna I. Vanderhorst, and the group dance of the club.

The lighting effects were unusual, and succeeded in bringing out the artistry of the dances to a remarkable degree. Miss Vanderhorst's numbers were well called a farewell appearance before state audiences, and were the first that she has ever given on the stage in North Carolina. The dances were "A Sonata," by Beethoven, and "In a Persian March," by Chopin.

Arrangements for the evening, including two acts, were handled by the club, which was pleasantly impressed.

Arrangements for the evening, including two acts, were handled by the club, which was pleasantly impressed. The conclusion of the moderate one, Ravel's "Bolero," the group of comic dances called "Morseaux," and the group of dances called "The Dance of the Hours," by Strauss. It drew a curtain call from the audience, while the applause following the musical dance group was quite enthusiastic.

At 8:30, all club members, made the first of the evening, and the group of dances called "The Dance of the Hours," by Strauss. It drew a curtain call from the audience, while the applause following the musical dance group was quite enthusiastic.

# CHANTICLEER AND ARCHIVE HONORED BY PRESS AWARDS

Duke Publications Take First Places in N. C. C. P. A. Meet

Trio of Robed Men Will Place Names on Keys in Front of Chapel

## NEW OFFICERS ELECTED

Collegiate Publication Problems Discussed in Three-Day Convention at Salem College

The 1932-33 *Archives* and the 1932 *Chanticleer* won first awards in the fields of literary magazine and year book during the annual spring convention of the North Carolina Collegiate Press association, held at Salem college, Winston-Salem, from April 5 through April 7.

The convention began Friday morning with registration, which was followed by lunch at the college. The afternoon session opened with an address by Dr. R. D. Roodhiser, president of Salem college. Group discussions followed consisting of editorial group, magazine group, year book group, and a general group for managers. Topics of general interest and problems of various magazines were discussed at this time. Friday night a banquet was given in honor of the publication representatives, with Mrs. A. W. Wooters, of Beatty, N. C., editor of the *Cleveland Star*, as guest speaker.

Saturday morning the discussion groups met again for a short time to conclude any unfinished business. Following the business sessions, a social session was called at which time prizes were awarded the best publications, and the best year book. The prizes were awarded: Don Torrence, State college, president; Eugene Newsum, Duke, vice president; and J. H. Phillips, *Chanticleer*, editor of the *Chanticleer*, as guest speaker.

It was decided to hold the first annual convention of the North Carolina Collegiate Press association in Greenville, N. C., Committee reports ended the convention.

## HORNE WILL LEAD N. C. FEDERATION IN 1933-34 TERM

Retiring Duke Men's Association Prexy Is Elected Head of State Student Group

## CONGRESS AT CAROLINA

Fourth Annual Convention of Association Is Held in Graham Memorial Building

Wendell Horne, retiring president of Duke Men's association, was elected president of the North Carolina Federation of Students for the 1933-34 term, at the closing session of the fourth annual congress held last Saturday at Chapel Hill. Other officers chosen were Margaret Fink, Women's college of the University of North Carolina, president; Meredith college, secretary; and M. Phillips, Wake Forest, treasurer.

All officers were elected by a unanimous vote.

The feature of the day's program was a luncheon address by Dr. F. E. Bradshaw, dean of the University of North Carolina, who was introduced by Haywood Weeks, student president at the University, who headed this year's Federation of Students.

Dr. Bradshaw's address was a general encouragement address that "in this room lies the future of the world." He stated that the future of the world is in the hands of the student body, and that the student body has the power to change the world.

# YEARBOOK STAFF ELATED AS FIRST ANNUALS APPEAR

Kellam and Power Are All Smiles as Word of Year Is Success

## 1933 BOOK IS BEST YET

New Chanticleer Gives Entertaining and Complete Picture of University

Ed Kellam and Gordon Power were probably the happiest men on the Duke campus Monday night when the former brought from Raleigh the first complete issue of the 1933 *Chanticleer*, first run off the press. Although the presence of a copy on the campus was kept a comparative secret, since both the editor and business manager had sufficient pride and belief in the merit of the annual to realize that a large part of the student body would start clamoring for their copies as soon as one had been located, the *Chanticleer* was favored by a large number of students.

