About Ladyslipper

Ladyslipper is a North Carolina non-profit (asexempt organization which has been involved in many facets of women's music since 1976. Our basic purpose has consistently been to heighten public exeminess of the achievements of women artists and musiciant and to expand the scope and availability of musical and filerary recordings by women.

One of the unique aspects of our work has been the annual publication of the world's most comprehensive Catalog and Resource Guide of Recordings by Women—the one you now hold in your hands. This annotated catalog has given hundreds of thousands of people information about and access to recorded works by an expansive variety of female musicians, writers, comics, and composers. Many public and university libraries have added large portions of the catalog to their collections in this manner, the recordings are accessible to much larger populations, and are archived at the same time.

Stores . . .

Write or call for our wholesale catalog.

We distribute recordings on a wide veriety of labels to book and record stores in the eastern seaboard states, from eastern Pennsylvania down through Florida. We also distribute many of these recordings to women's and alternative bookstores nationally and internationally. (If you know of a store in your town you'd like to see stocking the titles in this catalog, please introduce us to each other!) Additionally, we handle sub-distribution (distribution to other distributions) of several labels.

Ladyslipper is also a small independent tabel; our purpose is to further new musical and artistic directions for women musicians. We have issued recordings by Kay Gardner, Libana, Lisa Thiel, Rhiannon, Ruth Barrett, Sue Fink, and other innovative artists.

Our name comes from an exquisite flower which is one of the few wild orchids native to North America and is currently an endangered species.

If You'd Miss Us

Helio and welcome to our new catalog! We hope you will enjoy reading about the exceptional recordings women have been creating over the past and present years; we're very proud, and you should be too! We love producing this catalog and want to continue being able to offer it free of charge. In order to do this, we need everyone who receives this catalog to send us at least one order. Please know that everytime you do place an order, you are helping to provide this catalog to the public. We don't want to depend on outside funding or paid subscriptions. So if you'd miss us if we weren't there, let us know by ordering from ust And thank you to everyone who has in the past, and will in the present and future!

Come For a Visit

We hope you'll stop in for a visit whenever you're in the neighborhood. We have a comfortable "Listening Room" open to the public, where you can check out all those recordings you've been curious about. We're open Monday through Fridays, 9:00 a.m. to 6:00 p.m., with some additional weekend hours in the fall. Our address is 613 Vickers Ave. in Durham. Call us at (919) 683-1570. Hope to see you soon!

Donations are tax-deductible, and we do need the help of triends to continue to grow. We have instituted two clubs to add some pizzazz to fund-raising, the Donor Discount Club and the Musical Month Club. details inside. We also seek endowments and bequests. as we grow older, many of us are having our wills drawn up, and we would ask that if you would like to, please do remember us in your will! Many organizations have retained their continuity down through centuries by the generosity of supporters in this fashion.

As a tax-exempt organization, we are also eligible for grants. If you are a grant-writer, and know of an agency you think will fund us, and would like to help us out by writing and submitting a grant application for us, please write!

If you would like us to send any of your friends, relatives or colleagues a free copy of this catalog, please send us their names and addresses, stamps appreciated.

We hope you enjoy reading this catalog, listening to the recordings you purchase, and celebrating with us the continuation of a rich and diverse women's culture.

How Listings Are Organized

Recordings are organized into categories and then alphabetically by first name. We do this because as women, first names have been more truly our own. Our last names have usually been transferred to us in a patrilinear fashion; historically, husbands and fathers were legally the property owners of the women in their families, and sometimes surnames actually came from slave owners or immigration officers. So our alphabetization-by-first-name method is a small gesture toward acknowledging and altering these customs. Some artists have listings in more than one category. We don't have space to cross-reference, so be sure to check the artist index (which is allphabetical by fast name), in addition to reading through the entire catalog at least once!

Walking on Thin Ice

Following the 1992 release of the 6-CD boxed set of Yoko's music, this ample album of 18 mighlights was complied from the 105-boxing refrospective. Once considered experimental, her music now sounds incredibly consemporary, and this album is a testeriment to the fact that Yoko was amply way sheed of her lime. It reveals her many compelling musical sides from the undemable groove of the talle out, a 1980 hit, to the tender sit of Nobody Sees Me Like You Do, to the sill-out rock and camp of Michaummer New tryts, hell in Paradise could set any dance floor jumping, while Duath of Samantha is a cool, almost parameters of lime about the spintual death of a young woman. "Mehn's Music"

If like the fact that we're part of a movement of gay and straight men who are creating non-sexist music. But for those who have never heard of the ments creasing non-sexist music, sur for those who have hever heart or the mens movement, to say that we do Mens Music only conjures up images of songs about pick-up trucks. Indeed, most music since the beginning of time has been Men's Music by subliminally or not-so-subliminally promoting patriarchal values. For this reason, I think we need to make a distinction by spelling if Mehn's Music.

Be a Slipper Supporter!

Dear Friends,

We're 17 years old now, and what an amazing 17 they've been! Ladyslipper began as a rather outlandish idea for a comprehensive catalog of music by women; and while we never realized how impossible a goal that was, we also never dreamed that the idea would be transformed into a reality of this magnitude. We've grown up alongside an herstorical movement which has touched millions of lives . . . and we could never have survived without you!

We're going to ask those of you who can, to make a contribution to us now. We need your help to insure that we'll be around for another 17 years, and another 17 after that ... to continue providing the resources and materials you're seeking, for as long as there are women making musicand you are listening.

One of the projects we're requesting donations for (and continue to save up for), is our building fund. We are inspired by the Lesbian Herstory Archives, who purchased a building in December 1991; we salute and congratulate them, because this purchase does much to insure the permanency of their important work! Their fund drive began with \$50 in 1979, with the most serious fund-raising efforts occuring since 1986 and continuing into the future.

We are currently renting a space which, while adequate for our present needs, is difficult for visitors to find, is in an isolated, creepy area after dark, is too small to allow for future growth, and requires costly repairs we must pay for (and which have been numerous in a short period of time).

We dream of a permanent home of own: in a convenient location where all sorts of progressive folks can stop in, browse, and make new musical in a safe neighborhood where women can comfortably come and go at late hours of the night without endangering our safety. with planty of space for current and future needs . . . where we are at no one else's mercy . . . and last but not least, close to some decent places

We need your help to make these and other dreams realities. Unlike residential loans, commercial loans require large down payments, higher interest rates (always adjustable), for shorter periods (10 or 15 years instead of 30), meaning much higher monthly payments with less predictability.

We've looked at some wonderful buildings for sale, and while they would all represent significant financial obligations, the idea and goal of a permanent home for our work, and the permanency of our work itself, inspires us to ask each of you now: please contribute to our building fund!

All contributions are tax-deductible. And the more you give, the less you'll be required to donate to the military budget of a government that never even ratified the ERA. Please become a Slipper Supporter today; just fill out the form below, and send it to Ladyslipper, PO Box 3124, Durham NC 27715. We thank you, and all the wonderful past, present and future Slipper Supporters, from the bottom of our hearts!

P.S. We also need a cargo van in decent running condition, if you have one you'd like to donate!

P.P.S. All IBM employees, please note that IBM will match, on a 2:1 basis, Program for Hospitals and the Arts.

Dear Ladyslipper,	rd like to bec	ome your:
