The CREATRIX catalog is a vehicle for the distribution of works of creativity which in some way reflect Q-rootedness, Q-identification, Q-commitment. We'd love to have more Q join us in our effort to provide each other with a distribution network, and to gain more Q access to these works. Sooner or later, we'd like to also develop a communications network, to facilitate sharing of information, experiences, resources, skills. All participants share the cost of the catalogs and the responsibility for distributing them. If you are a maker or spreader of Q-rooted crafts/art/music, and would like to participate in the engendering of this network and subsequent catalogs, please write: CREATRIX

Milkyway Handweaving

For four years I have been developing my own uniquely woman's style in functional and decorative handwoven pieces. One of the key to my work is my dyeing: I dye all of the yarns I use except the natural whites, browns, blacks and grays of alpaca, wool, camel, mohair and flax. I like to use natural plant-dyes as much as possible, but after four years of experience in dyeing with flowers, roots, barks and bugs I find myself able to duplicate those luscious colors with chemical when unavailability makes this necessary. All of my pieces are very subtle studies in color combining. I use natural fiber yarns, unspun fleece, and I also hand-spin a small quantity of the yarn I weave with.
I work individually with whoever comiss - 
sions a piece on her choice of colors, design, size, and types of yarn. I require the cost of materials when ordering; the balance upon completion. The prices below are an approximate range of prices:

- bags $25+
- porchsh $75 oo - $150 oo
- blankets $75 oo - $200 oo
- shawls $25 oo - $50 oo
- pillows $20 oo - $25 oo
- sashes $25 oo
- wall hangings/tapestries $60 oo - $300 oo and up, depending on size.

I have been working on a series of abstract landscapes in tapestry, as you see above and below.

My work takes a long time to do, the one at the right, approx. 36"x36", took a month dyeing + weaving. I have a backlog of orders, so gift certificates would be applicable if you order for a friend. Write and ask questions, slides sent for $1 oo handling. In sisterhood, Milkyway
"Celebration of the Clitoris"

DOLLS

The idea for this doll came out of a self-help group I was part of. We realized that girl-children were beginning to hear about their vaginas, but not their clitorises... and thus continuing to learn about their sexuality primarily in terms of their reproductive capacities.

The dolls are 16 inches and have girl bodies of about ten years old. The shape of waist and hips is female. The arms and legs look strong and able. I like to think of them as studying some form of martial art and being really together physically.

The beads representing the clitorises are chosen with how the clitoris feels in mind, rather than how it looks. There are many different beads used.
I have a lot of fun making them because I make each one differently. By the time each one is finished, she has usually acquired a name.

The fabric is muslin, available in:

- purple
- brown
- white

* Please designate your color preference.

All dolls are $18

These few pages mark the beginning of LADYSLIPPER MUSIC—envisioned to become a comprehensive QTs music service (akin to what mass song mass is for books). We are starting with selected recordings which are among the best QTs music available—and will expand our selection as time progresses—as financial resources increase—as more QT record. If you are a musician and have a tape or record of QTs music which needs distributing, be in touch. We encourage you with know-how in the cassette-making field to work at developing high-fidelity cassette technology. Cassette recordings may have the potential to be as high in quality-of-sound as records now are—yet to remain at a lower cost—which would enable more wonderful musicians to get their music out to the rest of us.

Music as a medium is perhaps the most powerful teacher, comforter, catalyst, unifier, source of joy and stark beauty, that we have as individuals and as a movement. May it continue to reflect and intensify our growth.

LIVING WITH LESBIANS

Alix Dobkin has created an outrageously funny yet wise documentation of the George Monuments to the lamp and Lesbians—Separation. The title cut is a vocal picture of Alix, her 5-year-old daughter, her lover, filmed, & erotic life in ten countries on the album jacket and of the dynasty-dioetic & arising, but isolation is a range of songs which includes a sort ballad set in the tune of a Macedonian bridge dance, with the words anckin the banks—among the pretzels, all four of my shoes above my shoes and fellow me through the water. Other things are changing, too. The difficulty of a 9 along in the man's world—In the collective power of a gay energy. In her Amtrak ABC (a saucy romp through the lsdio-alphabet) we learn that a 9-year-old Amtrak, F7 Political Power is the Revolutionary, 0 9 for the queer, you are, and 9 is for vaginas among other things. In a recording that is disarming & beguilingly candid–with planning voice & guitar—a line has been in a delightful fashion of the lesbian vision of reality.

Songs: Living with Lesbians—Over the Banks—Chewing Gum—Lagniappe Dona—Zapulul—Hearts—Strenghts—Cold Old Dona—(with Cassie Carson)—Amazon ABC—Mary B—I Toughen Up—(New Cinnamon)—Thoughts for Penny—The Lesbian Power Authority