The book is quite the best annual ever published by Duke students. The cover is perhaps the most attractive and definitely beautiful feature of the entire work. The original binding from which the cover has been made is a copy of the sixteenth century. A 1500 edition of the Greek New Testament bound in hand-colored leather, and the *Chanticleer* is a copy of the same. The book is a masterpiece of the book.

The most important point in connection with the new *Chanticleer*, however, is the fact that it is the work of the university as a whole. As far as we can make out, the editors thought of the book as a whole, and accordingly included everything. From the chapel and its choir all the length of the way down to the most trivial details of the year, nothing seems to be omitted.

But since this is after all, a *Chanticleer* volume, we will get into the details of the publication. These, however, are hardly of the staff's doing. The editor has the honor of the publication, and the staff has the honor of the publication.

The editor has the honor of the publication, and the staff has the honor of the publication.

The editor has the honor of the publication, and the staff has the honor of the publication.

## Forty-nine Awards Made By Duke Graduate School

Twenty-six Fellowships and Twenty-three Scholarships Are Announced For All Graduate Departments by Dean W. H. Glesson

Twenty-six fellowships and twenty-three graduate scholarships for the year 1953-54 have recently been announced by Dean W. H. Glesson of the graduate school. These appointments have gone to 49 candidates from a large number of colleges and universities in different parts of the United States, and practically all of them have already been accepted.

The university fellowship for 1953-54 is of the value of \$600 or \$800 each. The stipend attached to the graduate scholarships is \$350 or \$400. All holders of fellowships and scholarships carry a full program of academic work in the university.

At an early date the graduate school will also announce a list of graduate assistantships for the academic year 1953-54. Graduate assistants are required to give aid in their reading, laboratory work, quiz reading, and similar work to the departments. The duties of graduate assistants in many cases require as much of a student's time as that he carries on his part time program of graduate work.

This year there were nearly twice as many applications for fellowships, scholarships and graduate assistantships because of the very great desire to secure these appointments, the department of the university and the committee on fellowships, scholarships and assistantships have had an unusually good response to all graduate students. The very best type in entering the graduate school.

A list of persons appointed to university fellowships is as follows:

**Chemistry**  
John Wesley Le Maître, B.S.E., M.A., Univ. of Mich., Ann Arbor, Mich.; Albert Laetle Shanks, A.B., M.A., Duke, M.T., Giesse, N.C.; William Waldo Williams, B.S., Guilford, M.S., Univ. of N. C., Chapel Hill, N.C.

**Economics**  
Marvin Parodiello, B.A., Univ. of Chattanooga, M.A., Univ. of Chicago, Ill.; David Moody Hargrave, B.S., University College, Newcastle, Pa.; George Miller, B.S., Vanderbilt, Nashville, Tenn.

**Education**  
Leon Brody, A.B., M.S.Ed., College of

City of N. Y., New York, N. Y.

**English**  
Iracl Payton, Goldstein, A.B., Lehigh, Easton, Mass.; Isabella Dine Harris, A.B., Wesleyan College, Goshen, Conn.; William Stanley Hoole, A.B., M.A., Wesleyan College, Dartmouth, N. C.; Walter Dine, N. C., M.A., Duke, Durham, N. C.

**Greek**  
Harold William Miller, A.B., Wofford, A.B., Duke, Spartanburg, S. C.

**History**  
John Clinton Adams, A.B., Univ. of Pennsylvania, Philadelphia, Pa.; Harper Lee Garrett, A.B., The Citadel, M.A., Duke, Greenville, S. C.; Ludwell Lee Montague, A.B., V.M.I., M.A., Univ. of Pa., Gloucester, Va.; William Derrell Oreykley, A.B., Centenary, M.A., La. State, Shreveport, La.; Duke Sparks, A.B., East Texas State Teachers College, M.A., Univ. of Texas, Saltillo, Texas.

**Mathematics**  
Donald Cecil Osherson, A.B., Hastings College, M.A., Univ. of Nebraska, Hastings, Nebraska; Emmet Roach, A.B., East Texas State Teachers College, M.A., Durham, N. C.

**Philosophy**  
Charles Augustus Goodrich, A.B., Bucknell, M.A., Hamilton, Pa.

**Political Science**  
William Marion Gilson, A.B., Univ. of Richmond, A.B., Duke, Baltimore, Md.

**Physics**  
Howard Hyde Bailey, A.B., Haverford, Haverford, Pa.

**Sociology**  
William Bruce Tolson, A.B., Univ. of Pennsylvania, Philadelphia, Pa.

**Zoology**  
Cazlyn G. Bookholt, A.B., St. Stephens, A.M., Syracuse, Roxbury, N. Y.; Helen Elizabeth Butts, A.B., M.A., Brown, Providence, R. I.; Nolan Erwin Rhee, A.B., Univ. of Kentucky, Bellevue, Ky.

The following is the list of graduate scholars:

**Economics**  
Samuel Paul Osherson, A.B., Duke, Winston-Salem, N. C.; William Yates Webb, A.B., M.A., Columbia College, Columbia University, Shelby, N. C.

## Textiles Reminiscent Of Java Are On Display Soon

Imported Native-Made "Batiks" of University of North Carolina Professor Will Form Unique Exhibit in East Campus Library on May 12

A collection of native made batiks, hand-decorated textiles in various colors, just imported from Java by Bradford Blissett, graduate student at the University of North Carolina, will be on exhibit at the Women's College library beginning Friday, May 12. This exhibition, which is under the auspices of the Duke Art association, will continue through commencement.

Mr. Blissett, a native of New York and a graduate of Cornell university, has spent the last two years in Java and Borneo as a geologist with the Gulf oil company. While living in Java he became interested in the native process of batik making and on his return to the United States he brought with him several fine samples of the work. He sent to Java for additional pieces. These were purchased by a Dutchman who has collected native art treasures for many years in Africa, Arabia, and Java.

"Batiks," says Mr. Blissett, "may be defined as hand-decorated textiles, the colors of which are dyed into the fabric consecutively by a process which uses bees-wax as the resistant stencil, allowing one color to be dyed at a time. The patterns have been used for generations, and many still pertain to certain definite social levels among the Javanese people. The industry, widespread and common all over Java, has certain distinguishing designs, though many may be common to all. Ancient folklores, vague suggestions of pagan gods, purely interpretive pictures of sacred objects, and conventionalized symbols or drawings of plants and animals form the motif for the usual designs."

The use of batiks in Java is mainly for wearing apparel. The long rectangular pieces are called "kain kapas" or "kain panjang" as the case may be. These pieces are usually dyed in shades as "sarong," the Malay word for skirt. The square batiks are rolled and wrapped into the shape of a turban-like hat, and hence called "sarung kapas," the latter word meaning head.

The preparation of the cloth for the batik process involves boiling, soaking and pounding. This precedes the waxing of the cloth.

Male natives sometimes stencil out the

main features of the design to be used on a square piece of cloth; and the women use these squares as their guide. The cloth to be waxed is stretched over a frame or movable stand, and generally this main design is blocked out in place before the waxing begins. The purpose of waxing the material is to stencil out that of the cloth which is to be dyed the first color—blue, perhaps. When this is done the piece is reversed and the wax spread over the previously corresponding area.

Some batik making centers still use old vegetable dyes; but modern chemical dyes from Europe have been imported and are in considerable vogue. The large dyeing vats are called "dyeing," and the waxed cloth is dipped in these vats as often as is necessary to obtain the desired shade.

After the first color has been absorbed and dried, the wax is removed by soaking the material in hot water. The cloth is then dipped in starch-water solution so that it may be again spread with less danger of running. The starch treatment should precede each re-dyeing. As the wax is bound to run in places and to crack here and there, causing light lines on a dark color, or dark figures in a lighter area. These irregularities are expected and looked for when judging a real batik.

The next procedure is, of course, to cover all the design just dyed with wax, as well as any other parts of the batik not to be dyed in the secondary shade—red, perhaps. After dipping in a different color, the wax is removed and the process dipping, the batik is ready for the last treatment: Javanese sugar, whitening and, again, which gives a characteristic purple tint to reds, and acts as a mordant, lending to the dye more permanent.

Mr. Blissett, whose work took him into the jungles of Borneo, also spent some time in the larger cities, such as Batavia. He witnessed the making of a batik all of its stages. His ability to speak the Malay language fluently enabled him to converse with batik workers about the making of their batik pieces. Some of the batik in Java were made in a town where he was one of three Americans.

## Cornell Students Solve Important Food Problem

Group of Hundred Collegians Cooperate to Form Dining Association That Serves Meals For \$2.00 Per Week; Only Have Two Meals Daily

A student cooperative dining association at Cornell university, Ithaca, N. Y., that serves meals at \$2.00 per week, has solved the eating problem for 100 students who have been forced to eat during campus living expenses during the depression. All expenses are met by the association itself, according to the *press-opper*, publication of the Cornell United Religious Work association, and first chance to join the organization was given to those found it absolutely necessary to cut expenses.

Organizations of this type have been operated successfully at several western universities, but prior to the establishment of this large dining unit at Cornell, there were many small co-operatives where a few students got together to buy and cook their own food. As a result many of the smaller units often ended up by serving unbalanced and poorly cooked food to share the costs to be sold.

The new organization resulted from the start that poor food, with the long run, mean poor health, and through the aid of the College of Home Economics found that it was possible to serve good meals and still maintain a low rate. Planning is simplified since the manager knows the exact number of students taking meals, and has only to plan one standard meal. Further savings have been possible due to low overhead expenses and the opportunity to buy food at the present wholesale prices.

The association serves two meals each day—breakfast and dinner. For breakfast the members are served fruit, a hot cereal with milk, coffee or cocoa, and Spicerville, Ala.

(Continued on page six)

boast and butter. For dinner they are served with a hot soup, meat, potatoes, one fresh vegetable, and bread and butter. With this diet the members are sure to get a balanced diet, and do not have to sacrifice money for poor meals in order to cut expenses.

The association received \$200 from the university with which to buy the needed equipment, and the surplus from that gift will act as a reserve for additional equipment. The organizers of the association hope to continue the present place on a much larger scale next year if the demand warrants increasing their facilities.

## FINAL SOPH PROM TO BE GIVEN THIS SATURDAY

Cooling their dance ears for the year, the sophomore class will hold its final affair Saturday night, May 15, in the ballroom of the West Union, with the music furnished by Nick Loney's Blue Devils. The patronage for the dance, which will run from 9:00 to 11:45 p. m., will be Miss Evelyn Barnes and Mrs. Clarence Yonkers.

Members of the class who have paid their dues will be checked off as they enter the ballroom. A limited number of tickets will be sold to students at the door, and for date, for fifty cents. Those desiring to reserve tickets may do so by seeing James Gill, Barney Wagner, Joe Jester, or Bill Burke.

This is the final open dance of the year, since the Junior-senior ball next Saturday will be limited exclusively to the members of the two upper classes.

## PHI ETA SIGMA TO HOLD FOUNDER'S DAY PROGRAM

Commemorating the birthday of Thomas Arkle Clark, one of its founders, and the tenth anniversary of its founding, Phi Eta Sigma, honorary freshman fraternity, is to hold a picnic eating tomorrow afternoon, in keeping with similar celebrations at other chapters on this date.

The various chapters are sending telegrams on this date to Mrs. T. A. Clark who survives her husband.

Both freshmen and sophomore members of the order are invited to attend the picnic. The party will meet at 9:00 a. m. and will start at 9:30 a. m.

Any members desiring to go who have not yet signed at Dean O'Rourke's office may make their reservations with the president, Frank Woolsey, 7215, tonight.

**Silver Exhibit**  
The Graham Sterling Silver exhibit presented by Graham Co., makers of silverware, was given Tuesday afternoon, May 2, from 2 to 6 in the Union of the Woman's college. A number of students and faculty wives attended.

During the exhibit, the process of making silverware was explained. A number of complete dinner services were shown, illustrating the various patterns popular today and in past years. This showing represents one of the most complete collections of silverware of all ages. Great interest was shown in the special free-lunch-and-learn tea set shown by the company.

Senior women who attended the exhibit will receive each a sterling silver tea spoon properly marked with their initials.

**Viol Elected**  
At a meeting of the Duke chapter of Alpha Kappa Psi held last night in the Union building, the officers who will take over the chapter next year were elected. Jackson Viol was elected for the office of president, David Wood, vice-presi-

## Bureau Finds Positions Are Scarcer Now

Adverse national economic conditions are retarding the efforts of the university placement bureau to secure positions for Duke students and alumni.

This is the second year of evidence for an organized placement bureau here. The body is divided into three classes: commercial placements under the direction of H. R. Deane, teachers' placement under the direction of Dr. H. H. Halland, and the placement to college teaching positions under the direction of a council composed of department heads.

Although the organization is doing everything within its powers to aid the students and alumni to receive employment, it has keenly felt the business slump and also activities of various state legislatures to decrease appropriations for educational purposes.

Any student or graduate of the school has the opportunity to file application to the placement bureau. If the desired position is commercial, it will be referred to Mr. Deane, who has a list of Duke men already established in business and who may be looking for new men. Mr. Deane also receives requests for recommendations for promising graduates.

The teachers' placement operates on much the same basis. In 1931 it was able to get employment for all of the graduating students who had completed education courses. Last year, three-fourths of the graduating students in education were rewarded with positions.

Appointments to graduate teaching positions in colleges are referred to a council composed of heads of the various departments who act upon the applicants whenever the council is in a position to recommend a man for a post.

dent Walter Whitingstad, secretary George Watson, treasurer, and A. W. Starratt, master of ritual.

# "As long as We're Settling things

SUPPOSE YOU  
TELL ME WHY  
YOU SMOKE  
GRANGER"

"WELL, it's like this. Back in the old days, when men wore high hats and frock coats, they had plenty of time to think things out, and they had sense, too. They used to sit down on a log and take the time to whittle their tobacco from a plug, to be sure of having a cool smoke.

"In those days, a man named Wellman, right here in Quincy, Ill., made about the best tobacco you could get. He knew how to keep the flavor fine and mellow.

"Well, sir, the people who make this Granger Rough Cut acquired Mr. Wellman's method, and they must have known how the old boys used to whittle their tobacco to make it smoke cool. Yes, sir, this Granger is the real stuff. The same mellowness and fine flavor that Wellman used to hand out to his friends. And it's whittled into big shaggy flakes all ready for the pipe. 'Rough Cut' they call it—'cut rough to smoke cool' is the best way I can describe it.

TEN CENTS  
The Granger pouch keeps the tobacco fresh  
"Regardless of price, Granger is about the best pipe tobacco I ever smoked. That's why I smoke it, and that's why they call it America's Pipe Tobacco, sir."  
Now we wanted to sell Granger for 10¢. It was just a question of how to do it for the price. So we pack Granger in a sensible foil pouch instead of an expensive package, knowing that a man can't smoke the package. We give smokers this good

Liggett & Myers Tobacco Co.

# Golf Team Continues Victory March With Win over Carolina

## FINAL DUAL MEET Jake Sullivan Concludes Unde- feated Season by Downing Kramer

### CALDWELL IN FINAL WIN

Veteran Linksman Scores 2 to 1 Victory Over Officer, Carolina's Captain

Winning over Carolina the second time this spring, the Duke golf team yesterday turned in a season record that equals that of last year's great triumph. The 11 to 1 victory over the Tar Heels made the seventh win in an eight-match dual schedule. This, with only one defeat to name their record, the Blue Devils Indians men go into the Southern Conference meet favored to take the title with exactly the same odds as the 1932 team.

In the morning round yesterday, Jake Sullivan won his first nine, one up, tied the last nine, giving him the match and scoring Duke 2½ points to Carolina's ½. This win completed an undefeated season for Sullivan in dual meets, a feat that Roger Peacock performed last year.

Peacock tied the first nine with his second Tar Heel rival, Smith, came back once to win the last nine and matchy score 2½ to ½.

Storm, playing for all his usual game, lost his match when Laxton led him five up on the first nine. The Blue Devil sophomore took the last nine to save one. The three top players for Carolina in this match Laxton turned in the low score for the day of 67, three under par. Caldwell defeated Caldwell, the Carolina's by overcoming a one up lead on the way out, to win the match four to three, score 2 to 1.

In the afternoon play, Smith and Laxton, of the freshman, blanked Storm and Peacock, 3 to 0. Caldwell and Sullivan, of the sophomore class, tied the match, 3 to 3, but to the occasion as they did in the previous Carolina meet, and gained winning three points for the Blue Devils.

Caldwell made a trick shot on the 13th that would make Joe Kirkwood turn green with envy. It was a winner. But J. R. J. drive bounced in such a peculiar manner that it finally ended its journey enmeshed on an exceedingly long stump. Caldwell played the ball off this difficult lie and chalked up a par on the hole.

## CAROLINA TRACKMEN DEFEAT LOCAL FROSH

Three Carolinians, Rankin, Napier, and Evans Score 33 of Their Team's Points

Running up an early lead at the beginning of the meet with the Blue Imps, North Carolina's freshman trackmen held their advantage to the finish, and accumulated 33 points to Duke's 2-8. Three Carolinians—Rankin, Napier, and Evans—scored 33 of their team's points, and for Duke, Starnes and Williams picked up 2 markers apiece.

Before the meet, hopes had run high that the Blue Imps would defeat the big Tar Heels in this second round of the season. But the Blue Devils were in for their first meet with Carolina, Duke barely trailed, 64 to 61; but the boys from Chapel Hill upset the Duke in the 220-yard sprint, and the two mile, Counting out MacQuarrie by a sprint finish in the distance run, to give U. N. C. unexpected points. Napier and Rankin neatly cleaned up the short events for Carolina, when Napier took the 100 and 220, and Rankin won the 120 high hurdles, and placed second in the 120 low hurdles. Bryan, of the second position, took the 440 yard dash, and third in the 220, while Starnes finished second in the 220, and topped first in the low hurdle event of the same distance.

Phillips, of Duke, outdid himself in the pole vault when on his third attempt he cleared the bar at 11 feet 6 inches, a record for the first place with Bear, and equalling the North Carolina state vault record for freshmen.

Carolina annexed two out of the three heats in the weight events when Evans headed the shot put and discs four final events of the field. Williams, Duke, threw the discs and shot put to gain a first and second.

The summary:  
100-yard dash: Won by Rankin, C. Bryan, D. second; Tucker, C. third, Time, 18.3.  
220-yard dash: Won by Rankin, C. second; Thompson, C. third, Time, 40.8.  
440-yard dash: Won by Napier, C. first; Moore, D. second; Bryan, D. third, Time, 1.5.

800-yard dash: Won by Ketter, C. first; Everhart, D. second; Rouser, C. third, Time, 3.0.

2-mile: Won by Cote, C. MacQuarrie, D. second; Sherry, D. third, Time, 13.0.  
4-mile: Won by Rankin, C. first; Rankin, C. second; MacQuarrie, D. third, Time, 28.4.  
8-mile: Won by Rankin, C. first; Rankin, C. second; MacQuarrie, D. third, Time, 58.0.  
16-mile: Won by Rankin, C. first; Rankin, C. second; MacQuarrie, D. third, Time, 1:15.0.  
32-mile: Won by Rankin, C. first; Rankin, C. second; MacQuarrie, D. third, Time, 2:30.0.  
64-mile: Won by Rankin, C. first; Rankin, C. second; MacQuarrie, D. third, Time, 5:00.0.  
128-mile: Won by Rankin, C. first; Rankin, C. second; MacQuarrie, D. third, Time, 10:00.0.  
256-mile: Won by Rankin, C. first; Rankin, C. second; MacQuarrie, D. third, Time, 20:00.0.  
512-mile: Won by Rankin, C. first; Rankin, C. second; MacQuarrie, D. third, Time, 40:00.0.  
1024-mile: Won by Rankin, C. first; Rankin, C. second; MacQuarrie, D. third, Time, 80:00.0.  
2048-mile: Won by Rankin, C. first; Rankin, C. second; MacQuarrie, D. third, Time, 160:00.0.  
4096-mile: Won by Rankin, C. first; Rankin, C. second; MacQuarrie, D. third, Time, 320:00.0.  
8192-mile: Won by Rankin, C. first; Rankin, C. second; MacQuarrie, D. third, Time, 640:00.0.  
16384-mile: Won by Rankin, C. first; Rankin, C. second; MacQuarrie, D. third, Time, 1280:00.0.

## EXAMINATION SCHEDULE

The examinations for the spring semester will begin Wednesday, May 24, and will continue through Saturday, June 2. It had been previously announced that the examinations would begin on Friday, May 26, but due to the fact that this would cause them to continue through part of the commencement exercises, the date was moved up two days.

The schedule is as follows:

8:15 a.m.  
Wednesday, May 24—Classes reciting Th. S. at fourth and fifth periods.  
Thursday, May 25—Classes reciting Th. S. at third period.  
Friday, May 26—Classes reciting Th. S. at second period.  
Saturday, May 27—Classes reciting Th. S. at first period.  
Monday, May 29—Classes reciting M. W. F. at fourth period.  
Tuesday, May 30—Classes reciting M. W. F. at third period.  
Wednesday, May 31—Classes reciting M. W. F. at second period.  
Thursday, June 1—Classes reciting M. W. F. at first period.  
Friday, June 2—Classes reciting M. W. F. at fifth period.  
2:40 p.m.  
Wednesday, May 24—Economics 18

FAIR JUDGMENTS ARE GUARANTEED BY MEN'S COUNCIL

(Continued from page One)  
brief talk, expressing his appreciation for the cooperation given him in the work of the house of representatives. The taking of the oath by the new members of the student council and the house of representatives followed. Wendell Horne administered the oath, which was taken at the same time by the incoming members of both bodies. Joe Shackford was then sworn in as the next president of the men's association. His ready response to the oath brought forth the cheers of the student body.

"I have found that there are many more duties connected with my office than I had before imagined," Shackford said in his inaugural address. He further stated that he would do his best for the interests of the students.

The new president said that, although unfortunate, it was inevitable that some persons in the audience would next year have to appear before the council. He expressed the hope that those students would look upon the council as a group elected by them, and trying in a friendly manner to insure proper conduct on the campus.

FINAL PRODUCTION OF DUKE PLAYERS BRINGS A BIG HIT

(Continued from Page One)  
Ruth Davis in the role of Thersand, shrewd, surprising dramatic actress in her interpretation of the romantic princess. Beauty of voice, figure, and movement all combined to portray the subtle twists of character in the eastern shadown.

Andrew Darlow, Stuart Bosley, Catherine Auerum, and Ronald Arnold, as members of the strolling players, and as prime ministers in the court-of-a-day world, made definite and individual characters.

## STEP OUT! THE HEAT WON'T STOP YOU...

That's the great thing about our New Palm Beach arrivals: They take the curse of the hottest day. They're really cool and really smart.

## THE 1933 PALM BEACH

weaves are decidedly new and the special finish of the cloth means that they'll launder and hold their good looks better than any suit of Summertime.

Double breasted... single breasted. Whites, blues, greys and rajah tan.

## MEDICAL OPPORTUNITY OUTLINED BY DAVISON

Duke Medical School Dean Tells of Opportunities For Women in Medical Fields

Dr. W. C. Davison, dean of the school of medicine, addressed the Woman's college assembly on Thursday, May 4. His talk, "Opportunities for Women in Medicine," was the second of a series of lectures on vacations for women. "Concerning admission to the school of medicine at Duke," said the speaker, "no discrimination is made between men and women. The requirements for success in medicine are intelligence, strength of character, and the ability to put up with tremendous hardships. Women have been in medicine only about seventy-five years. Only seven per cent of all doctors are women."

Dr. Davison continued, "Women have many difficulties in following the medical profession. They often have trouble in getting an internship. If they get one, they are then liable to have difficulties with the nurses. After internship is over the great task of getting into practice confronts them. Forty-three per cent of the women in medicine end up by getting married. Thirty per cent of the remainder engage in general practice. Many of them engage in children's work, obstetrics, laboratory work, or government work."

Dr. Davison concluded his talk with a brief statement of the opportunities in the field of nursing.

## Bible Class Nominates

Last Sunday morning the nominations committee of the Open Forum Bible class made its report of nominations for the officers for the coming year. Those nominated were for president, Ross Russell and Edgar Hall; for vice-president, Lynne Pew and Nicholas Grant; for secretary-treasurer, John Russell and Silbey Boone.

The election will take place next Sunday morning at the regular class session at 8:30 in York chapel. Other nomination may be made from the floor at that time.

## YEARLINGS WANT CARS AND COMPULSORY DUES

Cars and compulsory dues for next year's sophomore class became subjects of hot debate in the freshman class meeting last Saturday.

Ed Abbott, presiding over the meeting, pointed out that a large percentage of the class had not paid its dues this second semester and opened the floor to a general discussion of the advisability of making the payment of dues compulsory next year. After a long discussion, the class declared itself to be in favor of the idea. A letter has been put before Dr. Flowers requesting his approval of the measure.

The question of cars was next brought up, and the discussion ended with the appointment of a committee to present the class views to the administration. The class concurs over this matter has been caused by rumors around the campus to the effect that next year's sophomores would be denied the use of cars. Many, however, are of the opinion that the administration will not see fit to stop

discriminate against one of the three upper classes, especially in view of the fact that cars are so necessary to the college community because of its situation.

Dean Arnold closed the meeting with a few words about courses of study for the ensuing year.

## Field Day

Extensive plans are being made for the spring Field Day of the Woman's college, to be held Saturday, May 13, on Hanes field, and in the Woman's gymnasium. The events scheduled for the meet are tennis, 2 o'clock; baseball, 2:45; track, 3 o'clock; archery, 3:30; riding, 4 o'clock; and swimming, 4:30.

Among the events are tennis matches which are the culmination of a class tournament in singles and doubles being played off the week, a game of polo, and exhibition diving by members of all classes.

## HORNE WILL LEAD N. C. FEDERATION IN 1939-40 TERM

(Continued from Page One)  
that the president-elect be allowed to appoint an executive secretary from his own student body was also passed. The delegates voted to foster a regular publication on a subscription and

congress concluded its sessions Saturday evening with a banquet at which the new officers were installed, and following which the delegates were guests at a dance sponsored by the Order of the Gold, honorary organization at the university.
